

Name: _____

Total Marks: 23 marks

Total Time: 30 minutes

Show working and answers on this sheet. Show working in sufficient detail to support your answers. Incorrect answers without supporting reasoning may be allocated zero marks.

No Resources Allowed**Question 1****2 marks**

Match the definition on the left-hand side with the correct word on the right-hand side by drawing a line between each one:

Set of all possible outcomes of that experiment	Favourable Outcomes
When a result has a high chance of happening	Even Chance
How often something happens (usually during a period of time)	Sample Space
An equal likelihood that something will or will not happen	Probability
the chance that something will happen - how likely it is that some event will happen	Frequencies

Question 2**1 mark**

Which term best describes the chance of rolling an odd number on a die? Circle the correct answer.

A impossible**B** improbable**C** even chance**D** likely

Question 3**1 mark**

The probability that it will rain this weekend is 33%. What is the probability that it will not rain? Circle the correct answer.

- A 66% B 77% C 33% **D 67%**

Question 4**1 mark**

A bag contains 15 balls of which 11 are red, the probability of getting a red ball at random from the bag is: (Circle the correct answer)

- A $\frac{11}{11}$
B $\frac{15}{11}$
C $\frac{11}{5}$
D $\frac{11}{15}$

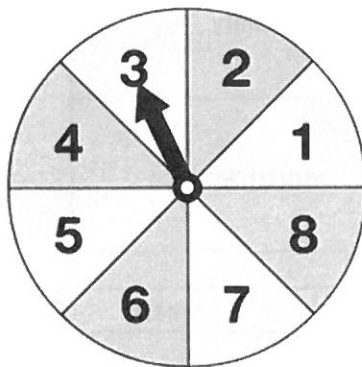

Question 5**1 mark**

The probability of getting an even number if a card is drawn from a box containing 12 identical cards numbered 1, 2, 3,, 12 is: (Circle the correct answer)

- A $\frac{1}{2}$** B $\frac{1}{5}$ C $\frac{2}{5}$ D None of the above

Question 6**1 mark**

A numbered spinner shown below is spun:

What is the probability of getting a number greater than 5?

- A $\frac{1}{2}$ B 1 C $\frac{2}{5}$ **D None of the above**

Question 7

1 mark

The lowest possible value of a probability is:

- A -1 **B 0** C 0.1 D 1

Question 8

1 mark

List the sample space of a 6 sided die: (Circle the correct answer)

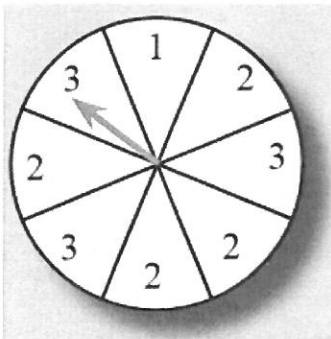

{1, 2, 3, 4, 5, 6}

Question 9

1 mark

If the spinner is spun, on which number is the arrow least likely to stop?

1

Question 10

3 2 marks

One coin is tossed:

- a What is the sample space?

{H, T}

- b What is the probability of tossing a Head?

$\frac{1}{2}$

- c If I toss the coin one hundred times, how many heads should I get?

50

Question 11**5 marks**

An eight-sided die is thrown. The resulting sample space is $\{1,2,3,4,5,6,7,8\}$. What is the probability of each of the following?

a 1

$\frac{1}{8}$

b Odd

$\frac{1}{2}$

c >4

$\frac{1}{2}$

d <1

0

e 9

0

Question 12**5/6 marks**

A class raffle is conducted by writing the numbers from 1 to 25 on a piece of paper and placed in a bag. What is the probability that the drawn number is:

a 15?

$\frac{1}{25}$

b Even?

$\frac{12}{25}$

c Divisible by 5?

$\frac{5}{25} = \frac{1}{5}$
