

Examples of students work

- This resource has been widely used within my mathematics department.
- Here are some examples of student work from a number of different classes and ability levels.
- These worksheets take less than an hour to complete and, with some teacher led examples, can be done without any prior knowledge of transformations.

Louis

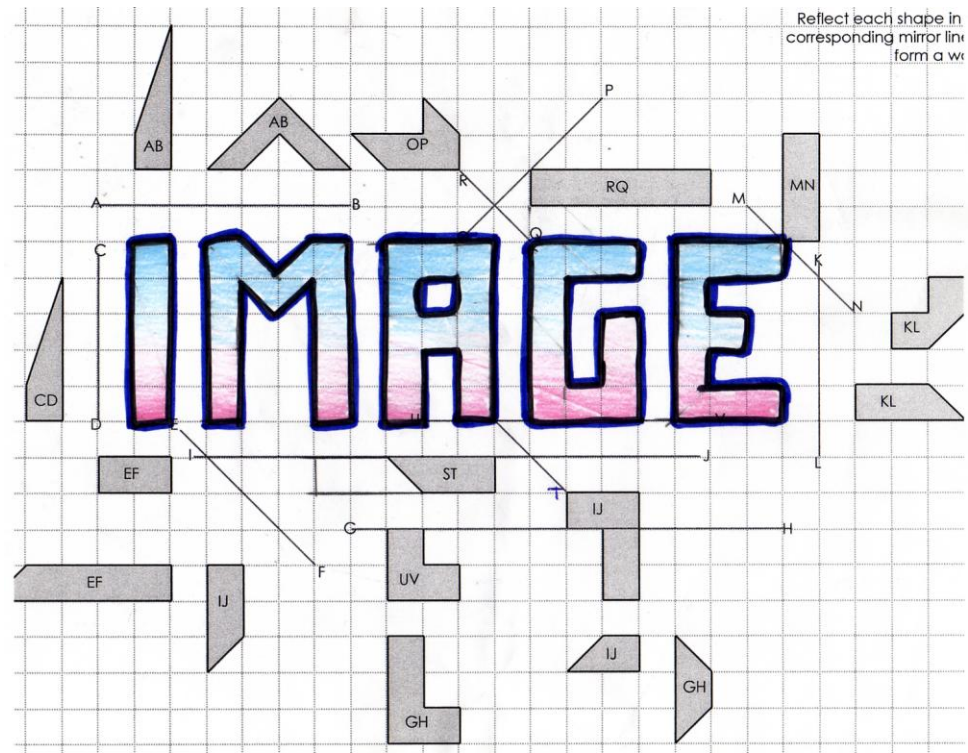

Reflect each shape in the
corresponding mirror line to
form a word.

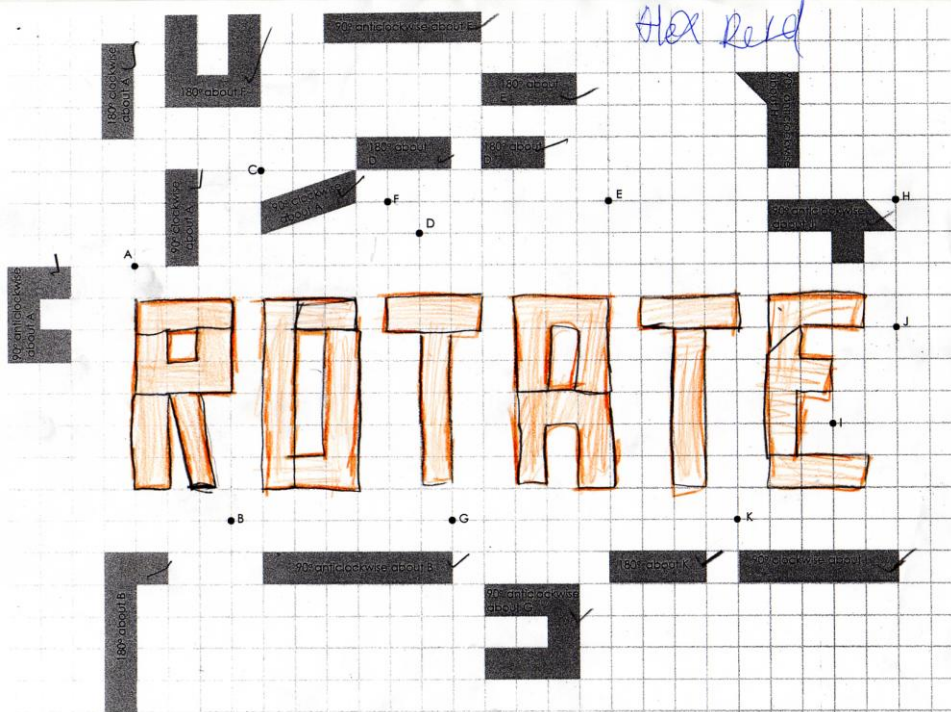

Right: completed by foundation year 11 student.

Reflection

Left: completed by middle ability year 8 student.

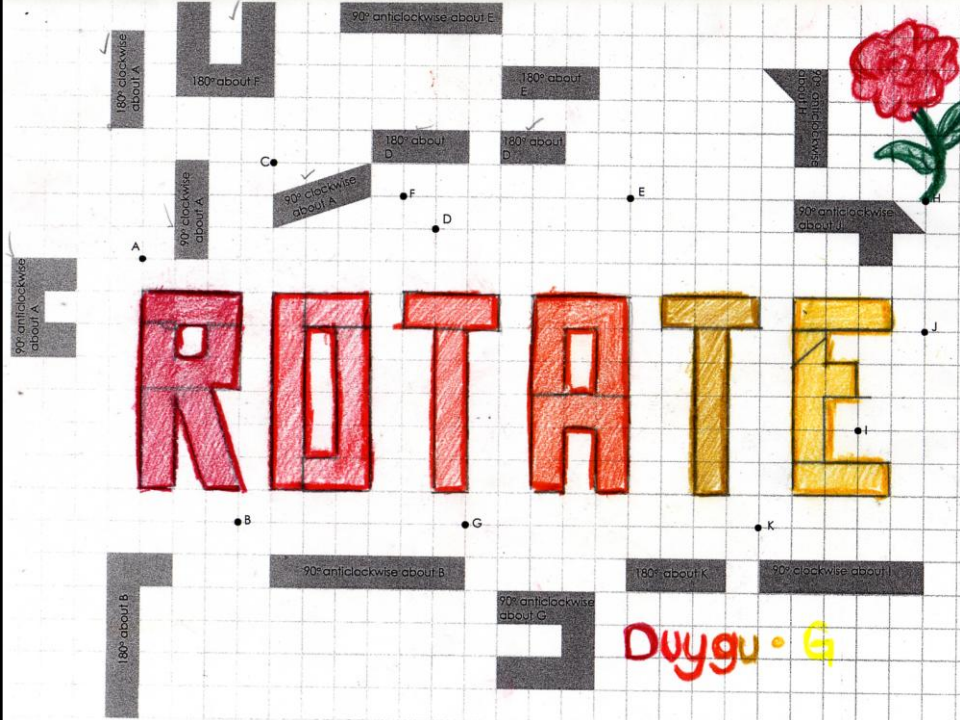

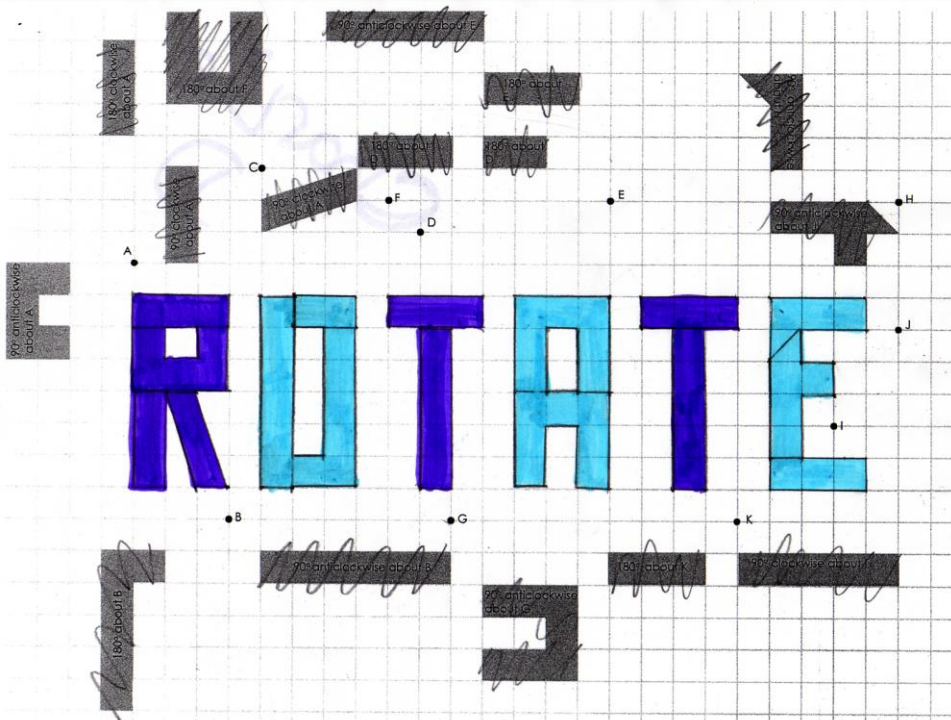

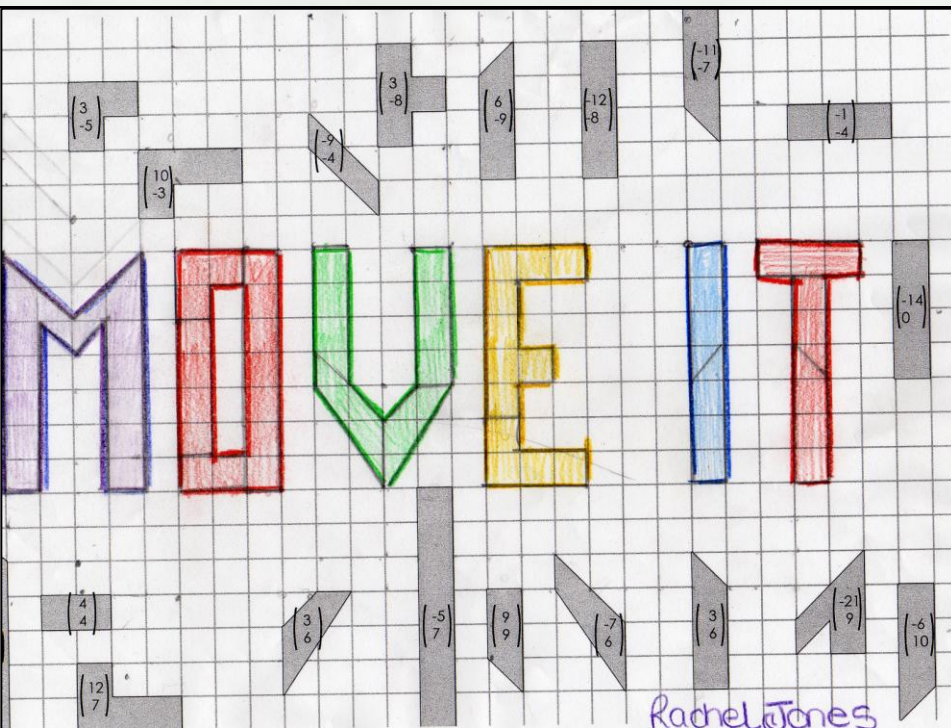

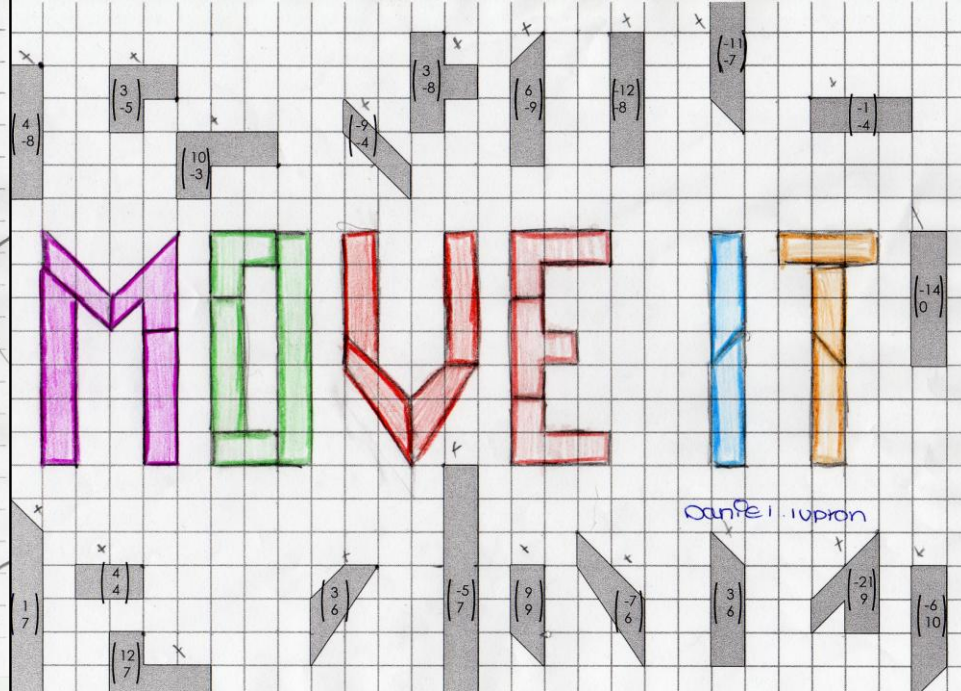

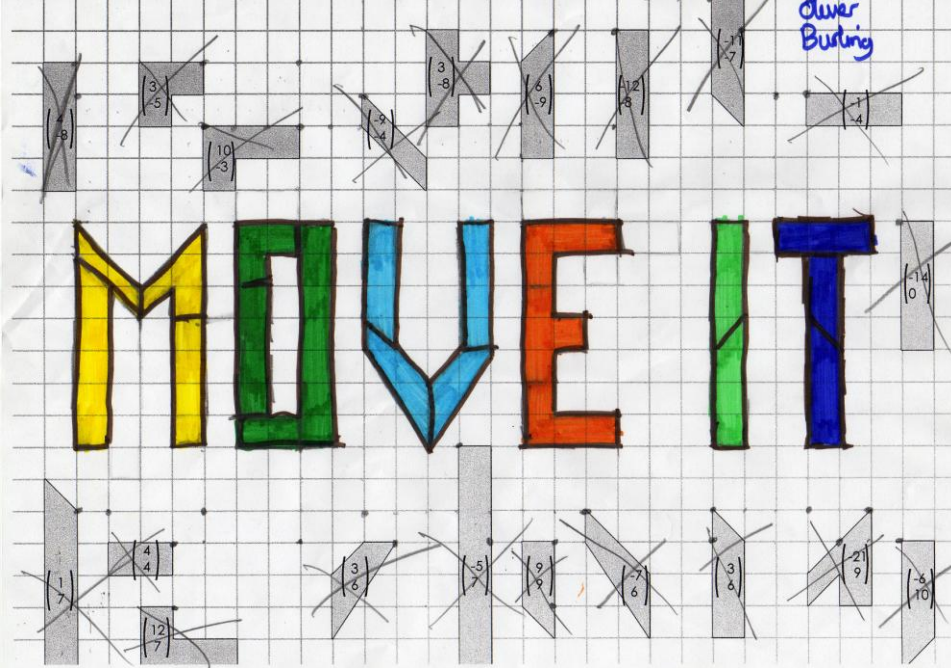

Rotations

Left: completed by a low ability year 8 student

Bottom right: completed by foundation year 11 student

Below: Intermediate year 11 student

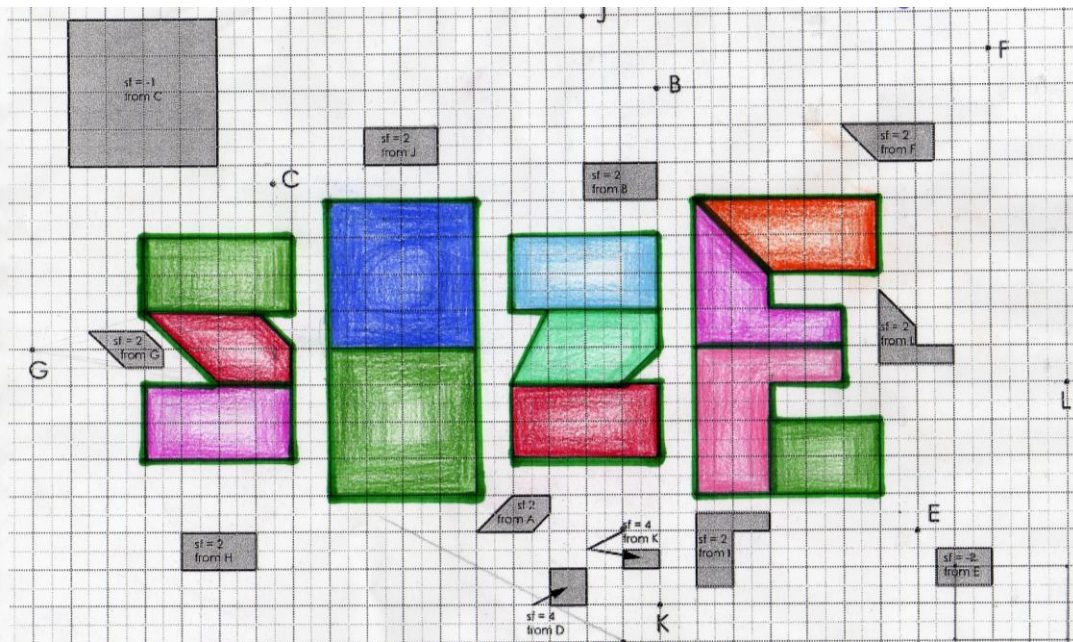

Translations

Top right: middle ability year 8 student

Above & Left: Foundation year 11 students

Enlargements

Left: intermediate year 10 student

Right: middle ability year 9 student
