

## NUMERACY

- 4 What's the next number in the pattern?

2.75, 8.25, 24.75,

- 5 Each pencil is 15 cm in length.  
Cara is 165 cm tall.

How many pencils placed end to end are needed to equal Cara's height?

10      11      12      13

☐      ☐      ☐      ☐

- 6 These are the dimensions of Carol's farm.

To build a fence around the entire farm will cost \$35 per metre.  
How much will it cost to fence the entire farm?

\$11,000      \$11,290      \$11,690      \$12,450

☐      ☐      ☐      ☐

## NUMERACY - Test 7.4 - Calculators ALLOWED

- 1 Taylor saw a motorbike selling for \$750.  
The sales person offered Taylor a 10% discount (10% off the normal price), which Taylor accepted.  
How much did Taylor pay for the motorbike?

\$700      \$675      \$650      \$625

☐      ☐      ☐      ☐

- 2 Alan bought 3 balls for \$39.90.  
How much would 5 balls cost?

\$

- 3 Amie drove from Glengary to Fierford, via Costigan.  
The journey took her 5 hours.

What was Amie's average speed?

60 km/h      65 km/h      70 km/h      80 km/h

☐      ☐      ☐      ☐

## NUMERACY

7

$$63 \times \frac{2}{3} =$$

8

The distance on the map from Maryford to Castletown is 15 cm.

Travelling at an average speed of 25 km/h, how long will it take to drive from Maryford to Castletown?

- 6 hours      7 hours      8 hours      9 hours
- ☐      ☐      ☐      ☐

## NUMERACY

9

Find the value of angle x.

10

CLASS A:

A class of 28 students.

The average score for the end of year exam was 73%.

CLASS B:

A class of 29 students

The average score for the end of year exam was 78%.

What was the average score, for the end of year exam, for Class A and Class B combined? (rounded to one decimal place)

- 79.4      73.8      75.5      76.2
- ☐      ☐      ☐      ☐
