

# PRODUCTION OF PALM OIL

*What is  
palm oil?*

---

---

---

NAME

---

**WHAT IS THE  
SCIENTIFIC NAME FOR  
THE TREE PALM OIL  
COMES FROM?**

---

Where are the following places  
found in the world? How much  
palm oil is produced here a year?

Sumatra

---

---

---

Borneo

---

---

---

What is Palm Oil used  
for?

---

---

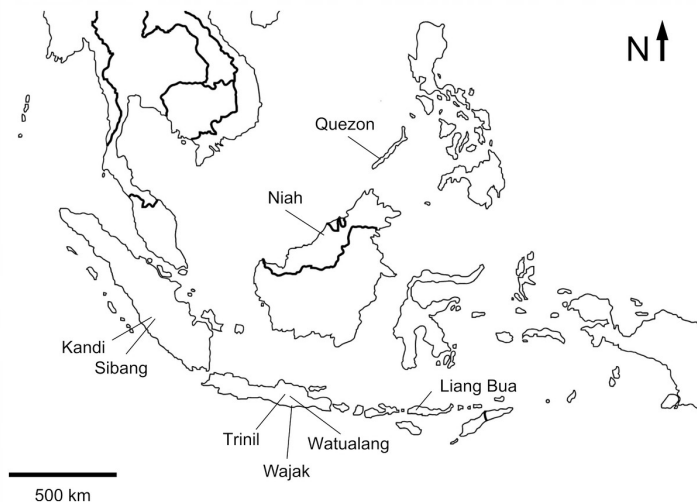

---

---

---

---

Colour Sumarta  
and Borneo on  
the map.

In the box below draw a food web for Sumatra or Borneo, including the plant that palm oil is produced from.

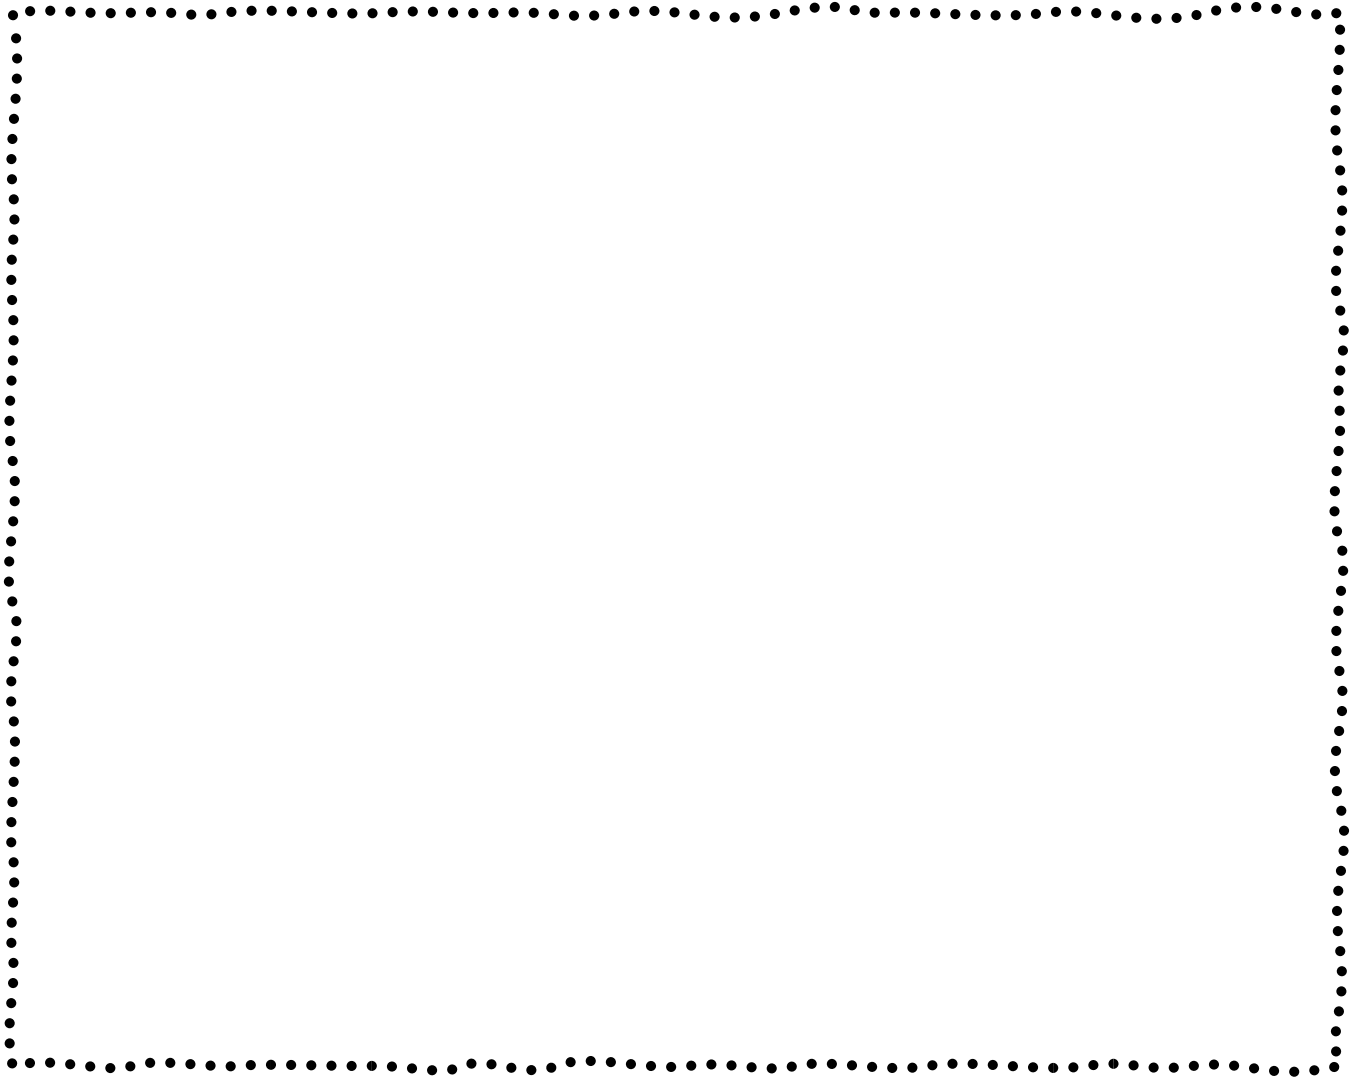

Your food web need to include

1 producer

2 primary consumers

2 secondary consumers

1 tertiary consumer

What is the trophic order of the plant that produces palm oil?

---

What effect does the production of palm oil by humans have on this ecosystem?

---

---

---

If the human impact on this ecosystem is not reduced what species could face endangerment or extinction?

---
