

Oh Rats! A Plague Movie Storyboard

Instructions: Use class notes and primary sources to write & draw a nine scene storyboard for an animated film. The film should be about a flea-ridden rat who helps to spread the Bubonic Plague ("Black Death") into Europe during the 1300s. Write a title for your film and name the main character. Draw a picture of each scene. Be sure to support ideas with evidence and answer the questions within each scene description.

2. Introduce the rat character.

3. Where did the plague originate?

Scene description: _____

4. Write a text excerpt that supports that the plague traveled to Europe.

5. Where did the plague first break out in Europe? Draw a rough map.

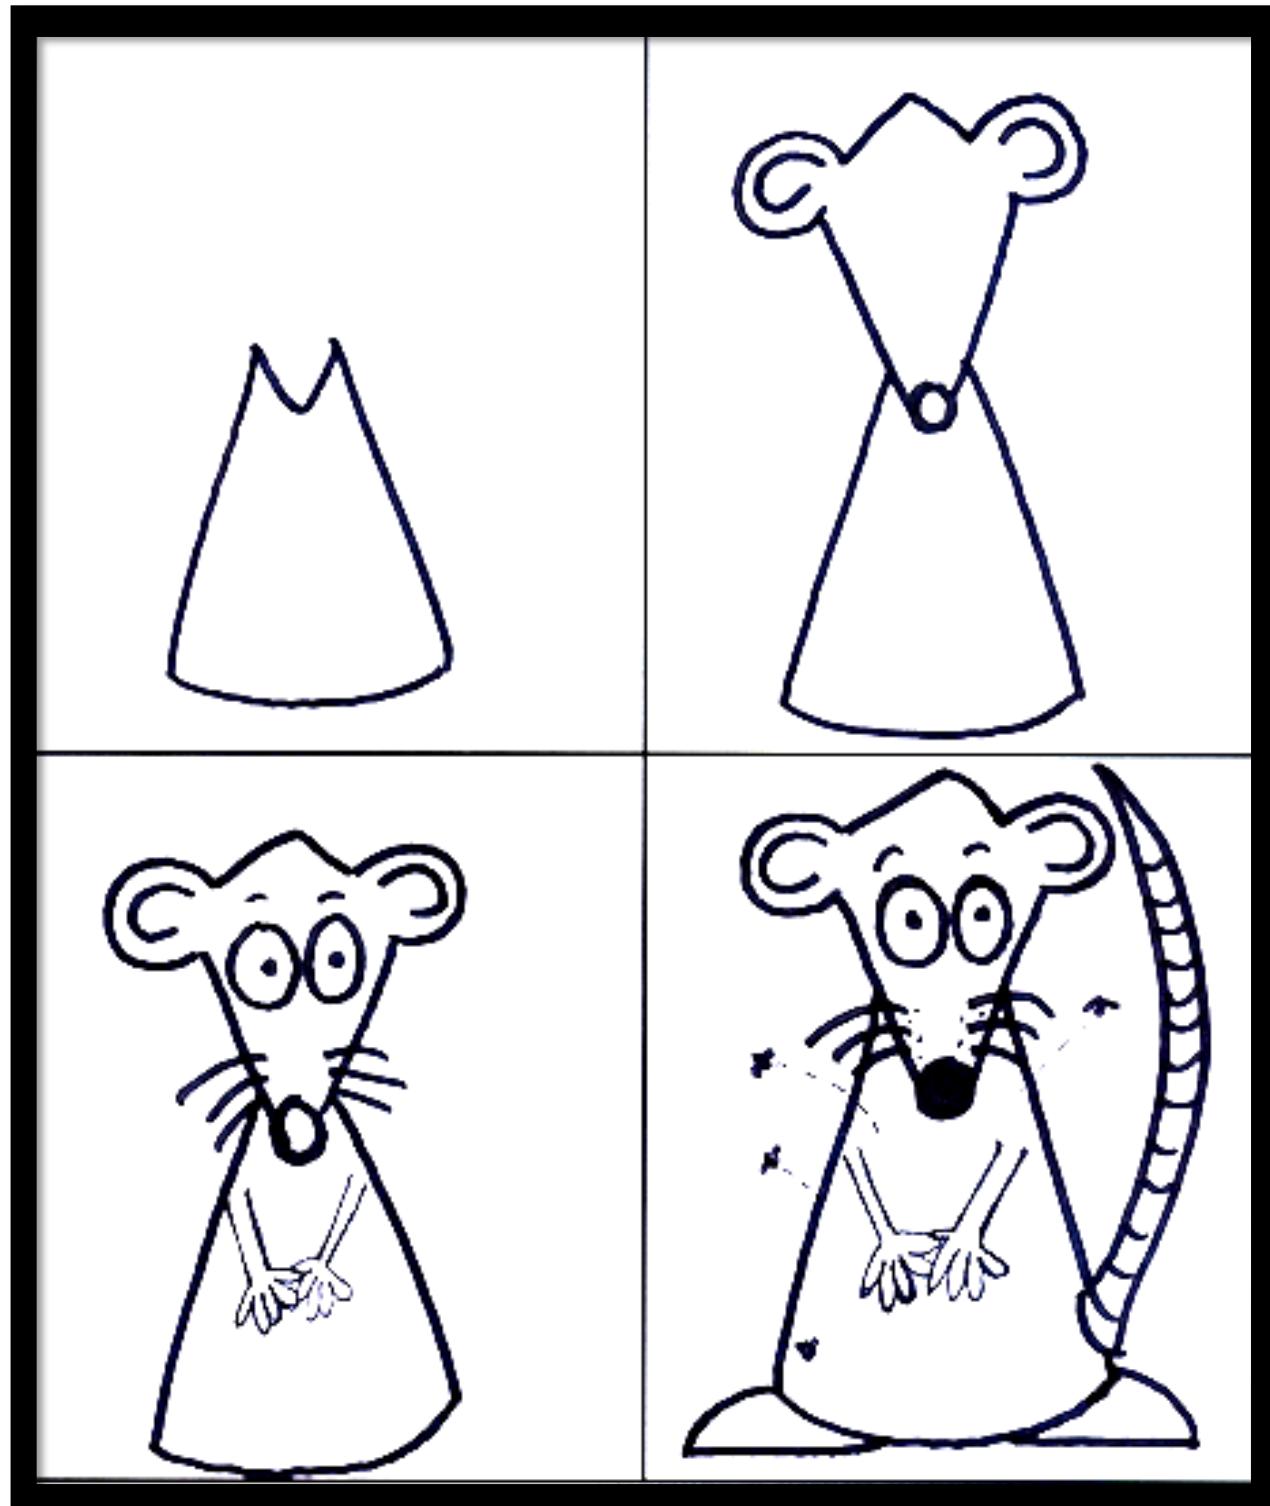

6. What were some of the symptoms?

7. How did the plague spread?

8. Use evidence to support where and when the plague spread within Europe?

9. How many people died from it and what happened to the feudal system/manor system as a result?
