

ANIMAL AND PLANT CELLS

Cells are the basic units found in all living things.

The following labelled diagrams of a plant and animal cell must be remembered

Activity

Complete the following tables using Ch. 3.3 of Science Quest 8 textbook.

Part of Cell	Function
cell membrane	
nucleus	
cytoplasm	
mitochondria	
vacuole	
cell wall	
chloroplasts	

Features Common to All Cells	Differences Between Plant and Animal Cells

Specialised Cells

Both plants and animals have *specialised cells that have a particular function* in the organism.

The following diagrams show some of them.

e.g. Plants - xylem, phloem, guard cells, root hair, etc.

Animals - nerve cells, red and white blood cells, smooth muscle, bone cells, etc.
