

**DRAFT SAMPLE EXAMINATION
MARKING KEY**

DRAFT

SECTION ONE: SHORT ANSWER

Question 1

[4x3 marks]

Answers could include information from below or students may refer to other factors equally relevant and appropriate and should be given a mark for these responses.

EMPHASIS (from the list above) 	<i>Explain the importance of this factor in SECURING work in the future</i> <i>[1 mark]</i>	<i>Choose a piece of evidence from your portfolio which reflects a time when you demonstrated this factor and explain why you chose it</i> <i>[1 mark]</i>	<i>How could you access learning opportunities to improve yourself in this area?</i> <i>[1 mark]</i>
flexibility (adaptable, accommodating)	- vital as there are no longer single focus career paths as there were years ago - must be able to adapt to changes e.g. in technology even if staying in the same work area (automation)	documents such as those showing promotion across levels of achievement within an area or across a variety of areas e.g. creative, technical, manual etc.	- access training courses offered within the company you work for - going to TAFE or Uni to further qualifications - private providers to complete certificates - keep learning new and different things
opportunity (opening, chance)	- employees must be alert to opportunities within their own companies - even when you have employment, networking and keeping alert to available jobs is vital	could choose a certificate showing when they took the chance to do a course or participate in some activity	- have a MySpace or similar page where you can network with people - belong to a professional association or group associated with your industry area to keep up to date with what's available
enterprise (endeavour, initiative)	- showing your initiative and willingness to attempt things is vital when applying for work - can't rely on the steady pattern of jobs leading on, one to the next	some special/unusual achievement or participation	- participate in something outside your comfort zone to push your boundaries - same as for flexibility and opportunity
innovation (advancement, original idea)	- new technology means that responding to innovative ideas happens daily - change is the only constant in the world of work today and we must be able to respond to innovations to keep up	could highlight something they have designed, made—anything involving new and original ideas	- keep current in your profession/industry area by reading or on the internet - TAFE certificates - courses with private providers - keep learning outside the square
change	- this is vital as it is the only constant in the future world of work - workers will have to be prepared to adapt to change e.g. working off-site or different hours, fly-in/fly-out, having 2 or 3 part-time/casual jobs	- certificates that show a progression - may have changed career aspirations between earlier years and now	as for the above areas

risk (possibility, gamble, chance)	• in the changing work environment, being prepared to take a risk could lead you to great things! • may say it's not essential unless you are an entrepreneur	• unusual activities undertaken e.g. Duke of Edinburgh Awards	• try something new and different outside the square • take a course in leadership or with similar skills
being passionate about job aspirations	• this is important in securing work at any time, not just in the future • enthusiasm, energy, motivation are all qualities desirable to employers	• could be extra courses, volunteer work or any avenue they have explored above and beyond the call of duty	• talk to people working in this area and find out as much as you can so you are comfortable talking to a future employee: sometimes being nervous makes you seem less enthusiastic, so fixing the nerves might mean you seem more passionate/keen

Question 2

4 marks	• defines networking clearly and links to career choice • explains 2 opportunities for networking • evaluation shows understanding that networking is vital career tool
2–3 marks	• defines networking and states career choice • explains an opportunity for networking • states importance of networking
1 mark	• states some unrelated aspects of networking

Answers could include the following:

- explain that networking is a set of connections or contacts you have in your life. Can be personal network or employment network. May be professional association or industry group where you meet people, make contacts, exchange ideas
- specific reference to profession/industry area—could discuss professional associations for professions and trade associations for industry
- networking key career tool in the future
- making contacts can open doors that are not available to the general population
- or relevant and appropriate responses.

Question 3

(A)

4 marks	• explains in detail the role of 2 traditional forms of communication • relates forms to a particular workplace
2-3 marks	• explains the role of 1 form of communication in detail and another in less detail • may discuss workplaces in general
1-2 marks	• states 1 form with limited or without detail

Answers could include the following:

- forms of communication mentioned could include: handshake, personal conversation, telephone, fax
- explain their role in a particular workplace (may use their school as an example of a workplace)
 - handshake—welcoming people to the workplace, greeting other workers, finalise a deal
 - personal conversation—conveying information to others, explain work related matters
 - general discussion
 - telephone—switchboard directs incoming to relevant departments etc.
 - or relevant and appropriate responses.

(B)

2 marks	•states 2 reasons related to effectiveness of communication
1 mark	•states 1 reason related to effectiveness of communication

Answers could include the following:

- could link to efficiency and productivity
- some personal contact e.g. handshake, talking hard to replace and you wouldn't want to and vital to the good running of any organisation
- some traditional forms not fast enough or other options more reliable
- may not mesh with newer technologies—other workplaces need to be able to contact you using the most current technology and if you are not compatible with that, you lose business
- or relevant and appropriate responses.

(C)

6 marks	•explains 3 advantages and 3 disadvantages in detail
4–5 marks	•2 advantages and 2 disadvantages outlined
2–3 marks	•1 advantage and 1 disadvantage explained briefly
1 mark	•1 advantage or 1 disadvantage stated

Answers could include the following:

Advantages	Disadvantages
E.g. teleconferencing	
• don't need to travel long distances • can feel a part of the meeting without travelling • save money • bring participants together without physical aspects e.g. meeting room • don't miss any details of meeting, which minutes etc. could leave out	• still not as good as being in person • some people may be uncomfortable with using the technology • technology/equipment/lines may fail and upset the meeting • have to buy equipment which may be expensive • people need to be trained to use the equipment

Advantages	Disadvantages
E.g. electronic mail	
• instantaneous • cheap • can include large amounts of information or different formats e.g. PowerPoint, pictures • things do not get lost in the mail e.g. secretary forgot to post it	• spam • tone of email may be misinterpreted • knee jerk instantaneous responses may be regretted • snail mail gives you time to cool down

Or relevant and appropriate responses

Question 4

(A)

2 marks	• explains importance of being fully informed before making career choices
1 mark	•makes limited recognition of the importance of informed decisions

Answers could include the following:

- people should enter the workforce based on consideration of as much information from a variety of sources
- limited sources could lead to bias or failure to make a broad ranging decision
- or relevant and appropriate responses.

(B)

3 marks	• accurately assesses whether entering a growth area • explains clearly how this could affect future career opportunities
2 marks	• accurately assesses whether entering a growth area • links to affect on future career opportunities referred to
1 mark	• assesses whether entering a growth area inaccurately or does not assess it

Answers could include the following:

- poor projected growth could mean prospects for workers in the area in the future may not be good
- strong projected growth could signal boom industry needing more workers in future
- or relevant and appropriate responses.

(C)

2 marks	• explains importance of being fully informed before making career choices
1 mark	• states 1 factor which could influence accuracy

Answers could include the following:

- factors which could affect accuracy include: unforeseen events e.g. economic, financial or natural disaster
- or relevant and appropriate responses.

Question 5

(A)

4 marks	• identifies and explains 2 mistakes
2–3 marks	• identifies 2 mistakes and explains 1 or • explains 1 mistake in detail
1 mark	• states 1 mistake with limited or without detail

Answers could include the following:

- workplaces should have a clear policy for handling conflict resolution before a conflict happens
- should lead the workers by example
- affect morale
- or relevant and appropriate responses.

(B)

[4 marks]

Could include sites such as <http://www.docep.wa.gov.au>

Or students could mention the Western Australian Dispute Resolution Centre (WADRC) or a number of other bodies.

Question 6

(A)

(i)

2 marks	• briefly explains 2 techniques
1 mark	• states 2 techniques or • briefly explains 1

Answers could include the following:

- go to workplaces and ask if they have any vacancies/leave your resume and details (cold calling)
- ring around and ask about jobs available or coming up in the future
- speak to people you know and let them know that you are interested in finding work, and that they could pass this onto others and contact you if they hear of anything
- or relevant and appropriate responses.

(ii)

2 marks	•briefly explains 2 techniques
1 mark	•states 2 techniques or •briefly explains 1

Answers could include the following:

- go to local businesses, ask about vacancies and leave your resume
- local papers
- notice boards in shopping centres, local job agencies
- or relevant and appropriate responses.

(iii)

2 marks	•briefly explains 2 techniques
1 mark	•states 2 techniques or •briefly explains 1

Answers could include the following:

- job search sites e.g. seek and specialised profession/industry websites
- set up a web page/MySpace/some kind of information page on yourself
- professional associations, networking services
- or relevant and appropriate responses.

(B)

3 marks	• identifies and explains preferred techniques • relates techniques to personal career area
2 marks	• identifies and explains a preferred technique • mentions personal career area but may not link to it
1 mark	•gives 1 reason

Answers could include the following:

- choose one or two techniques and why preferred, could include:
 - comfortable with online or telephone; face-to-face may be intimidating; may not know
 - many people for networking; local area may not have any work in chosen
 - profession/industry
- some industries/profession may suit particular techniques e.g. less likely to use face-to-face for a profession; small companies may not use internet
- or relevant and appropriate responses.

Question 7

(A)

2 marks	•states 4 things recommended for a contract
1 ½ marks	•states 3 things recommended for a contract
1 mark	•states 2 things recommended for a contract
½ mark	•states 1 thing recommended for a contract

Answers could include the following:

- up-to-date personal details
- starting (and where relevant, finishing) date
- duties at work
- level of your employment e.g. trainee
- policies at work
- rate of pay
- employment status (full-time, part-time, casual)
- hours of work
- or relevant and appropriate responses.

(B)

4–6 marks	• explains position of employer • explains position of employee • makes a balanced judgement about the situation
2–3 marks	• explains either employer or employee situation • makes a limited judgement about the situation
1 mark	• states 1 aspect of the situation with limited or without detail

Answers could include the following:

- as an employee you have an obligation to account for money received (this means that if you are handling money as part of your job, you will make sure that the employer receives it all)
- the employer cannot assume you are guilty without proof
- money cannot be taken out of your wages without your permission
- or relevant and appropriate responses.

SECTION TWO: EXTENDED ANSWER

Question 8

Answers could include the following:

- *Outline FIVE (5) innovative strategies which the Google Corporation has introduced to maintain the efficiency, productivity and sustainability of its workers.*

[5 marks]

1 mark per strategy

- workers have lots of special considerations e.g. pets at work, personalised comfortable work space
 - food and drinks are free, readily available and of high quality and great variety
 - other services are free and on-site e.g. daycare, medical, hairdressers, drycleaning, laundry
 - flexible work hours
 - personalised work schedules
 - 20% of the day must be spent on matters other than work
 - recreational/relaxation facilities available e.g. pool tables, swimming pool, games, yoga
 - or relevant and appropriate responses.
- *Discuss the advantages and limitations of strategies such as those employed by Google and assess how successful you think the corporation has been with its innovations.*

[5 marks]

2 marks for advantages

2 marks for disadvantages

1 mark for assessment

Advantages	Disadvantages
• freedom for employees • recognition of personal needs of employees • employees feel valued (not like just another cog in a big wheel) • employer seems to be going out of their way to go above what is normally expected • employees can pursue their own ideas/innovations which could lead to new and exciting developments	• freedoms may be abused by unscrupulous workers • progress for the company cannot be clearly mapped into the future if people are going off on tangents investigating/developing their own ideas

Assessment:

- assess success or lack of success: Google is one of the biggest corporations in the world and was voted the best workplace in the USA. It is worth \$150 billion and an innovator in its (and any other) field, 1300 applications a day are received from would be employees
 - or relevant and appropriate responses.
- *Describe three (3) management strategies used in workplaces.*

1 mark per strategy

[3 marks]

- *Discuss which of the various management styles you prefer, including an example of a workplace in which you would be most comfortable and productive.*

1 mark for reasoned preference

6 marks for explanation

Question 9

- *Explain why you think Australia imports products such as toys, even when the country of origin may not have the same strict industry standards as our own. Should we import such goods? Consider legal, financial and ethical factors in your answer.*

7 marks for reasons

- Australia may import toys because our local toy making industry is limited—wider variety of products for consumers—financial? related to market
- demand for toys may outstrip supply
- may not be aware of the poor industry standards in other countries—legal?
- may be prepared to overlook poor standards in other countries. Head in sand or it will never happen to us approach to problems—what we can't see won't hurt us—ethical
- cheaper price bigger drawcard than high standard product (some parents can't afford items from other countries like USA or Europe—financial
- information on foreign standards may not be readily available
- consumers don't care what's going on in the country of origin, as long as they get the products they want, at a cheap price—ethical

3 marks for opinion

- MUST include own opinion of whether we should import such goods

- *Choose a profession/industry area which is connected globally and describe how it is connected.*

[5 marks]

- *Could you see yourself working locally, but connected to an employer in another country by technology—or would you consider actually working in another country? Discuss these as future career options.*

[5 marks]

3 marks for points made

2 marks for discussion

Connected by technology:

Advantages	Disadvantages
• work from home don't have to travel or move • company sets up your technology and trains you • set your own flexible work schedule to match other demands such as family • can work with people anywhere in the world to match your interests and abilities—won't get frustrated being unable to work in your specialty	• technology may fail—may not receive necessary support • may feel disconnected from the organisation you're working from • isolated feeling may lead to lack of motivation/efficiency/productivity • work schedule may be too open ended

Working in another country:

Advantages	Disadvantages
• work in a profession/industry area unavailable in your country	• moving to another country major trauma—family, possessions, foreign culture

May say that this is not even a consideration in their profession/industry area and explain why.

Exam question mapping to course content

Stage 2 Exam question mapping to course content

Career management					
Self-understanding and management					
•self-understanding and management strategies shape self-image, interactions with others and the ability to become independent.	1 2 4 5 6	8 9	•self-understanding and management strategies change throughout life	1 2	9
			•how the strategies drive changes in self-image and interactions with others	1 2	9
			•decision-making processes about preferred independent futures.	1 4 6	8 9
Career building					
•use of current resources and work search techniques as career building tools	1 2 4 6		•career pathways are generated by making choices informed by continually examining preferred futures	1 4	8 9
•identifying career competencies and personal attributes when making choices for a preferred future	1 6	8 9	•ongoing examination of personal profiles and refinement of career competencies	1	
			•pathways are informed by current work search techniques, resources and labour market information.	2 4 6	8 9
