

What happened to the man who listened to the match?

If one item is selected at random from each group find the probability of getting the one indicated.

Pr (apple) = _____

Pr (2) = _____

Pr (striped circle) = _____

Pr (mug) = _____

Pr (I) = _____

Pr (can) = _____

Pr (fish) = _____

Pr (circle) = _____

Pr (penguin) = _____

Pr (ice cream cone) = _____

$\frac{1}{2}$	$\frac{4}{9}$	$\frac{3}{13}$	$\frac{3}{8}$	$\frac{3}{7}$	$\frac{1}{3}$	$\frac{2}{3}$	$\frac{1}{2}$	$\frac{3}{10}$	$\frac{5}{9}$	$\frac{4}{9}$	$\frac{1}{4}$	$\frac{3}{7}$

Why did the sheepdog fail its driving test?

If one item is selected at random from each region, find the probability that it will be the lettered items. Each lettered item and its probability gives the puzzle code.

$\frac{4}{9}$	$\frac{1}{9}$	$\frac{1}{3}$	$\frac{2}{15}$	$\frac{3}{14}$	$\frac{2}{9}$	$\frac{5}{12}$	$\frac{1}{5}$	$\frac{5}{14}$			
$\frac{4}{15}$	$\frac{1}{4}$	$\frac{1}{7}$	$\frac{1}{9}$	$\frac{1}{4}$	$\frac{1}{9}$	$\frac{2}{7}$	$\frac{1}{9}$	$\frac{5}{14}$	$\frac{3}{14}$	$\frac{2}{5}$	$\frac{1}{5}$

What's worse than an Indian on the warpath?

Determine the expected outcomes of the following experiments. Each answer will give part of the puzzle code.

48 rolls of a die. How many 3s?	26 draws with replacement from a pack of cards. How many red cards?
a	b
50 random selections of a number from 1 to 10. How many prime numbers?	15 selections with replacement from a bag containing 3 white and 2 red marbles. How many white marbles?
e	f
78 selections from the letters in the alphabet. How many vowels?	In a class of 30 how many pass a test if each has a probability of 0.9 of passing?
h	i
93 people were asked for their favourite day in January. How many days ending in a one?	How many heads in 50 tosses of a coin?
k	n
40 digits are selected at random. How many 5s?	99 numbers chosen randomly from 10 to 20. How many odd numbers?
o	p
130 draws from a pack of cards. How many aces?	34 rolls of a die. How many results under 4?
s	t

8	13	8	25	8	25	8	10	12	27	25		
4	25	17	15	20	9	4	4	17	45	8	17	15
