Externally set task 2017

Write your name in this box.

Student number: In figures

--	--	--	--	--	--	--	--

In words

--	--	--	--	--	--	--	--

Before starting this task **check that you have:**

- black or blue pen, 2B pencils
- sharpener
- eraser
- highlighters
- correction fluid/tape.

Total time for the task: 50 minutes
Total marks: 30 marks
Weighting: 15% of the school mark

Read this article about safety in the workplace and answer the questions that follow.

If it's too hot in the kitchen ...

Occupational Health and Safety is a serious issue in the workplace, particularly with young workers aged under 25. Safety procedures need to be followed to prevent thousands of young workers being injured each year in the workplace and making compensation claims for their injuries. Insurance companies pay out millions of dollars in compensation claims each year and employers have to allow for these injured workers to have time to recover.

Many inexperienced youths enter the workforce on a part-time or casual basis. Accommodation and food services, such as fast food outlets, hotels, restaurants and cafés provide more young workers with employment opportunities than any other industry. Working in these industries, young workers gain valuable work experience that can lead to full-time employment in the future. However, in entering the food service industry, young workers need to be aware that their workplace has more risks and hazards than most other industries.

As can be seen in Figure 1, young workers in the accommodation and food services industries have the highest rate of injuries for the hours worked.

Figure 1: Proportion of young workers injured in selected industries.

Burns and scalds

Almost half of the reported injuries in the food services industry related to employees being burnt or scalded. Young workers are exposed to a range of hazards in kitchen and café environments which can lead to serious injuries.

- Burns are caused by contact with hot surfaces, hot objects and open flames, such as ovens and hot plates.
- Scalds are caused by contact with hot fluids, such as boiling water and steam.

See next page

To reduce the number of young workers being injured in the accommodation and food services industries, employees are provided with the following safety procedures.

Safety Procedures

Please ensure you:

- **use personal protective equipment**
Oven mitts should be worn when handling hot objects, such as pots and hot plates, to prevent heat burns; and cleaning gloves should be worn when using chemicals for cleaning to help prevent chemical burns.
- **turn cooking equipment handles to the centre of the stove top**
All pot and pan handles need to be turned to the centre of the stove top to prevent people accidentally knocking them over and possibly scalding someone.
- **do not drop food into the fryer**
Dropping food into a fryer will cause hot oil to splash and can scald people nearby.
- **stand to the side when opening ovens, dishwashers and steamers**
A burst of hot air or steam released on opening can scald the operator.
- **monitor cooking**
Ensure that food that is cooking, particularly in hot oil, is not left unattended. Hot oil and food can burst into flames if not monitored.
- **open lids away from your body**
Open lids away from the body to avoid scalding.
- **report faulty equipment**
Faulty equipment such as frayed electrical cords and power sockets need to be reported to the line manager.
- **check that coffee machines have finished**
When using coffee machines, ensure that the machine has finished dispensing coffee. Many workers are scalded by boiling water when they try to remove the cup before the machine has finished dispensing the coffee.

Conclusion

It is very important to follow safety procedures in the workplace. Thousands of young workers are injured every year. Don't put yourself or fellow staff at risk of being injured. By ensuring that everyone knows how to keep workplaces safer, the risk of injury is reduced greatly.

Reading and comprehending

Question 1

- (a) What is the purpose of this text? (2 marks)

- (b) Who is this text written for? (2 marks)

- (c) State the **three** reasons given by the author in paragraph 1 on page 3, to follow safety procedures. (3 marks)

One: _____

Two: _____

Three: _____

- (d) According to Figure 1 on page 3, what percentage of injuries in the workplace was reported by young workers in the accommodation and food services industries? (1 mark)

- (e) Give **two** reasons why young workers in the accommodation and food services industries have the highest rate of injuries. (2 marks)

One: _____

Two: _____

- (f) Explain the difference between a burn and a scald. (2 marks)

A burn: _____

A scald: _____

- (g) What injuries are prevented by wearing oven mitts and cleaning gloves? (2 marks)

Oven mitts: _____

Cleaning gloves: _____

- (h) Why do you think it's important to report electrical faults to the manager? (1 mark)

Producing text

Question 2

(15 marks)

Choose an industry from Figure 1 on page 3, that you would **most** or **least** like to work in. Explain exactly what you have to do in this type of work and give reasons why you **do** or **do not** want to work in this industry.

Remember to:

- plan your response before you start
- state your opinion clearly
- describe your job and the duties you have to perform
- explain the advantages **or** disadvantages of working in the chosen industry; support your points with evidence
- write persuasively, making sure that your attitude to that type of work is clear
- check your work for errors.

End of questions

DO NOT WRITE IN THIS AREA AS IT WILL BE CUT OFF

Reading and comprehending

Question 1

- (a) What is the purpose of this text? (2 marks)

Description	Marks
To inform young workers in the accommodation and food/hospitality (or similar) industry	1
About safety/hazards in the workplace	1
Total	2
Accept other relevant answers.	

- (b) Who is this text written for? (2 marks)

Description	Marks
Young people/people under 25/youths	1
Working in/entering the accommodation and food/hospitality (or similar) industry	1
Total	2

- (c) State the **three** reasons given by the author in paragraph 1 on page 3, to follow safety procedures. (3 marks)

Description	Marks
One: to prevent injuries	1
Two: to reduce compensation claims	1
Three: to reduce amount of work time lost due to injury	1
Total	3

- (d) According to Figure 1 on page 3, what percentage of injuries in the workplace was reported by young workers in the accommodation and food services industries? (1 mark)

Description	Marks
28%	1
Total	1

- (e) Give **two** reasons why young workers in the accommodation and food services industries have the highest rate of injuries. (2 marks)

Description	Marks
There are more young workers in these industries (than any other industry)	1
There are more risks/hazards in these industries	1
Total	2
Accept other relevant answers.	

- (f) Explain the difference between a burn and a scald. (2 marks)

Description	Marks
A burn: is caused by contact with hot surfaces, hot objects or open flames	1
A scald: is caused by hot liquids/fluids/steam	1
Total	2

- (g) What injuries are prevented by wearing oven mitts and cleaning gloves? (2 marks)

Description	Marks
Oven mitts: heat burns	1
Cleaning gloves: chemical burns	1
Total	2

- (h) Why do you think it's important to report electrical faults to the manager? (1 mark)

Description	Marks
To prevent injuries/burns/electrocution or So equipment can be removed and/or repaired	1
Total	1
Accept other relevant answers.

Question 2

(15 marks)

Choose an industry from Figure 1 on page 3, that you would **most** or **least** like to work in. Explain exactly what you have to do in this type of work and give reasons why you **do** or **do not** want to work in this industry.

Remember to:

- plan your response before you start
- state your opinion clearly
- describe your job and the duties you have to perform
- explain the advantages **or** disadvantages of working in the chosen industry; support your points with evidence
- write persuasively, making sure that your attitude to that type of work is clear
- check your work for errors.

Criteria	Marks
Task requirements	
Presents a persuasive and purposeful explanation of his/her attitude towards working in the chosen industry.	5
Presents a mostly persuasive and purposeful explanation of his/her attitude towards working in the chosen industry.	4
Presents a general explanation of his/her attitude towards working in the chosen industry, using one or two persuasive techniques.	3
Presents a limited or simplistic explanation of his/her attitude towards working in the chosen industry. Does not use persuasive techniques.	2
Presents little explanation of his/her attitude towards working in the chosen industry. Does not use persuasive techniques.	1
Presents no explanation of his/her attitude towards working in the chosen industry.	0
Subtotal	5
Expression	
Expresses ideas and information clearly and coherently, making appropriate language choices with correct spelling and punctuation.	5
Expresses ideas and information mostly clearly, making mostly appropriate language choices. Errors made in spelling and punctuation do not impede meaning.	4
Expresses ideas and information making some appropriate language choices. Errors impede meaning at times but overall meaning can be understood.	3
Expression is not always clear, with errors impeding meaning so that overall meaning is not always understood.	2
Expression is fragmented so it is difficult to follow meaning.	1
Does not express ideas.	0
Subtotal	5
Structure	
Demonstrates a consistently accurate understanding of the features/conventions of the chosen response.	5
Demonstrates a sound understanding of the features/conventions of the chosen response.	4
Demonstrates some understanding of the features/conventions of the chosen response.	3
Makes limited use of the features/conventions of the chosen response.	2
Makes very limited use of the features/conventions of the chosen response.	1
Makes no use of the features/conventions of the chosen response.	0
Subtotal	5
Total	15
