Additional information

The examination is presented in a combined question/answer booklet with a separate multiple-choice answer sheet.

Section	Supporting information
Section One Multiple-choice 15% of the written exam 15 questions Suggested working time: 20 minutes	Questions in this section draw on understandings applicable to all three context areas. Candidates indicate their answers on the separate multiple-choice answer sheet. Stimulus materials could include diagrams, data analysis and photographs.
Section Two Short answer 40% of the written exam 8–12 questions Suggested working time: 70 minutes	Questions in this section draw on understandings applicable to all three context areas. There are a range of closed and open-ended questions with varying levels of complexity. Stimulus materials could include data, diagrams, media imagery and messages, photographs or a case study scenario. Questions may be answered using a range of formats such as short paragraphs, dot points, diagrams and/or tables.
Section Three Extended answer 15% of the written exam One question Suggested working time: 30 minutes	This question draws on understandings applicable to all three context areas. There is less scaffolding than is the case in the Stage 2 examination. Stimulus materials could include data, diagrams, media imagery and messages, photographs or a case study scenario.
Section Four Context specific extended answer 30% of the written exam Two questions from nine (three per context area) Suggested working time: 60 minutes	Candidates are required to write two extended responses drawing on one of the context areas i.e. • hospitality • nutrition and health promotion • product development. There is choice within each context area. Stimulus materials could include data, diagrams, media imagery and messages, photographs or a case study scenario.
