

## **OUTDOOR EDUCATION STAGE 2 SAMPLE EXAMINATION**

Section 7 of the *New WACE Manual: General Information 2006–2009* outlines the policy on WACE examinations.

Further information about the WACE Examinations policy can be accessed from the Curriculum Council website at [http://newwace.curriculum.wa.edu.au/pages/about\\_wace\\_manual.asp](http://newwace.curriculum.wa.edu.au/pages/about_wace_manual.asp).

The purpose for providing a sample examination is to provide teachers with an example of how the course will be examined. Further finetuning will be made to this sample in 2007 by the examination panel following consultation with teachers, measurement specialists and advice from the Assessment, Review and Moderation (ARM) panel.

***Time allowed for this paper***

Reading/planning time before commencing work:

Ten minutes

Working time for paper:

Three hours

***Material required/recommended for this paper***

**To be provided by the supervisor**

Question/Answer Booklet

Multiple Choice Answer Sheet

**To be provided by the candidate**

Standard items: Pens, pencil (for multiple choice section), eraser or correction fluid, highlighter, ruler, printed English language dictionary and/or bilingual dictionary (not electronic and not a thesaurus)

Special items: Compass

***Important note to candidates***

No other items may be taken into the examination room. It is **your** responsibility to ensure that you do not have any unauthorised notes or other items of a non-personal nature in the examination room. If you have any unauthorised material with you, hand it to the supervisor **before** reading any further.

***Structure of this paper***

| Section                          | Suggested working time | Number of questions available | Number of questions to be attempted | Marks available | %    |
|----------------------------------|------------------------|-------------------------------|-------------------------------------|-----------------|------|
| Section One: Multiple Choice     | 30 minutes             | 20                            | 20                                  | 20              | 10%  |
| Section Two: Short Response      | 60 minutes             | 10                            | 10                                  | 60              | 45%  |
| Section Three: Extended Response | 90 minutes             | 3                             | 3                                   | 60              | 45%  |
| [Total marks]                    |                        |                               |                                     | 140             | 100% |

***Instructions to candidates***

1. The rules for the conduct of Curriculum Council examinations are detailed in the *Student Information Handbook*. Sitting this examination implies that you agree to abide by these rules.
2. For Section One you are provided with a Multiple Choice Answer Sheet. Use a pencil for all entries on this sheet. For each question, shade the box which indicates your answer.
3. For Sections Two and Three, write your answers in the spaces provided in this Question/Answer Booklet. A blue or black ballpoint or ink pen should be used. Wherever appropriate, fully labelled diagrams, tables and examples should be used to illustrate and support your answers.
4. You must be careful to confine your responses to the specific questions asked and to follow any instructions that are specific to a particular question.
5. Spare answer pages may be found at the end of this booklet. If you need to use them, indicate in the original answer space where the answer is continued (i.e. give the page number).

**SECTION ONE—Multiple Choice**

A multiple choice answer sheet is provided for you to answer questions in this section. Use a pencil for all entries. For each question, shade the box which indicates your answer.

This section has **TWENTY (20)** questions. Attempt **ALL** questions.

Allow approximately 30 minutes for this section [20 marks].

---

1. During the planning process for an expedition, which of the following factors should an individual consider? [1 mark]
- (A) goals, equipment, weather, access to location and duration
  - (B) equipment, terrain and water availability
  - (C) distance between campsites, vegetation and forecast
  - (D) all of the above.
2. A satellite phone should be included on a leader's equipment list as part of an emergency response plan for a school expedition because [1 mark]
- (A) it is seen to be best practice, using available technology
  - (B) it is detailed in the 'Guidelines for Outdoor Education and Recreation Activities'
  - (C) students may need to call home
  - (D) it is recognised as an effective method of making contact with people.
3. Which of the following methods would be the best method to evaluate the success of an outdoor experience in achieving its goals? [1 mark]
- (A) group reflection through a facilitated debrief
  - (B) personal reflection at the end of each day
  - (C) entries in a personal journal
  - (D) one-to-one interview
4. The recommended process for initial response to an emergency is [1 mark]
- (A) assess for danger, assess the level of consciousness of the patient, and attend to life threatening conditions, stabilise the patient
  - (B) assess for danger, assess the situation, identify the number of patients and prioritise their care, attend to life threatening conditions, stabilise the patient
  - (C) assess the level of consciousness of the patient, apply appropriate first aid, monitor
  - (D) run as quickly as you can to get help.

5. It is important to minimise our impact on the environment during outdoor experiences. The leave no trace principles address the different ways human impact can be minimised. Choose the answer below that contains all these principles.

[1 mark]

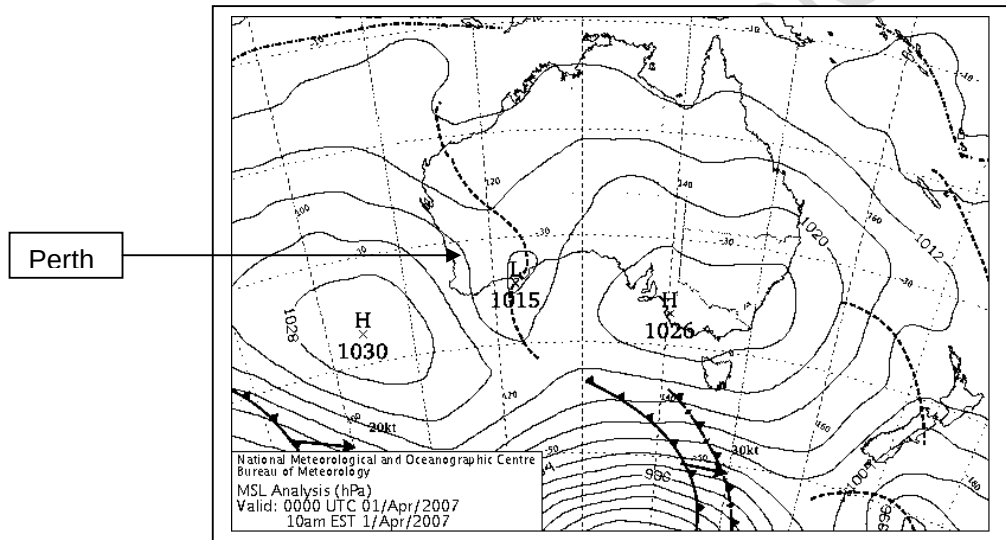

- (A) travel and camp on durable surfaces, dispose of waste properly, cook on a portable stove, respect wildlife, wear natural coloured clothing and do not enter private property
- (B) remove all signs of your presence in the environment, dispose of waste properly, only light a small fire and wash in large rivers but not small waterways
- (C) don't touch plant or animals, take photographs and leave only footprints
- (D) plan ahead and prepare, travel and camp on durable surfaces, dispose of waste properly, leave what you find, minimise campfire impacts, respect wildlife, and be considerate of your hosts and other visitors.

6. Which of the following are essential features on a topographical map?

[1 mark]

- (A) scale, key, gridlines,
- (B) year of publication, magnetic variations
- (C) true north, scale, names of rivers
- (D) name, title, date of publish

Use the synoptic chart below to answer the following two questions.

7. Choose the best description for the likely weather Perth would be experiencing (wind, temperature, clouds, rain) on that day.

[1 mark]

- (A) calm, approximately 30°, stratocumulus clouds, no rain
- (B) weak wind, approximately 20°, cumulus clouds, some rain
- (C) calm, approximately 25°, scattered cumulus clouds, no rain
- (D) strong winds, approximately 15°, cumulonimbus clouds, thunderstorms

8. From the same map, what is the approximate barometric pressure reading for Perth and indicate whether it is likely to rise or fall?

[1 mark]

- (A) 1015mmhg and rising
- (B) 1023mmhg and rising
- (C) 1025mmhg and falling
- (D) 1030mmhg and rising

9. What are the key elements in maintaining and caring for ropes?

[1 mark]

- (A) keep out of direct sunlight, chemicals, correct storage, knot removal
- (B) washing twice a year
- (C) keeping in bag
- (D) ensure ropes are frequently used

10. The autocratic leadership style can best be described as

[1 mark]

- (A) an approach in which the leader has complete power
- (B) an approach which involves shared decision-making
- (C) an approach in which the leader has given all power to the group
- (D) an approach in which a leader is voted by the rest of the group.

11. During a debrief participants are expected to

[1 mark]

- (A) listen attentively and contribute honest thoughts and feeling to the group
- (B) sit in a way that everyone else is clearly in view
- (C) reflect on their experience
- (D) all of the above.

12. When selecting equipment for an expedition you need to consider

[1 mark]

- (A) size and weight
- (B) durability
- (C) mode of transport
- (D) all of the above.

13. Which of the following is not describing 'commitment'?

[1 mark]

- (A) being dependable, trustworthy and putting everything into your work
- (B) the willingness to commit an obligation to your goals and presenting towards these goals
- (C) possessing a determination to achieve success
- (D) underestimating the effort required to complete a task

14. Humans are sensitive to levels of light. Which of the following factors would assist in getting a good night sleep when on a camping expedition?

[1 mark]

- (A) sitting around a big campfire
- (B) going to bed before sunset
- (C) minimising artificial light around the campsite
- (D) turning the lights off at the switch

15. What does the abbreviation E.P.I.R.B. mean?

[1 mark]

- (A) emergency position indicating radio beacon
- (B) electronic position indicating radio beacon
- (C) environmental position in a research blog
- (D) external pipeline in red bedrock

- 16.** What combination of equipment would be most appropriate to take as essential items on a day excursion?

[1 mark]

- (A) map, compass, whistle, first aid kit, torch, water
- (B) map, compass, whistle, torch, water, shelter
- (C) torch, water, first aid kit, food
- (D) torch, water, first aid kit, mobile phone

- 17.** Effective leadership skills can be based on which combination of the following factors?

- i. knowledge of terrain
- ii. knowledge of appropriate skills for the activity
- iii. social status
- iv. knowledge of participants

[1 mark]

Select the combination of skills below

- (A) i, ii, iii
- (B) i, ii, iv
- (C) ii, iii, iv
- (D) i, iii, iv.

- 18.** The stages of group development are

[1 mark]

- (A) forming, norming, storming, adjourning
- (B) forming, storming, norming, performing, adjourning
- (C) forming, performing, norming adjourning
- (D) norming, forming, performing, storming, adjourning.

- 19.** What information should always be included on an expedition route card?

[1 mark]

- (A) start and finish points, distance, bearings, time taken to travel
- (B) start and finish points, distance, bearings, key navigation points
- (C) distance, escape route, hair colour, timing
- (D) distance, escape route, bearings, time of sunset

- 20.** The presence of which cloud type in the sky would indicate the approach of a cold front in the next 24 hours?

[1 mark]

- (A) cirrus
- (B) cumulonimbus
- (C) cumulus
- (D) stratus

**END OF SECTION ONE**

**SEE NEXT PAGE**

## SECTION TWO—Short response

This section has **TEN (10)** questions. Attempt **ALL** questions.

Allow approximately 60 minutes for this section [60 marks].

### Question 1

Name and describe **TWO (2)** of each of the following skills of a good outdoor leader

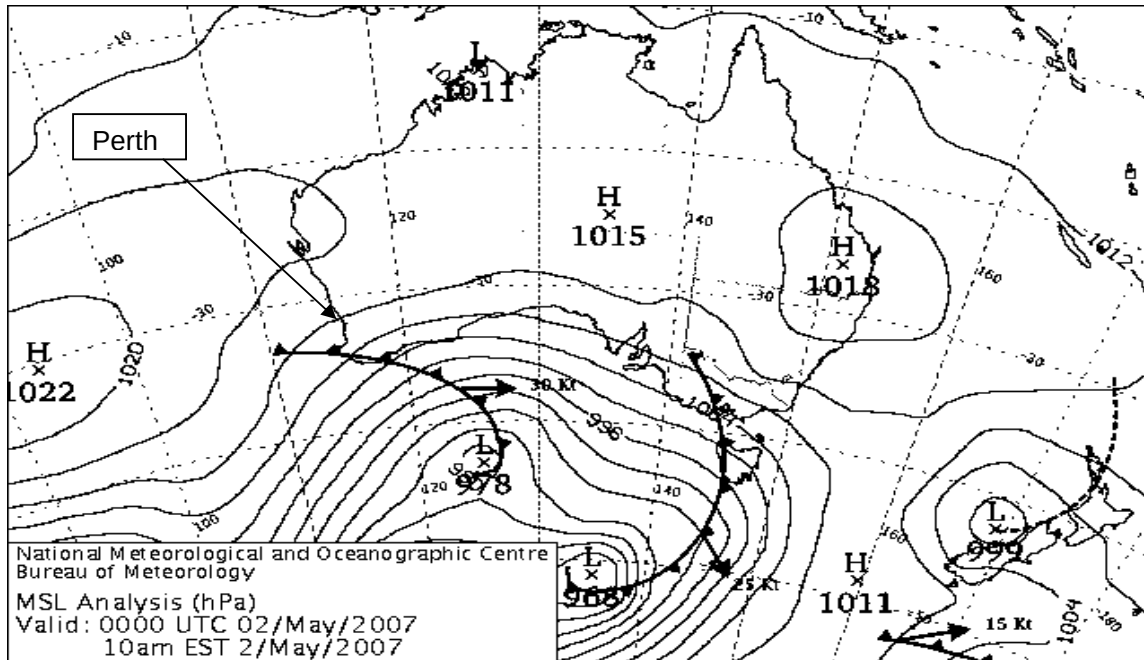

- generic
- specific
- meta.

[6 marks]

**SEE NEXT PAGE**

Question 2

The weather map below is to be used to help answer the following **TWO (2)** parts of this question.

- (a) Use the weather map above to write a forecast of the weather (approximate temperature, wind, rain, clouds) that Perth would be experiencing at the time this weather map was created.

[2 marks]

---

---

---

---

---

---

---

---

- (b) Use the weather map above to detail a three day weather forecast (approximate temperature, wind, rain, clouds) for Perth. Enter this in the table below.

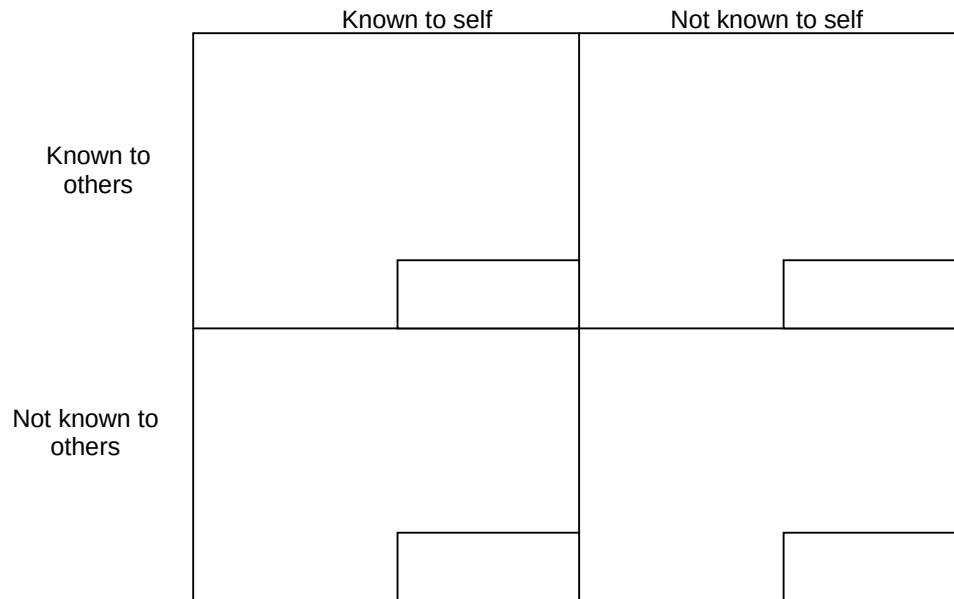

[4 marks]

|             | Day 1 | Day 2 | Day 3 |
|-------------|-------|-------|-------|
| Temperature |       |       |       |
| Wind        |       |       |       |
| Rain        |       |       |       |
| Clouds      |       |       |       |

THIS SPACE HAS BEEN LEFT BLANK INTENTIONALLY

### Question 3

The Johari Window (below) is a tool used to help people better understand their interpersonal communication skills and relationships with others.

Each of the four quadrants has a name. Write the correct name of each quadrant in the box provided in the diagram above and describe each quadrant in the space below.

*[6 marks]*

DRAFT (WEB VERSION ONLY)

### Question 9

You are the leader of a group of ten 15-year-olds on a five day bushwalking expedition. It is the afternoon of the second day. It has been raining steadily most of the day. The group stops for lunch under the shelter of some large trees. You notice that the group's morale is quite low and two members of the group are sitting quietly on their own away from the group. They are slow to pack up at the end of lunch. After about 20 minutes walk, one of the two stumbles and falls.

Discuss the possible situation you are faced with in this scenario. Describe the actions you would take to manage the situation.

*[6 marks]*

DRAFT (WEB VERSION ONLY)

### Question 10

There are a number of natural environments within Western Australia that have parts determined to be at risk. Select one of the parts. Describe why it is at risk and the strategies that are being used to manage this environment. [6 marks]

DRAFT (WEB VERSION ONLY)

ET (WEB VERSION ONLY)

**END OF SECTION TWO**

**SEE NEXT PAGE**

### SECTION THREE—EXTENDED RESPONSE

This section has **THREE (3)** questions. **Attempt ALL questions.**

Allow approximately 60 minutes for this section [60 marks].

### Question 11

It is important to minimise our impact on the environment while in the outdoors.

- (a) Clearly outline the seven (7) leave no trace principles.
- (b) Discuss how you applied these principles to one of the expeditions you were involved in this year and describe the minimum impact practices that you developed for this expedition.

[20 marks]

### Question 12

Expedition equipment choices are vital in order to maximise personal comfort.

- (a) Describe the factors you would consider when choosing equipment for an expedition.  
(b) Discuss how these factors affected your choice of equipment for an expedition that you attended this year.

[20 marks]

### Question 13

According to Tuckman's group theory, groups take time to develop.

- Name the stages that groups normally progress through as they develop.
- Describe the characteristics of the groups at each of these stages.
- Describe how your expedition group moved through these stages by giving an example of actions or events typical of each stage. If your group did not move through these stages, suggest reasons why.
