

OUTDOOR EDUCATION STAGE 3 SAMPLE EXAMINATION

Section 7 of the *New WACE Manual: General Information 2006–2009* outlines the policy on WACE examinations.

Further information about the WACE Examinations policy can be accessed from the Curriculum Council website at http://newwace.curriculum.wa.edu.au/pages/about_wace_manual.asp.

The purpose for providing a sample examination is to provide teachers with an example of how the course will be examined. Further finetuning will be made to this sample in 2007 by the examination panel following consultation with teachers, measurement specialists and advice from the Assessment, Review and Moderation (ARM) panel.

**OUTDOOR
EDUCATION
WRITTEN PAPER
STAGE 3**

Please place your student identification label in this box

Student Number: In figures

--	--	--	--	--	--	--	--

In words

Time allowed for this paper

Reading/planning time before commencing work:
Working time for paper:

Ten minutes
Three hours

Material required/recommended for this paper

To be provided by the supervisor

Question/Answer Booklet
Multiple Choice Answer Sheet

To be provided by the candidate

Standard items: Pens, pencil (for multiple choice section), eraser or correction fluid, highlighter, ruler, printed English language dictionary and/or bilingual dictionary (not electronic and not a thesaurus)

Special items: Nil

Important note to candidates

No other items may be taken into the examination room. It is **your** responsibility to ensure that you do not have any unauthorised notes or other items of a non-personal nature in the examination room. If you have any unauthorised material with you, hand it to the supervisor **before** reading any further.

Structure of this paper

Section	Suggested working time	Number of questions available	Number of questions to be attempted	Marks available	%
Section One: Multiple Choice	30 minutes	20	20	20	10%
Section Two: Short Response	60 minutes	10	10	60	45%
Section Three: Extended Response	90 minutes	3	3	60	45%
[Total marks]				140	100%

Instructions to candidates

1. The rules for the conduct of Curriculum Council examinations are detailed in the *Student Information Handbook*. Sitting this examination implies that you agree to abide by these rules.
2. For Section One you are provided with a Multiple Choice Answer Sheet. Use a pencil for all entries on this sheet. For each question, shade the box which indicates your answer.
3. For Sections Two and Three, write your answers in the spaces provided in this Question/Answer Booklet. A blue or black ballpoint or ink pen should be used. Wherever appropriate, fully labelled diagrams, tables and examples should be used to illustrate and support your answers.
4. You must be careful to confine your responses to the specific questions asked and to follow any instructions that are specific to a particular question.
5. Spare answer pages may be found at the end of this booklet. If you need to use them, indicate in the original answer space where the answer is continued (i.e. give the page number).

SECTION ONE—MULTIPLE CHOICE

A multiple choice answer sheet is provided for you to answer questions in this section. Use a pencil for all entries. For each question, shade the box which indicates your answer.

This section has **TWENTY (20)** questions. Attempt **ALL** questions.

Allow approximately 30 minutes for this section [20 marks].

1. An outdoor education program with adventure as a focus will contain activities that [1 mark]
 - (A) develop self-esteem
 - (B) have a doubtful end result
 - (C) can result in misadventure
 - (D) can be described as challenging play.
2. Triangulation can be used to [1 mark]
 - (A) determine your position using three distinct landmarks found on a map
 - (B) the application of Pythagoras's theorem to find your position on a map
 - (C) determine the order of treatment of casualties after an accident
 - (D) using knowledge of the strength of a triangle to prepare a stretcher.
3. Staff–student ratios exist in safety guidelines so that [1 mark]
 - (A) the cost of activities can be accurately determined
 - (B) a safe environment can be provided for students
 - (C) students have the opportunity to participate in an activity
 - (D) none of the above.
4. Upon return from an expedition tents should be [1 mark]
 - (A) immediately returned to the storeroom and stacked on the shelves
 - (B) erected on the oval and left for 48 hours
 - (C) washed in an industrial machine and dried in front of a fire then folded and stored
 - (D) erected, cleaned, dried, folded and stored.
5. Which is the correct order of Maslow's hierarchy of needs from highest to lowest? [1 mark]
 - (A) physiological needs, personal safety, security, love, belonging and esteem
 - (B) personal safety, security, physiological needs, love, belonging and esteem
 - (C) personal safety, security, esteem, love, belonging and psychological needs
 - (D) psychological needs, love, belonging, personal safety, security and physiological needs
6. Problem–focused facilitation can best be defined as a situation in which [1 mark]
 - (A) the leader focuses the group on solving the problem
 - (B) a problem has resulted from poor facilitation
 - (C) the leader focuses the group on finding exceptions to the problem and emphasises when the group's behaviour is functional
 - (D) a problem is worked through with the group during debriefing.

7. Global warming is caused by

[1 mark]

- (A) the depletion of ozone in the atmosphere
- (B) the build up of nitrous oxide in the atmosphere
- (C) the build up of carbon dioxide in the atmosphere
- (D) the build up of methane in the atmosphere.

8. It is acceptable to cut down branches of dying trees on an expedition if you are concerned for safety when

[1 mark]

- (A) you are cold and need firewood for a fire
- (B) you think a branch might fall onto your tent
- (C) you cannot pass on your bike because the branch is in the way
- (D) none of the above are acceptable.

9. In an environment where walking might damage delicate or protected species you may

[1 mark]

- (A) use training shoes rather than boots to walk across them
- (B) walk in bare feet or socks across the area
- (C) find an alternative route around the areas
- (D) wait until it has rained before using the route.

10. In traditional indigenous Australian managed areas you are permitted to enter or cross this land if

[1 mark]

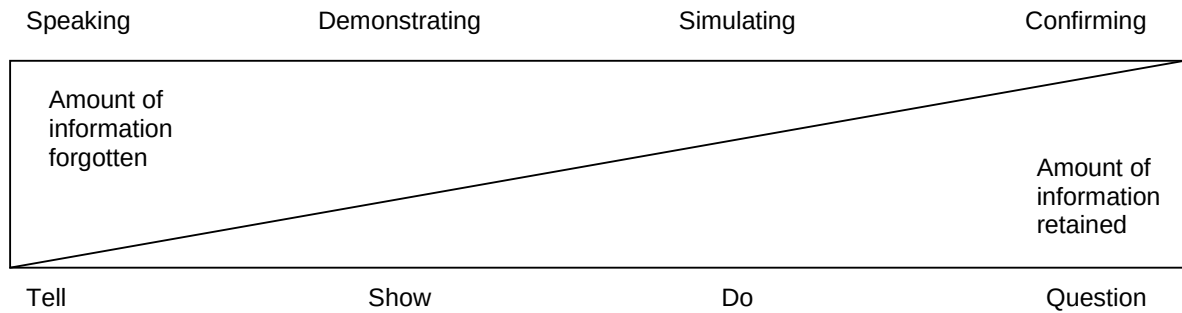

- (A) one of your party is an indigenous person
- (B) you are a member of an organised group
- (C) you have applied for a permit to cross the land
- (D) none of the above

11. Peak experience can best be described as

[1 mark]

- (A) reaching the summit of a mountain
- (B) the elation of achieving an outdoor activity goal
- (C) the trade name of an outdoor equipment company
- (D) a mountain summit in the USA.

Use the diagram below to answer the next question.

12. The diagram above shows us that

[1 mark]

- (A) learning is best achieved at the end of a process of telling, showing, doing and questioning
- (B) it is important to make sure instructions are clear
- (C) learning is best achieved through doing
- (D) questioning is an important part of learning throughout the learning gradient.

13. Experiential learning can best be described as

[1 mark]

- (A) learning through repetition
- (B) the experience of learning
- (C) plan – play – reflect
- (D) learning through direct experience.

14. What role does the risk assessment and management system play in creating standard operating procedures for an outdoor activity?

[1 mark]

- (A) It identifies the risk involved in participation.
- (B) It identifies risk and enables processes to be put into place to ensure safety.
- (C) It assists in the management of an injury.
- (D) It requires forms to be filled in to assist in preparation for an activity.

15. As a leader of an outdoor expedition what should you consider prior to leaving?

[1 mark]

- (A) transport arrangements
- (B) obtaining clearance from appropriate authorities
- (C) changes to the environment in the expedition area
- (D) all of the above

16. Which of the following is not a criticism of trait theories of leadership?

[1 mark]

- (A) No universal traits predict leadership in all situations.
- (B) Unclear evidence of the cause and effect of relationship of leadership and traits. (Which comes first, trait or leadership position?)
- (C) Traits predict behaviour better in strong than weak situations.
- (D) Overlooks needs of followers.

17. The most important reason a GPS should be used when expeditioning in a remote location is

[1 mark]

- (A) it is necessary to take advantage of all methods of navigation in case of an emergency
- (B) to make sure the group doesn't get lost
- (C) works better than a compass
- (D) it is an effective method of recording your journey.

18. Walking trails in Western Australia are designed to be used in a sustainable manner and so they are not designed to account for

- i. horses
- ii. motor vehicles
- iii. bicycles
- iv. water erosion

[1 mark]

Select the combination of the examples below

- (A) i, ii, iii
- (B) i, ii, iv
- (C) ii, iii, iv
- (D) i, iii, iv

19. The evolution of leadership theory is summed up by

[1 mark]

- (A) behaviour styles theory, trait theory, transformational theory, situational theory
- (B) trait theory, behaviour styles theory, situational theory, transformational theory
- (C) behaviour styles theory, trait theory, situational theory, transformational theory
- (D) transformational theory, behaviour styles theory, trait theory, situational theory.

20. What is the outcome of an outdoor education programme with at-risk as a focus?

[1 mark]

- (A) developing self-esteem
- (B) creating a situation with a doubtful end result
- (C) creating a situation with misadventure as an end result
- (D) creating a situation with challenging play as an end result.

END OF SECTION ONE

SECTION TWO—SHORT RESPONSE

This section has **TEN (10)** questions. Attempt **ALL** questions.

Allow approximately 60 minutes for this section [60 marks].

Question 1

Describe three (3) advantages and three (3) disadvantages of using a GPS (global positioning system) to navigate on an expedition.

[6 marks]

DRAFT

Question 2

Identify, describe and give examples of three (3) ways that advances in technology have changed outdoor experiences.

[6 marks]

DRAFT

Question 3

Describe three interpretative activities you could use to educate others about a part of a local natural environment.

[6 marks]

Handwriting practice lines for the answer.

Question 4

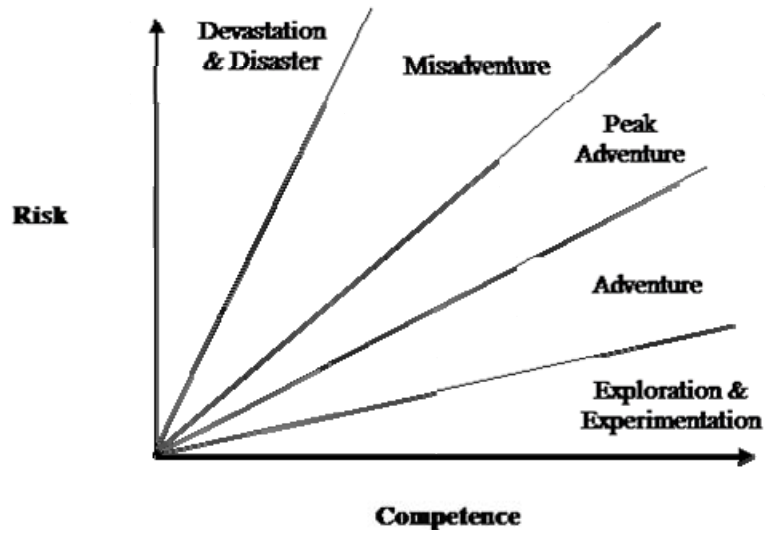

[6 marks]

DRAFT

Question 5

Use the diagram opposite to explain misadventure. Outline what considerations should be addressed in order to avoid misadventure during an outdoor experience.

[6 marks]

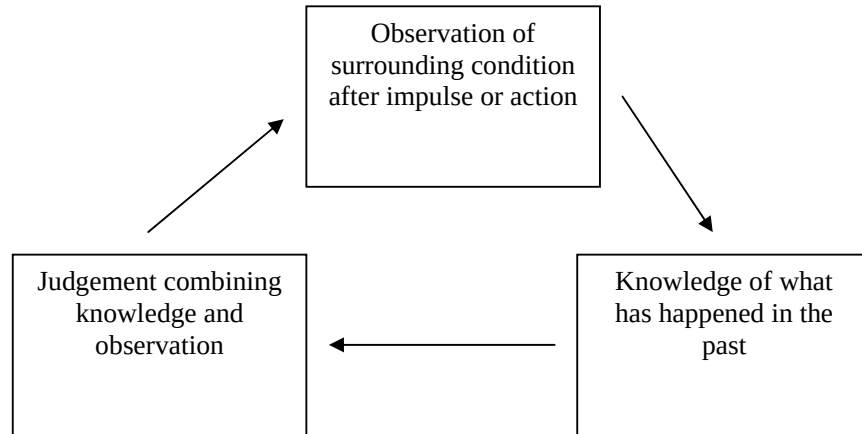

[From: Martin & Priest, 1986]

Question 6

Equipment is a vital part of all outdoor experiences. It is important that equipment is used, maintained and stored correctly. Select a category of equipment (expedition or specific outdoor activity). For each item, describe its use, care, maintenance and storage.

[6 marks]

DRAFT

Question 7

Identify and describe the process that is depicted in the diagram above. Discuss its relevance to outdoor education.

► [6 marks]

DRAFT

Question 8

Many outdoor leaders use a checklist or acronyms as part of their briefing prior to an activity commencing. This strategy is an example of which of the three leadership styles listed below? Justify why you made this choice.

- Autocratic
- Democratic
- Abdicratic

Explain why this style of leadership would be best used at this stage of the activity.

[6 marks]

DRAFT

Question 9

Describe the win-win method of conflict resolution. Discuss the advantages and disadvantages of this method.

[6 marks]

DRAFT

Question 10

Discuss the importance of debriefing and its place in the experiential learning cycle.

- Describe the stages of a debrief.
- Give examples of some questions you would use to assist the facilitation of each stage.

[6 marks]

Handwriting practice lines (ruler) with a large diagonal watermark reading "DRAFT".

END OF SECTION TWO

SEE NEXT PAGE

SECTION THREE—EXTENDED RESPONSE

This section has **THREE (3)** questions. **Attempt ALL questions.**

Allow approximately 90 minutes for this section *[60 marks]*.

Question 11

Outdoor programs are designed to have specific foci such as recreational, at-risk, adventure, environmental and therapeutic.

- (a) Describe the focus of a program in which you have participated.
- (b) Describe, with examples, the elements of this program that were designed to assist in the achievement of its focus.
- (c) Using examples, evaluate the effectiveness of the program in achieving its goals and make suggestions as to how it could have been improved.

[20 marks]

Question 12

'In order to learn from experience we must take the time to sort out the relevant from the irrelevant and the useful from the useless.'

Knapp 1993

- (a) With respect to the quote above, explain the role of a facilitator in the process of helping someone to learn from an outdoor experience.
- (b) Describe the stages of a debrief. Give examples of questions a facilitator may ask in each of the stages.
- (c) Describe one of your outdoor experiences as a facilitator of a debriefing session. Comment on your performance and the success of the debrief and indicate how you might improve debriefing sessions that you may conduct in the future.

[20 marks]

Question 13

Describe your experiences in nature while on expedition this year that have affected your relationship with nature. Outline how these experiences have affected this relationship. Discuss the importance of a positive human-nature relationship in achieving ecological sustainability.
