

Mathematics Applications ATAR Year 11 Assessment Outline

Assessment type	Assessment type weighting	Assessment task weighting	Week/s	Assessment Description
Response	40%	10%	Term 1 Week 5	Task 1: Test 1 – Consumer Arithmetic (1.1.1-1.1.7)
		10%	Term 2 Week 3	Task 3: Test 2 – Algebra and Matrices (1.2.1-1.3.4)
		10%	Term 3 Week 4	Task 6: Test 3 – Univariate Data Analysis (2.1.1-2.1.12)
		10%	Term 3 Week 8	Task 7: Test 4 – Applications of Trigonometry, Linear Equations and their Graphs (2.2.1-2.3.10)
Investigation	20%	10%	Term 1 Week 9	Task 2: Investigation 1 – Consumer Arithmetic (1.1.8)
		10%	Term 3 Week 2	Task 5: Investigation 2 – Univariate Data Analysis (2.1.1)
Examination	40%	18%	Term 2 Weeks 8 - 9	Task 4: Semester 1 examination – Section One: calculator-free (35%), Section Two: calculator-assumed (65%) Question selection from Unit 1 content knowledge, skills and processes; Consumer Arithmetic, Algebra and Matrices, Shape and Measurement
		22%	Term 4 Weeks 4 - 5	Task 8: Semester 2 examination – Section One: calculator-free (35%), Section Two: calculator-assumed (65%) Question selection from Unit 1 and Unit 2 content knowledge, skills and processes; Consumer Arithmetic, Algebra and Matrices, Shape and Measurement, Univariate Data Analysis, Applications of Trigonometry, Linear Equations and their graphs
Total	100%	100%
