Assessment Outline

Assessment Type	Assessment Type Weighting
Historical inquiry Students use the relevant historical skills to plan, conduct and communicate an inquiry related to the elective they are studying. The inquiry proposition is devised by the teacher. The final presentation can be: a written report that includes timelines, flow diagrams, photographs; an analysis of sources used in the inquiry; a multimodal presentation that could include a poster, museum display, re-enactment, PowerPoint, video and/or website that can be presented individually or in a group. Typically one historical inquiry is completed for each unit.	20–30%
Explanation A response in the form of: a short answer or a set of short answers; an extended answer which can be scaffolded or sectionalised essay questions, and can contain timelines, flow diagrams; an oral presentation which can include a debate, hypothetical, group presentation and/or re-enactments for one or more closed or open questions. An explanation can involve: responding to propositions or points of debate; interpretations, explanations and/or evaluations of historical evidence. At least two explanation tasks should be administered under test conditions.	20–30%

NB: All changes to this outline and assessment schedule will be communicated by the classroom teacher. Students must read this in conjunction with the College Assessment Policy.

Source analysis A number of sources are interpreted, analysed, synthesised, and/or evaluated. Questions typically require students to use evidence from the sources when commenting on: origin, purpose and context; reliability, usefulness and contestability of the evidence; perspective; and relevance to the context. The teacher can select the sources and provide the questions, or a student (or group of students) can select a range of sources to respond to questions provided by the teacher. Sources can include: • ancient materials - written sources (such as: extracts from historical narratives, biographies, constitutional treatises, drama, poetry, contracts, treaties, speeches, letters) - archaeological sources (such as: photographs of inscriptions, coins, statues, ostraca, wall paintings, artefacts, buildings, human remains) - maps and diagrams • modern materials - written sources (such as: extracts from historical narratives, biographies, historiographical texts) - reconstructions - maps and diagrams. At least two source analysis tasks should be administered under test conditions.	20–30%
Test Can be conducted during the unit or at the end of each semester and/or unit. Typically a combination of closed and open questions which are elective specific.	20–30%

NB: All changes to this outline and assessment schedule will be communicated by the classroom teacher. Students must read this in conjunction with the College Assessment Policy.

Grading

Schools report student achievement in terms of the following grades:

The teacher prepares a ranked list and assigns the student a grade for the pair of units (or for a unit where only one unit is being studied). The grade is based on the student's overall performance as judged by reference to a set of pre-determined standards. These standards are defined by grade descriptions and annotated work samples. The grade descriptions for the Ancient History General Year 11 syllabus are provided in Appendix 1. They can also be accessed, together with annotated work samples, through the Guide to Grades link on the course page of the Authority website at www.scsa.wa.edu.au

To be assigned a grade, a student must have had the opportunity to complete the education program, including the assessment program (unless the school accepts that there are exceptional and justifiable circumstances).

Refer to the WACE Manual for further information about the use of a ranked list in the process of assigning grades.

Appendix 1 - Grade Descriptions Year 11

A	Historical Skills Selects some relevant ancient and modern sources and assesses for one or more of the following: origin, message, purpose, context, reliability, usefulness, differences in perspectives and interpretations.
