

1. **Asexual Reproduction**

Process by which a single parent reproduces by itself

2. **Cervix**

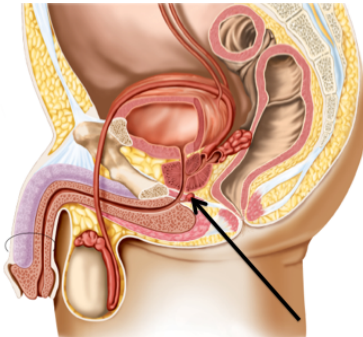

Secretes mucus to enhance movement of sperm cells and prevents large foreign objects entering the uterus. Located at the top of the vagina.

3. **cilia**

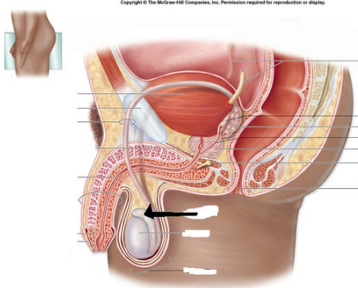

Hair-like structures which line the Fallopian tubes and the epididymis

4. **Cowper's Gland**

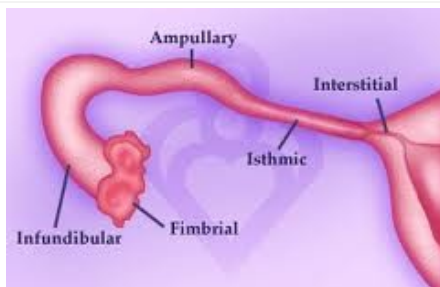

Secretes a lubricating fluid that aids sperm movement

5. **Epididymis**

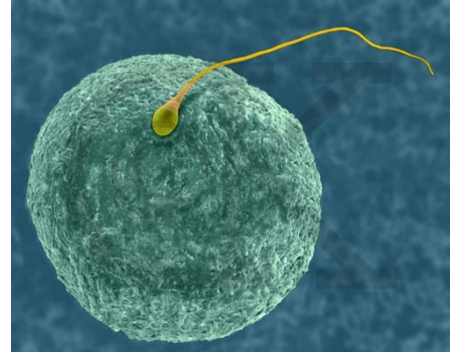

Stores the sperm

6. **Fallopian Tubes (oviduct)**

Thin, muscular tubes that transports the egg cell from the ovary to the uterus.

7. **Fertilization**

Fusion of an egg and sperm cell

8. **Fetus**

In humans, the term for the developing organism between the embryonic stage and birth.

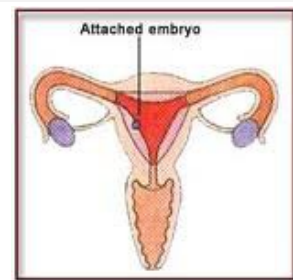

9. **foreskin**

a retractable double-layered fold of skin and mucous membrane that covers and protects the glans penis

10. **hymen**

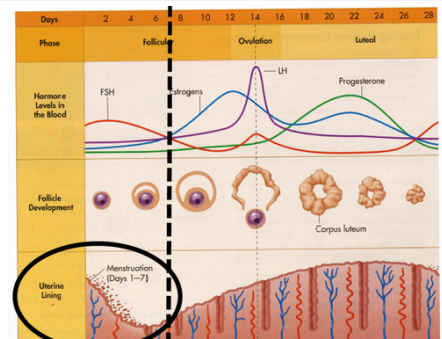

mucous membrane partially or completely covering the opening to the vagina

11. **Implantation**

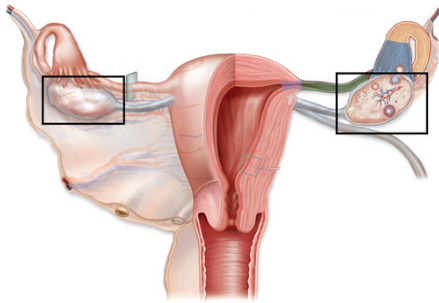

The process by which the zygote attaches to the uterine wall

12. **Menstruation**

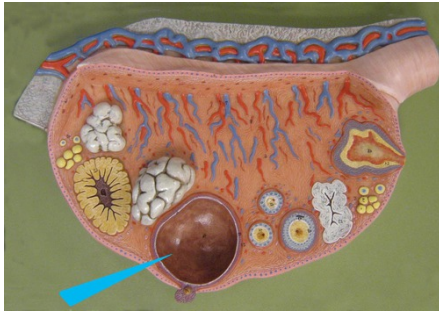

monthly shedding of the uterine lining

13. **Ovary**

Main reproductive system of the female that produces the egg cells.

14. **Ovulation**

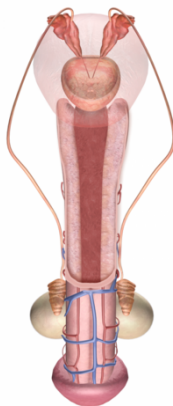

The process of releasing a mature ovum into the fallopian tube each month

15. **Ovum**

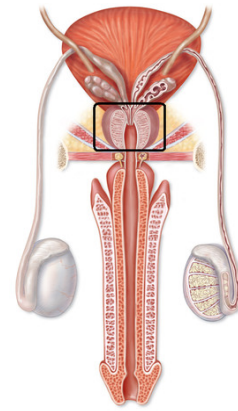

female gamete

16. **Penis**

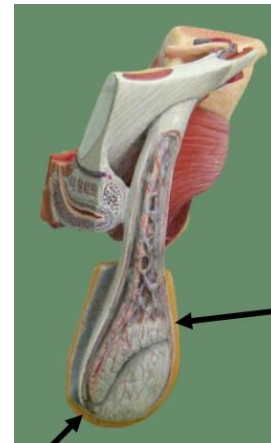

Places the sperms inside the vagina during sexual intercourse.

17. **Prostate Gland**

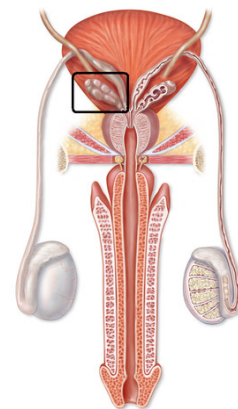

Secretes fluid that neutralizes the acidity of urine and the female vagina.

18. **Scrotum**

Protect and holds the testes outside the body.

19. **Seminal Vesicle**

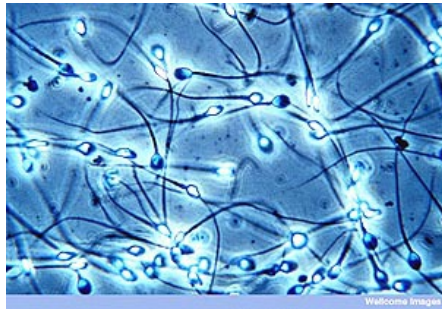

Secretes fluid that provides nourishment to the sperm.

20. **Sexual Reproduction**

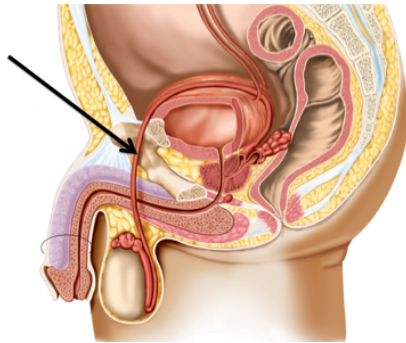

Process by which cells from two different parents unite to produce the first cell of a new organism.

21. **Sperm**

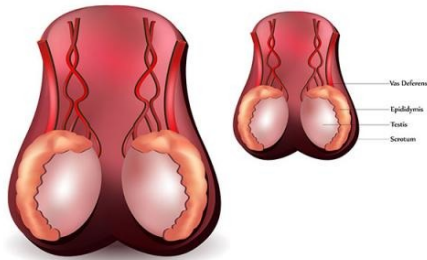

male gamete

22. **Sperm ducts (Vas deferens)**

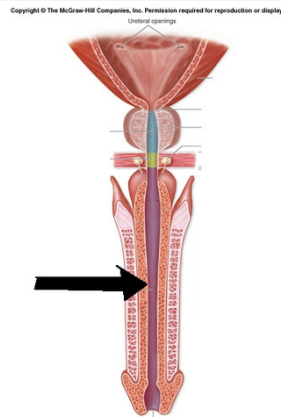

Carries sperms to the seminal vesicle and to the urethra

23. **Testes**

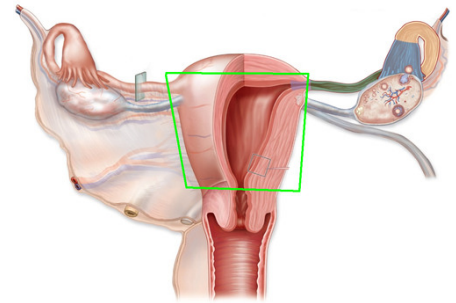

Male reproductive organ that produces sperm.

24. **Urethra**

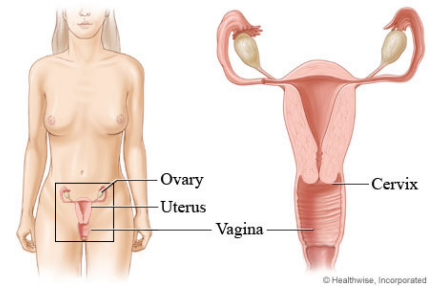

Carries sperms and urine out of the body.

25. **Uterus**

Place where the embryo is developed.

26. **Vagina**

Birth canal - internal tube where sperm cells are deposited

27. **vulva**

external female genitalia; includes the labia, hymen, clitoris
