

Statistical graphs

Karaoke is Japanese for ...?

Use the graphs to find the answer to each question, then match the letters to the solutions in the code box below to solve the riddle.

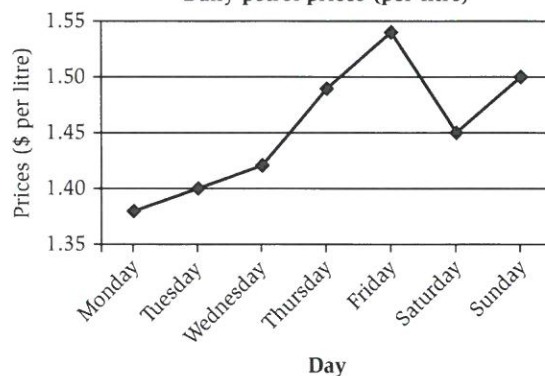

Graph 1

Favourite school subjects

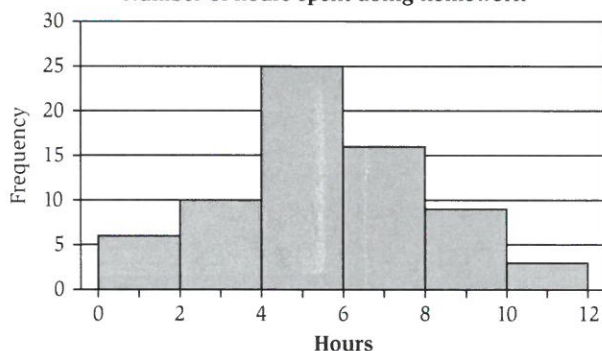

Graph 2

Daily petrol prices (per litre)

Graph 3

Number of hours spent doing homework

What type of graph is used in graph 1?

O

Use graph 1 to find which subject is the most popular.

M

Use graph 2 to find on which day petrol cost \$1.45 a litre.

C

Use graph 3 to find how many people did 4-6 hours of homework.

Y

Use graph 2 to find which day has the cheapest petrol.

E

Use graph 1 to find which subject is preferred by 15 people.

S

What type of graph is used in graph 2?

H

Use graph 1 to find which subject is the least popular.

E

Use graph 2 to find on which day petrol cost \$1.42 a litre.

A

Use graph 3 to find how many people did 0-2 hours of homework.

T

Use graph 3 to find how many people did 6-8 hours of homework.

P

Use graph 2 to find on which day petrol cost \$1.54 a litre.

T

What type of graph is graph 3?

R

Use graph 3 to find how many people did 8-10 hours of homework.

R
