

Exercise 9.8

Find the area of each of the following shapes:

Area of halfcircle	$= \pi r^2 \div 2$ $= \pi \times 6^2 \div 2$ $= \underline{56.55 \text{ cm}^2}$	
--------------------	---	---

Area = Area halfcircle $= \pi r^2 \div 2$ $= \pi \times 17^2 \div 2$ $= 453.96$ $= \underline{1133.96 \text{ cm}^2}$	+ Area rectangle $+ l \times b$ $+ 34 \times 20$ $+ 680$	
--	---	--
