

Astronomy Research 2016 - Rubric

**Required*

1. Student name *

Students evaluate the evidence for scientific theories that explain the origin of the universe.

2. I can give a clear explanation for the Big Bang Theory of the origin of the universe. *

Mark only one oval.

	1	2	3	4	
Low	☐	☐	☐	☐	High

3. I can present a range of evidence that led to the development of the Big Bang theory. *

Mark only one oval.

	1	2	3	4	
Low	☐	☐	☐	☐	High

4. I can clearly explain how the evidence supports the Big Bang Theory. *

Mark only one oval.

	1	2	3	4	
Low	☐	☐	☐	☐	High

Students analyse how the models and theories they use have developed over time and discuss the factors that prompted their review.

5. I can explain how theories are developed. *

Mark only one oval.

	1	2	3	4	
Low	☐	☐	☐	☐	High

6. I can explain how new evidence can change or make scientists review a theory (related to the Big Bang Theory). *

Mark only one oval.

	1	2	3	4	
Low	☐	☐	☐	☐	High

7. I have acknowledged the discovery of recent evidence by an Australian scientist that prompted further review and modification of the Big Bang Theory. *

Mark only one oval.

	1	2	3	4	
Low	☐	☐	☐	☐	High

Students construct evidence-based arguments and select appropriate representations and text types to communicate science ideas for specific purposes.

8. I have been able to link evidence to any modifications to the theory each time a new piece of evidence has been proposed. *

Mark only one oval.

	1	2	3	4	
Low	☐	☐	☐	☐	High

9. I have used words appropriate to a general audience. *

Mark only one oval.

	1	2	3	4	
Low	☐	☐	☐	☐	High

10. I have referenced all my sources of information. *

Mark only one oval.

	1	2	3	4	
Low	☐	☐	☐	☐	High

11. I have made all information that I have given easy to read and understand by making sure I have explained all scientific terms that I have used. *

Mark only one oval.

	1	2	3	4	
Low	☐	☐	☐	☐	High

12. Teacher Comment *
