Physical Sciences
Assignment - Safety Features

Choose your favourite car from the last 5 years.

Your assignment is to do a poster or booklet on the following features of the car.

1. Name and model of the car.
2. Type and size of the engine.
3. Is the car two-wheel or four-wheel drive?
4. Brake system - is it ABS? What does ABS mean? Label the system on a picture.
5. Air bag system - how many air bags does it have? Label where they are in the car on a picture.

Include pictures and diagrams to show these features. You could label them as well.

Marking Scheme

Marking Points	Marks		
	0	1	2
States the type and size of the engine.			
States if it is two or four-wheel drive.			
Explains what ABS means and labels the diagram.			
States the number of air bags and where they are on a diagram.
