

NAME: Daniel Morland

MARK: $\frac{10}{10}$

Below is a map of the school and its buildings. You need to be able to work out the distance and displacement for the following. You will need to trace onto the diagram.

Equipment: trundle wheel, 50 m tape.

Bearing = 200° SW ✓
Bearing = 120° SE ✓

Distance = 228m ✓

Displacement = 205m ✓

Displacement = 98.4 m ✓

$$\begin{aligned} 2.5\text{cm} &= 4\text{m} \\ 1.0\text{cm} &= \frac{4}{2.5}\text{m} \\ 1.0\text{cm} &= 16.4\text{m} \end{aligned}$$

Scale

Just outside $\pm 10\text{m}$
