

Name: _____

Class: _____

ACTIVITY SHEET

2.1 Crossword puzzle

Use the clues to complete the crossword.

Across

- 5 Homogenous material made up of the same type of particle
- 8 Vapour that condenses back into a liquid and that is collected after distillation
- 10 Separation technique based on attraction in an electric field
- 11 Matter that contains two or more different materials or substances with varying composition
- 14 Type of property that relates to the reactions a substance can undergo
- 15 Substance in which the solute dissolves, or the greater part of a solution
- 16 Technique for separating a solid and a liquid (or a solution), based on solubility
- 18 Technique for separating the liquid component of a solution, based on boiling point
- 19 Type of change in the properties of a substance but not to the chemical composition of the substance
- 20 Separation technique based on attraction in a magnetic field
- 21 Has a uniform composition throughout

Down

- 1 Technique for separating a mixture based on particle size
- 2 Has a non-uniform composition
- 3 Physical substance; anything that has mass and occupies space
- 4 Technique for separating a solution and retrieving the liquid component, based on differences in boiling point
- 6 Homogenous mixture
- 7 Liquids that do not mix
- 9 Pure substance made up of only one type of atom
- 12 Substance with particular qualities or one that is used for specific purposes
- 13 Distillation technique used to separate liquids that have similar boiling points
- 15 Substance that is dissolved, or the smaller component of a solution
- 17 Liquid or solution that passes through the filter paper during filtration
