Additional information

The examination is presented in a combined question/answer booklet with a separate multiple-choice answer sheet.

Section	Supporting information
Section One Multiple-choice 20% of the written exam 20 questions Suggested working time: 30 minutes	Candidates indicate their answers on the separate multiple-choice answer sheet. Stimulus material includes diagrams, graphs, tables, media scripts or photographic images.
Section Two Short answer 50% of the written exam 6–8 questions Suggested working time: 90 minutes	Candidates are assessed on their understanding of skills and concepts, and ability to apply the skills of critical thinking, analysis and interpretation of stimulus material. A series of closed and open questions that are scaffolded are used. Questions may be sectionalised. Questions may require candidates to draw labelled diagrams and/or mind maps. Stimulus material includes scenarios, diagrams, graphs, tables, media scripts or photographic images.
Section Three Extended answer 30% of the written exam Two questions from a choice of four Suggested working time: 60 minutes	Candidates are required to answer two questions from a choice of four. Questions will be sectionalised. Extensive scaffolding is used. These questions test the candidate's ability to apply the skills of critical thinking and analysis. In answering questions, candidates demonstrate their understanding of health skills and concepts. Candidates are encouraged to use their school-based learning experiences.
