### Time allowed for this paper

Reading time before commencing work: ten minutes

Working time for paper: three hours

### Materials required/recommended for this paper

#### *To be provided by the supervisor*

This Question/Answer Booklet

Multiple-choice Answer Sheet

Number of additional  
answer booklets used  
(if applicable):

|  |
|--|
|  |
|--|

#### *To be provided by the candidate*

Standard items: pens (blue/black preferred), pencils (including coloured), sharpener,  
correction fluid/tape, eraser, ruler, highlighters

Special items: navigational base plate compass

### Important note to candidates

No other items may be taken into the examination room. It is **your** responsibility to ensure that you do not have any unauthorised notes or other items of a non-personal nature in the examination room. If you have any unauthorised material with you, hand it to the supervisor **before** reading any further.

## Structure of this paper

| Section                        | Number of questions available | Number of questions to be answered | Suggested working time (minutes) | Marks available | Percentage of exam |
|--------------------------------|-------------------------------|------------------------------------|----------------------------------|-----------------|--------------------|
| Section One: Multiple-choice   | 20                            | 20                                 | 30                               | 20              | 20                 |
| Section Two: Short answer      | 8                             | 8                                  | 90                               | 92              | 50                 |
| Section Three: Extended answer | 3                             | 2                                  | 60                               | 40              | 30                 |
| <b>Total</b>                   |                               |                                    |                                  |                 | 100                |

## Instructions to candidates

1. The rules for the conduct of Western Australian external examinations are detailed in the *Year 12 Information Handbook 2013*. Sitting this examination implies that you agree to abide by these rules.

2. Answer the questions according to the following instructions.

Section One: Answer **all** questions on the separate Multiple-choice Answer Sheet provided. For each question, shade the box to indicate your answer. Use only a blue or black pen to shade the boxes. If you make a mistake, place a cross through that square, then shade your new answer. Do not erase or use correction fluid/tape. Marks will not be deducted for incorrect answers. No marks will be given if more than one answer is completed for any question.

Sections Two and Three: Write your answers in this Question/Answer Booklet.

3. You must be careful to confine your responses to the specific questions asked and to follow any instructions that are specific to a particular question.
4. Spare pages are included at the end of this booklet. They can be used for planning your responses and/or as additional space if required to continue an answer.
  - Planning: If you use the spare pages for planning, indicate this clearly at the top of the page.
  - Continuing an answer: If you need to use the space to continue an answer, indicate in the original answer space where the answer is continued, i.e. give the page number. Fill in the number of the question that you are continuing to answer at the top of the page.

**Section One: Multiple-choice****20% (20 Marks)**

This section has **20** questions. Answer **all** questions on the separate Multiple-choice Answer Sheet provided. For each question, shade the box to indicate your answer. Use only a blue or black pen to shade the boxes. If you make a mistake, place a cross through that square, then shade your new answer. Do not erase or use correction fluid/tape. Marks will not be deducted for incorrect answers. No marks will be given if more than one answer is completed for any question.

Suggested working time: 30 minutes.

---

1. The basic premise of Maslow's Hierarchy of Needs influencing program development is that
  - (a) an individual will not focus on a higher need until the need below it is addressed.
  - (b) higher order needs must be focused on in order to make the program enjoyable.
  - (c) an individual will not gain anything unless the program meets all levels of need.
  - (d) the lowest common need among participants will dictate the program content.
  
2. Compared with participants in a kayaking day-trip on a small land-locked lake, participants in an extended sea-kayaking expedition would require
  - (a) less specific skills and the ability to swim.
  - (b) more leaders, more boats and more equipment.
  - (c) a higher degree of skill and experience.
  - (d) the ability to conduct a deep-water rescue.
  
3. Which of the following examples **best** illustrates adjusting and refining technique in an outdoor activity?
  - (a) changing the activity location to increase the technical difficulty
  - (b) repeating the activity with minor adaptations to achieve a consistent outcome
  - (c) gaining experience across various roles within an activity
  - (d) completing the activity quicker than other participants
  
4. A self-sufficient group is mountain biking on the Munda Biddi trail. Having left late, they are expecting to reach the next campsite at sunset. They are more than halfway to the campsite when they notice heavy rain clouds approaching. The best choice for the group is to
  - (a) stay exactly where they are and set up camp on the track.
  - (b) ride back to a clearing they just passed and set up camp.
  - (c) turn around and ride back to the previous campsite.
  - (d) power through the rest of the ride to their destination.

5. In which one of the following situations would a GPS unit be most accurate and useful?
- (a) navigating through limestone caves
  - (b) following a path along the bottom of a gorge
  - (c) locating a pre-arranged food drop on a stormy day
  - (d) navigating on a moonless night in fine weather
6. The Adventure Experience Paradigm (Priest, 1992) is described by which of the following states?
- (a) experimentation; adventure; peak experience; misadventure; death
  - (b) exploration and experimentation; adventure; peak adventure; misadventure; devastation and disaster
  - (c) exploration and arousal; adventure; peak experience; misadventure; stress and over-arousal
  - (d) play and arousal; adventure; frontier adventure; peak adventure; misadventure
7. At its simplest, experiential learning requires
- (a) only an experience.
  - (b) experience and reflection.
  - (c) a debrief.
  - (d) planning, doing and reviewing.
8. When aiming to develop personal or interpersonal skills in others, which one of the following methods provides the most objective feedback?
- (a) coaching in the required skills by an instructor or leader
  - (b) personal written reflection on the skills used in a situation
  - (c) video review of the subject in a situation requiring those skills
  - (d) acting out of scenarios designed around the skills to be learnt
9. Which one of the following tools or methods is **least** suited to the observation and analysis of interpersonal or leadership skills in others?
- (a) a checklist of skills broken down into specific criteria
  - (b) a video recording of the subject participating in an activity
  - (c) interview questions asked after an appropriate activity
  - (d) coaching of the subject through an appropriate scenario
10. Probing questions
- (a) can be used to gain more information.
  - (b) should be answered with 'yes' or 'no'.
  - (c) are inappropriate for debriefing.
  - (d) always include the word 'why'.

11. Which one of the following scenarios **best** illustrates a confidentiality issue that may increase the level of risk on an expedition?
- (a) a tall participant in a caving activity has indicated he has a mild phobia of dark and tight spaces
  - (b) an injured and bleeding participant in a mountain biking group has a contagious blood-borne disease
  - (c) an overheated participant in a bushwalking expedition cannot remove their headwear for religious reasons
  - (d) a participant in a school-based adventure program has privately admitted to liking another member of their group
12. Which of the following scenarios is likely to expose inexperienced participants to the **least** discomfort and distress?
- (a) bushwalking through South-West karri forests during winter rain
  - (b) snorkelling a reef wall with a steep drop-off in a known shark hotspot
  - (c) climbing an 85° natural rock face with full sun exposure during summer
  - (d) sailing a single-sail boat in strong offshore winds with 1.5 m waves
13. Which one of the following environmental organisations focuses solely on Australian issues?
- (a) The Wilderness Society
  - (b) Greenpeace
  - (c) World Wildlife Fund
  - (d) United Nations Educational, Scientific and Cultural Organisation
14. The *Sea Shepherd* is famous for its ongoing clashes with Japanese whaling ships. This method of bringing about change is called
- (a) creating partnerships.
  - (b) peaceful protest.
  - (c) direct action.
  - (d) lobbying government.
15. The El Niño Southern Oscillation (ENSO) has a pronounced effect on Australia and produces many of our weather-driven natural disasters. For most of Australia, a strong El Niño pattern contributes to
- (a) drought, high temperatures and increased cyclone activity.
  - (b) high rainfall, flooding and bushfires.
  - (c) drought, bushfires and reduced cyclone activity.
  - (d) high temperatures, high rainfall and flooding.

16. Global evidence for climate change as a result of human activity includes
- (a) increasing air and ocean temperatures.
  - (b) variations in solar activity.
  - (c) growing polar ice sheets.
  - (d) decreasing average sea level.
17. By ratifying the Kyoto Protocol in 2007, the Australian Government committed to
- (a) reducing emissions of greenhouse gases.
  - (b) promoting national efficient energy usage.
  - (c) reducing the impacts of climate change.
  - (d) shaping a global solution to climate change.
18. Which of the following is a barrier to the implementation of Australian national strategies addressing the impacts of climate change?
- (a) non-awareness of issues by the general public
  - (b) inconsistencies with other governments' strategies
  - (c) lack of research to identify appropriate strategies
  - (d) taxpayers' reluctance to contribute to short-term costs
19. The national priorities identified by the Caring for our Country initiative include which of the following?
- (a) Eastern and Central Remote Australia; Biodiversity
  - (b) National Reserve System; Sustainable Farm Practices
  - (c) Sustainable Farm Practices; Marine Parks
  - (d) Biodiversity and Natural Icons; Remote Australian Landscapes
20. Indigenous Protected Areas (IPAs) are land or sea areas where traditional Indigenous owners
- (a) are able to retreat to when they want to get away from westernised culture.
  - (b) are allowed to hunt, fish and gather natural resources without raising concern about harm to the environment.
  - (c) live in their traditional lifestyle without interference from the Australian Government.
  - (d) have agreed with the Australian Government to promote biodiversity and conservation of cultural practices.

**End of Section One**

**See next page**

**This page has been left blank intentionally**

**See next page**

**Section Two: Short answer****50% (92 Marks)**

This section has **eight (8)** questions. Answer **all** questions. Write your answers in the spaces provided.

Spare pages are included at the end of this booklet. They can be used for planning your responses and/or as additional space if required to continue an answer.

- Planning: If you use the spare page for planning, indicate this clearly at the top of the page.
- Continuing an answer: If you need to use the space to continue an answer, indicate in the original answer space where the answer is continued, i.e. give the page number. Fill in the number of the question that you are continuing to answer at the top of the page.

Suggested working time: 90 minutes.

---

*The following scenario applies to all questions in the Short answer section.*

Having completed Outdoor Education Stage 3 successfully, you are invited back to your school by the Principal to assist with the planning and facilitation of the Year 10 Future Leaders Camp.

You have been provided with the following details.

Location: Kalbarri National Park – higher elevation than the Kalbarri townsite

Features:

- deep red-banded and white-banded sandstone gorges and rock formations
- gorges, associated cliffs and overhangs cut by the Murchison River
- wide variety of wildflowers prolific from July to October/November
- variety of native fauna, some found only in this area.

Duration:

- three days, two nights, excluding travel time to and from Kalbarri.

Participants:

- 16 students
- even split between boys and girls
- little experience in camping and outdoor activities
- strong leadership potential, few behaviour issues.

Program goals:

- provide challenging activities and opportunities for personal growth
- provide distinct opportunities for teamwork and leadership
- incorporate experiential learning across all aspects of the camp.

Activities:

- bushwalking
- abseiling
- navigation
- environmental interpretation.

The Principal has asked you to submit your planning with appropriate justification prior to running this camp, and be present on camp to facilitate and process the activities.

**See next page**

## Question 21

(16 marks)

- (a) Identify the specific focus of the program outlined to you by the Principal. (1 mark)

---

- (b) Using the meteorological data below, decide which month to conduct this camp. Justify your decision. (3 marks)

---

---

---

---

---

---

**Climate statistics – Kalbarri (townsite)**

- **Latitude:** 27.71 °S **Longitude:** 114.17 °E
- **Elevation:** 6 m
- **Data commenced:** 1970
- **Latest available data:** 27 February 2013

| Statistics                              | Jan  | Feb  | Mar  | Apr  | May  | Jun  | Jul  | Aug  | Sep  | Oct  | Nov  | Dec  | Annual |
|-----------------------------------------|------|------|------|------|------|------|------|------|------|------|------|------|--------|
| <b>Temperature</b>                      |      |      |      |      |      |      |      |      |      |      |      |      |        |
| * Mean maximum temperature (°C)         | 33.2 | 34.2 | 32.7 | 29.4 | 26.0 | 22.8 | 21.7 | 22.3 | 23.9 | 26.2 | 28.2 | 31.1 | 27.6   |
| Mean minimum temperature (°C)           | 19.5 | 20.6 | 19.2 | 16.2 | 13.3 | 11.1 | 9.7  | 9.8  | 10.7 | 12.5 | 14.9 | 17.4 | 14.6   |
| <b>Rainfall</b>                         |      |      |      |      |      |      |      |      |      |      |      |      |        |
| Mean rainfall (mm)                      | 4.9  | 8.8  | 11.6 | 18.8 | 57.3 | 81.5 | 70.8 | 49.6 | 23.5 | 14.8 | 7.1  | 4.0  | 349.3  |
| Mean number of days of rain $\geq 1$ mm | 0.9  | 1.1  | 1.2  | 2.5  | 5.5  | 8.6  | 8.7  | 7.0  | 4.6  | 2.8  | 1.7  | 0.5  | 45.1   |
| <b>Other daily elements</b>             |      |      |      |      |      |      |      |      |      |      |      |      |        |
| Mean number of clear days               | 19.9 | 15.3 | 16.7 | 14.0 | 13.4 | 12.0 | 13.1 | 14.0 | 15.8 | 16.3 | 16.2 | 19.2 | 185.9  |
| Mean number of cloudy days              | 2.8  | 3.8  | 4.4  | 6.2  | 7.1  | 8.1  | 7.6  | 6.0  | 4.3  | 4.0  | 3.3  | 2.3  | 59.9   |

\*The range above the Kalbarri townsite can be up to 10°C hotter in summer

**See next page**

**Question 21** (continued)

(c) Communication with the participants in the lead up to the camp is vital.

- (i) Identify and describe **one** key piece of information you need to obtain from participants prior to the camp. (2 marks)

---

---

---

---

- (ii) Identify and describe **one** key piece of information you need to provide to participants prior to the camp. (2 marks)

---

---

---

---

- (d) The mother of one of the students has told you she is concerned about her son's asthma and that none of his regular friendship group is attending this camp. Explain how you are planning to address these concerns. (4 marks)

---

---

---

---

---

---

---

---

---

---

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

## Question 22

(15 marks)

- (a) One risk associated with bushwalking is that a participant may become separated from the group and unable to be located. Identify **two** other potential risks for bushwalking in the Kalbarri National Park. (2 marks)

---

---

---

---

- (b) Complete the following risk assessment and management template for **one** of the risks identified in part (a). Provide **one** point of information for each space in the table below. (6 marks)

| Hazard type | Hazard | Specific control strategies to address identified hazard |
|-------------|--------|----------------------------------------------------------|
| People      |        |                                                          |
| Equipment   |        |                                                          |
| Environment |        |                                                          |

- (c) You have been asked to explain why abseiling, an activity often perceived as high risk, is included in your program. Draw upon your knowledge of the adventure experience paradigm to justify your response. (4 marks)

[illegible]

- (d) (i) Identify the appropriate documentation source for guidelines for running this abseiling activity. (1 mark)

---

- (ii) Outline **two** pieces of relevant information you would find in this document. (2 marks)

---

---

---

---

## Question 23

(12 marks)

- (a) For each 'Leave No Trace' principle below, develop an appropriate minimal impact practice to be implemented during the Year 10 Future Leaders Camp. (6 marks)

Dispose of waste properly

---

---

---

Minimise the impact of campfires

---

---

---

Be considerate of your hosts and other visitors

---

---

---

- (b) Describe **one** method you could use to ensure the participants become aware of and implement these minimal impact practices. (2 marks)

---

---

---

---

---

---

---

Before someone can really decide for themselves to 'Leave No Trace', they need to develop a personal connection with the land and have a reason to care about their impact on the environment.

- (c) Provide an example of how each strategy below could be implemented on camp to help participants to care about their impact on the environment. (4 marks)

Maximising personal comfort

---

---

---

---

---

---

Increasing individuals' knowledge of the natural environment

---

---

---

---

---

---

**Question 24****(10 marks)**

Freeman Tilden devised the Six Principles of Interpretation, which assist outdoor educators to create environmental interpretative activities. Three of these are:

- (i) Any interpretation that does not somehow relate what is being displayed or described to something within the personality or experience of the visitor will be sterile.
- (ii) Information, as such, is not interpretation. Interpretation is revelation based upon information. But they are entirely different things. However, all interpretation includes information.
- (iii) The chief aim of interpretation is not instruction, but provocation.

- (a) Use an example to illustrate the main idea of each principle listed above. (6 marks)

- (i) \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
- (ii) \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
- (iii) \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- (b) Use these three Principles of Interpretation to create a brief outline for an interpretive activity that would be suitable for the Year 10 Future Leaders Camp. (4 marks)

---

---

---

---

---

---

---

---

---

---

---

---

---

---

## Question 25

(11 marks)

As part of a teamwork/initiative activity, you have placed participants in small groups and challenged them to set up their own sleeping shelters using tarpaulins and ropes.

- (a) Identify an appropriate roping skill to teach before the start of this activity, and explain how it applies in this situation. (2 marks)

---

---

---

---

- (b) Describe the method you would use to teach this roping skill to the participants. (2 marks)

---

---

---

---

- (c) Outline **two** facilitation skills you would utilise in running this teamwork/initiative activity. (2 marks)

---

---

---

---

---

---

---

---

---

---

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

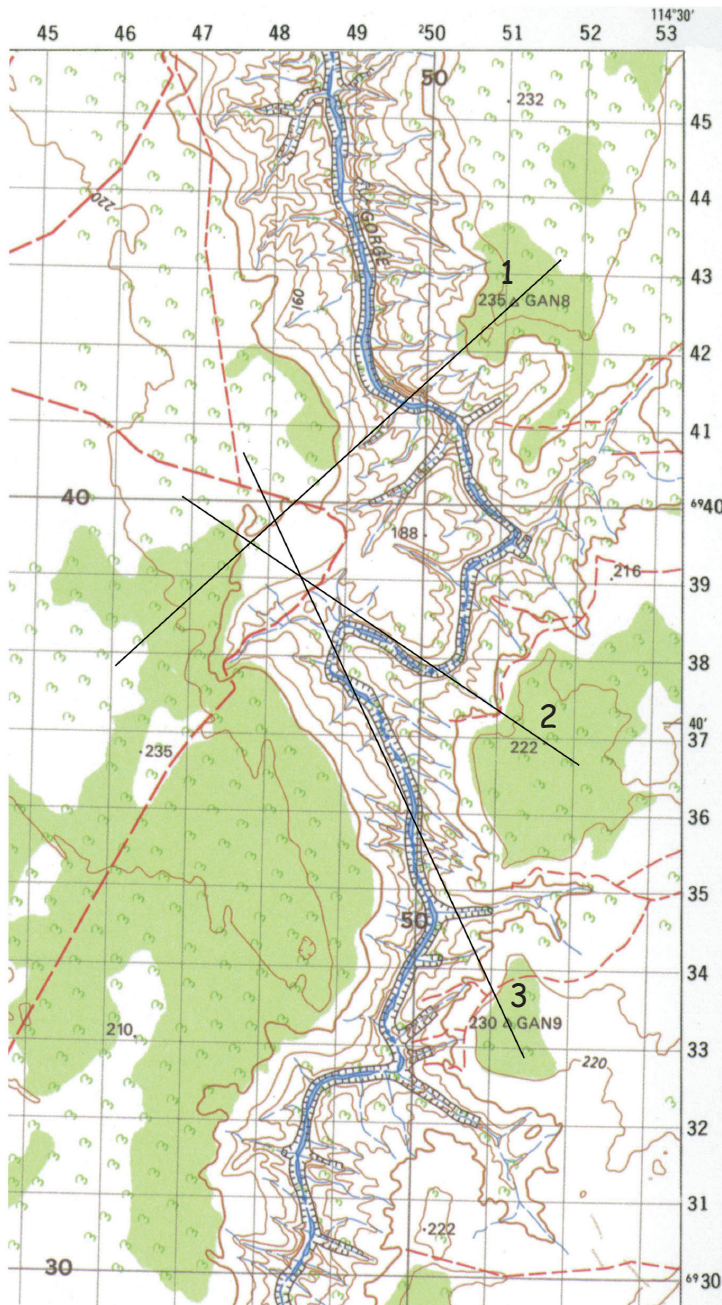

### Question 26

**(10 marks)**

Participants are learning triangulation as part of their navigation challenge. Following your instructions, one participant has attempted to triangulate their current position and has brought you their workings for feedback.

- (a) Assume the measured field bearings and peak locations on the map are accurate. Circle the mistakes made by the participant on the facing page. (5 marks)
- (b) Provide the correct solution for the triangulation. Use the same layout as the participant, and redraw any necessary lines on the same map. (5 marks)

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper has a slight shadow on its right side, suggesting it's resting on a surface.

GRID-MAGNETIC ANGLE  
3°06' (55 MILS)

GRID CONVERGENCE  
1°18' (23 MILS)

TRUE NORTH, GRID NORTH AND MAGNETIC NORTH ARE SHOWN DIAGRAMMATICALLY FOR THE CENTRE OF THIS MAP. MAGNETIC NORTH IS CORRECT FOR 1975 AND MOVES WESTERLY BY 03' (1 MIL) IN A YEAR.

Scale 1: 100 000

Field (magnetic) bearings:

Peak 1: 47°

Peak 2: 130°

Peak 3: 157°

Magnetic  
variation = 3°06' + (32 × 03')  
= 3°06' + 96'  
= 3° 102'  
= 4° 42'

Rounded = 4°

$$1. \quad 47^\circ - 4^\circ = 43^\circ, \quad 43^\circ + 180^\circ = 223^\circ$$

$$2. \quad 130^\circ - 4^\circ = 122^\circ, \quad 122^\circ + 180^\circ = 302^\circ$$

$$3. \quad 157^\circ - 4^\circ = 153^\circ, \quad 153^\circ + 180^\circ = 333^\circ$$

Location = GR 394481

See next page

## Question 27

(7 marks)

After dinner, you observe passive conflict within the girls group. Questioning the participants, you find out that one girl feels that she has worked harder than the rest of the group without any acknowledgement from her companions.

- (a) Outline **two** behaviours you would expect to see from a participant using the 'withdraw' method of conflict management in this situation. (2 marks)

---

---

---

---

---

---

---

---

- (b) Identify which conflict management method would be **most** appropriate to use in this situation, and explain why. (3 marks)

---

---

---

---

---

---

---

---

- (c) It is getting late and the conflict has not yet been resolved. Explain what you, as a leader, should do to address the situation. (2 marks)

---

---

---

---

---

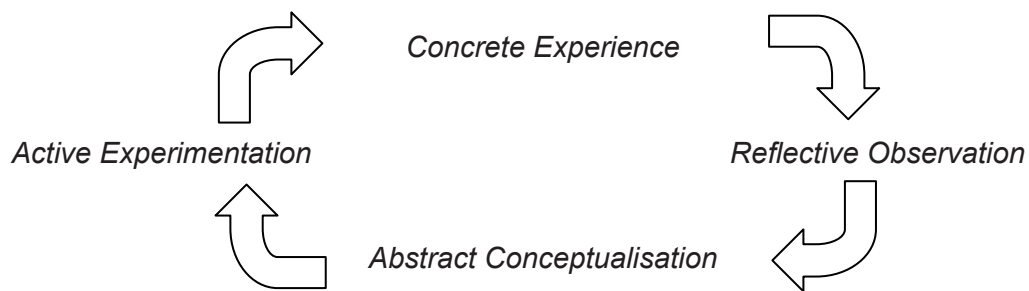

---

### Question 28

**(11 marks)**

In constructing your final debrief to help the Year 10 participants gain understandings from their experiences on camp, you pay careful attention to the type and sequence of questions you plan to use.

- (a) Debrief questions are usually asked in the sequence; 'what', 'so what' and 'now what'. Use your understanding of Kolb's Experiential Learning Model (summarised below) to explain how this sequence supports the experiential learning process. (6 marks)

[illegible]

## Section Three: Extended answer

30% (40 Marks)

This section contains **three (3)** questions. You must answer **two (2)** questions. Write your answers on the lined pages provided following Question 31.

Spare pages are included at the end of this booklet. They can be used for planning your responses and/or as additional space if required to continue an answer.

- Planning: If you use the spare pages for planning, indicate this clearly at the top of the page.
- Continuing an answer: If you need to use the space to continue an answer, indicate in the original answer space where the answer is continued, i.e. give the page number. Fill in the number of the question that you are continuing to answer at the top of the page.

Suggested working time: 60 minutes.

---

Question 29

(20 marks)

An increase in human population, and its consequent impact on environmental sustainability, has been identified as a global environmental issue. Population growth has also been named in both the National and Western Australian State of the Environment reports as being one of the most significant factors affecting the Australian natural environment.

- (a) Provide **two** examples to explain how population growth has affected Australia's environmental sustainability. (4 marks)
- (b) Describe **three** negative impacts on the Australian natural environment resulting from population growth, and outline an appropriate strategy at either state or national level to address each impact. (12 marks)
- (c) 'A small population increase within a highly developed nation has more impact on the natural environment than a large population increase within a developing nation.'

Provide **four** arguments in response to this statement. At least one argument must agree with this statement, and at least one argument disagree with this statement. (4 marks)

## Question 30

(20 marks)

- (a) Explain **three** key differences between the human-nature relationships of pre-settlement Australian Aboriginal people and Australia's early European settlers. (6 marks)
- (b) Explain **two** ways in which Aboriginal people affected the **biotic** factors in the Australian environment, and **two** ways in which early European settlers affected the **abiotic** factors in that environment. (8 marks)
- (c) Explain why traditional Aboriginal land management practices are being implemented today. Provide **two** examples of these practices in both modern and traditional forms. (6 marks)

**Question 31****(20 marks)**
