.....

Jennifer MacDonald has more than twenty years' experience teaching, including teaching English and History in secondary schools and TAFEs in Australia and overseas. She has written resource material on understanding genres for the NSW Department of Education and Training. Jennifer has presented at a number of curriculum workshops. She is particularly interested in different learning styles and in making curriculums more accessible for marginal students. Jennifer has also taught Professional Writing within the adult education sector and is a published poet.

Blake Education advises that this book and the resources suggested within may contain names and images of people who have died, which may be offensive or distressing to Aboriginal and Torres Strait Islander people. Teachers should advise Aboriginal and Torres Strait Islander students of this possibility.

The *Achieve!* series of History titles has been developed for teachers who require modified, curriculum-focused activities for secondary school students who struggle to read and comprehend regular classroom materials because of poor literacy skills. Many of the pages will also be suitable as supplementary material for regular classes.

World War II – Book 2 looks at the experiences of Australians in the war, explores main events and studies some of the post-war impact for Australia. Content includes the attack on Pearl Harbour, Kokoda, the experiences of POWs, the Thai–Burma railway, the bombing of Hiroshima and Nagasaki, mateship, wartime intelligence and the ANZUS treaty. Historical and literacy skills are developed through interpreting photographs and secondary sources, locating and categorising information and studying the impact of the wartime experience.

The CD-ROM contains all the pages that are featured in the book, as well as a file of illustrations that can be used for other work sheets. These documents can be easily edited to suit the individual needs of students.

This book is divided into ten units, containing photocopiable Resource sheets and Activity sheets. This will allow teachers to use the material in a variety of ways. For example, the unit could be taught as a lesson with students in groups of varying sizes. Alternatively, a single Resource sheet and related Activity sheets can be used as support material, for individual homework, assessment or revision.

The teacher's notes provide valuable guidance about using each unit, and contain the following elements:

Objectives – These are the key skills and knowledge learnt through using the work sheets.

Prior knowledge – This refers to the skills and knowledge required for students to complete the tasks. Some activities are more challenging than others. However, as a rule, students should have a reading comprehension age of six to nine years to be able to attempt the activities.

Background – This section provides additional guidance to help teachers to present a successful lesson. It may include definitions or further background notes about the subject matter.

Starter activity – Warm-up activities are provided to put the content into proper context and to gain student interest and attention.

Resource and Activity sheets – The Resource sheets do not always contain activities and are used either to stimulate discussion or as a part of the unit's activities. The Activity sheets may be used sequentially or as stand-alone tasks, depending on the needs of the students.

Extension ideas – Additional tasks are suggested to recap the main skills or knowledge taught in the lesson, or to extend, assess or include technology in the lesson.

Australian Curriculum

Objectives

- To learn about the bombing of Pearl Harbour
- To learn about Australia's response
- To gain an understanding of how the bombing of Pearl Harbour led to American involvement in WWII

Prior knowledge

Students should be aware that WWII was fought on three main fronts: Europe, North Africa and the Pacific. Students should also know that Australia was already supporting Britain in the war.

Background

Japan, Italy and Germany signed the Three Power Pact in 1940. This pact requested that Japan recognise Germany and Italy's dominance in Europe, and that Germany and Italy recognise Japan's mission to establish a Pacific empire. Pro-Nazi countries also supported this pact. The pact established Japan, Italy and Germany as Axis powers that fought against the major Allied powers of Britain, France, (with the exception of Vichy France), Russia (from 1941), and the United States (from 1941). Australia and other Commonwealth countries also fought with Allied powers.

The war in the Pacific was sparked by the Japanese bombing of the US naval fleet at Pearl Harbour, Hawaii, on 7th December 1941. This surprise attack caused extensive damage. Over 2000 Americans were killed and over 1000 were wounded. On 8th December, US President Franklin Roosevelt requested that Congress recognise that the US was at war with Japan. Roosevelt's request was successful and war was declared upon Japan.

The attack on Pearl Harbour was carried out in order to provide Japan with more time to acquire the resources, including coal, oil and iron, they needed to attack the Philippines, Burma (now Myanmar) and Malaya (now part of Malaysia).

Starter activity

Write the names of the major Axis and Allied powers on the board and ask students to copy them. Remind students that not all countries entered WWII at the same time. Then work with the students to use an atlas or the Internet to locate these places in the Pacific:

- Darwin
- Singapore
- Pearl Harbour, Hawaii
- Port Moresby, Papua and New Guinea
- the Coral Sea.

This website would be helpful:

www.combinedfleet.com/battles

Resource sheets and Activity sheets

The Activity sheet, 'World War II in the Pacific', provides a cloze activity which summarises significant events of the war in the Pacific.

The Resource sheet, 'A major Japanese attack', describes the Japanese attack on Pearl Harbour. It also provides the main motivations for this attack.

To complete the Activity sheet, 'Understanding the Pearl Harbour attack', students will need to refer to the Resource sheet, 'A major Japanese attack'. Students will complete comprehension questions about the attack on Pearl Harbour. Strategy is also defined, and students consider the Japanese strategy behind the attack on Pearl Harbour.

The Activity sheet, 'Australia at war with Japan', provides information about Curtin's announcement of war with Japan and Australia's shifting attitudes towards Britain and the United States. Students will answer related comprehension questions.

The Activity sheet, 'Singular and plural nouns', provides rules and examples for forming plural nouns. Students will write their own examples.

Extension ideas

- Students could research the Japanese invasion of Manchuria. This website would be helpful:
www.bbc.co.uk/history/worldwars/wwtwo/japan_quest_empire_01.shtml

Suggested web addresses were functional at the time of publication but teachers should check them for inappropriate content and to ensure that they are still functional before use with students.

World War II in the Pacific

 Use the word bank to complete the information below.

A build up ____ **war:** Japan wanted to become more powerful. In 1931, Japan _____ Manchuria _____ used Manchuria's oil, coal, iron and gold. The League of Nations, an organisation formed to prevent war, ordered Japan to _____ Manchuria. Japan _____.

Japan attacked: Japan tried to control China, attacking the Chinese _____ of Shanghai and _____.

The Three Power Pact: In 1940, Japan signed this pact with Germany and _____. These nations _____ called Axis powers. Countries that supported Germany fought with them _____ the Allied powers of Britain, Russia, France and the United States. Other countries, like Australia, fought with the Allied powers.

Pearl Harbour: On 7th December 1941, Japanese aircraft _____ Pearl Harbour in _____.

Fall of _____: On 15th February, 1942, Japanese forces _____ the British _____ in Singapore. Over 1500 Australian soldiers fighting with the _____ were taken as prisoners.

Bombing ____ **Darwin:** On February 19th, 1942, Japan bombed Darwin. This made the Australia understand how _____ the war was.

The _____ **of the Coral Sea:** In May 1942, Australian and American forces won this battle. This was a major _____ for Japan as it stopped them from reaching Port Moresby by _____.

The Kokoda Trail: In July 1942, Australian forces were sent to the Kokoda Trail in Papua and New Guinea to stop Japanese forces _____ access to Port Moresby and advancing to _____.

A major Japanese attack

On 7th December, 1941, Japanese military forces bombed the United States (US) naval fleet at Pearl Harbour, on the island of Oahu in Hawaii. Hawaii is in the Pacific Ocean.

The Japanese made two strikes on Pearl Harbour. They used fighter planes, ships and submarines.

This was a surprise attack that caused a lot of damage:

- Over 2000 Americans were killed and over 1000 were wounded.
- Eighteen US warships were sunk or damaged.
- Over 160 planes were destroyed.
- Three US aircraft carriers were not attacked because they were out at sea.

Japanese fighter planes attacking Pearl Harbour, Hawaii, 1941

Japan did not attack the oil reserves that were located on the shores of Pearl Harbour. This allowed the Americans to rebuild their fleet.

Why did Japan attack Pearl Harbour?

Japan aimed to remove the US military from the Pacific. This would make it easier to attack countries in South East Asia. The bombing of Pearl Harbour was a **strategy** Japan used to try to stop the US from defending countries in the Pacific against Japanese attacks.

Japan was already at war with China. Because of this, the US, Holland and Britain had placed **embargoes** on trading oil and scrap iron with Japan. Japan needed these **resources** and was **determined** to get them by following a policy of **imperialism**. Japan wanted to expand its territory in the Pacific to get access to valuable resources.

Significance of the attack on Pearl Harbour

- This attack caused the United States to enter WWII.
- It also resulted in a closer alliance between Australia and the US. Australia realised that it needed to look to the US for protection.

Understanding the Pearl Harbour attack

 Read the Resource sheet, 'A major Japanese attack'.

1 Write each term beside the correct definition: **determined**, **embargoes**, **imperialism**.

a) Really wanting to get something _____

b) When a powerful country tries to expand its territory by using military and political force to take the land of other countries.

c) Stopping the trade of resources _____

2 Complete the following sentences.

a) On 7 December, 1941 Japanese military forces bombed the US naval _____

b) The Japanese attack was a surprise that caused _____

c) Japan aimed to remove the US military _____

d) Japan wanted to expand _____

e) This attack resulted in a closer alliance between _____

A **strategy** is a plan that someone develops in order to achieve a specific thing. Another word for a strategy is a scheme. The plural for strategy is **strategies**.

The bombing of Pearl Harbour was a Japanese strategy to stop the US military from having enough power to fight the Japanese military.

3 Explain why the Japanese thought bombing Pearl Harbour was a good strategy. Use the word bank to help you.

Word bank

defending

military

Pacific

power

remove

Australia at war with Japan

On 8th December 1941, one day after the attack on Pearl Harbour, the Australian Prime Minister, John Curtin, made an announcement. It was broadcast on ABC radio. Curtin announced that Australia was now at war with Japan. The next day, war was officially declared upon Japan.

A shift in thinking

A later speech by John Curtin, published in *The Herald* on 27th December, 1941, stressed the importance of co-operating with the United States to defeat the Japanese in the Pacific. Curtin's speech is important because it shows that Australia was now not as closely linked with Britain. At the start of the war, Britain had been considered the 'mother country'. By late 1941, attitudes had changed. Many people believed that Australia should look towards the United States for support.

Use the information above to answer the following questions.

1 Who was the Australian Prime Minister in 1941, after the attack on Pearl Harbour?

2 Why was the Prime Minister's speech in December 1941 important?

3 What does the word **co-operating** mean?

4 Explain the meaning of 'mother country'.

5 What was the shift in thinking for Australia?

Singular and plural nouns

Singular means *one*. **Plural** means *more than one*.

A **noun** is a naming word, and a common noun names everyday things like *uniform* and *shoe*. For most common nouns, we add **s** to the end of the word to form the plural.

 **1** The table below shows two examples. Add two more examples of your own.

Singular	fleet	ship		
Plural	fleets	ships		

To form the plural of nouns that end in **ch, x, sh, s, ss** or **x**, we usually add **es**.

2 The table below shows two examples. Add two more examples of your own.

Singular	trench	kiss		
Plural	trenches	kisses		

To form the plural of nouns that end in a **consonant and y**, we usually drop the **y** and add **ies**. Remember, a consonant is a letter that is not a **vowel**. The vowels are **a e i o u**.

3 The table below shows two examples. Add two more examples of your own.

Singular	territory	policy		
Plural	territories	policies		

4 There are some **irregular plurals** that don't follow the usual rules. Write the plural for the words in the table. One has been done for you.

Singular	child	mouse	man	woman
Plural	children			

5 Write the plural form of each word in brackets to complete these sentences.

- The _____ (soldier) fought for their _____ (country) in the war.
- The _____ (family) of the soldiers worked hard at home while _____ (man) and _____ (woman) served abroad.

Objectives

- To learn about the location of the Kokoda Trail
- To identify the role of Australian soldiers in Kokoda
- To learn about the conditions endured on the Kokoda Trail
- To learn about Fuzzy Wuzzy Angels
- To examine a primary source photo

Prior knowledge

Students need no prior knowledge for this unit.

Background

Australian forces were sent to Kokoda to prevent Japanese forces from invading from the north coast to the south coast and capturing Port Moresby. Australia's aim was to push the Japanese back and the only way this could be done was by defending the Kokoda Trail. The term 'Fuzzy Wuzzy Angels' refers to the indigenous Papua New Guineans who greatly assisted Australian soldiers on the Kokoda Trail.

Starter activity

Using a map of Papua and New Guinea, work with the students to locate Gona, Buna, Kokoda, Port Moresby, the Kokoda Trail and the Owen Stanley Range. Discuss what the map tells you about the terrain.

Resource sheets and Activity sheets

The Resource sheet, 'Stopping further Japanese invasion', describes the location of the Kokoda Trail and outlines why Australian forces were sent there. Students will learn about the role of these forces and the conditions they endured.

To complete the Activity sheet, 'Thinking about the Kokoda Trail', students will need to refer to the Resource sheet, 'Stopping further Japanese invasion'. Students will complete a missing letter exercise and a cloze exercise, and write their own sentences about the Kokoda Trail.

On the Activity sheet, 'A letter from a soldier', students will complete a cloze exercise that provides a young soldier's perspective on fighting along the Kokoda Trail.

The Activity sheet, 'Fuzzy Wuzzy Angels', outlines who these 'angels' were and their role on the Kokoda Trail. Students will answer related comprehension questions.

The Activity sheet, 'Studying a photo from the Kokoda Trail', asks students to examine a primary source photo. Students will use a word bank to help them construct a paragraph based on this photo.

Extension ideas

- Remind students that the Kokoda Trail is also known as the Kokoda Track. Have students visit the website: <http://kokoda.commemoration.gov.au>
Students could watch the short video about the Kokoda Trail, and then write down the names of two of the battles fought here. Possible answers: The Battle of Isurava, The Battle of Mission Ridge, The Battle of the Beachheads.
- Students could explore other aspects of the same website, such as the Veteran's Accounts.

Suggested web addresses were functional at the time of publication but teachers should check them for inappropriate content and to ensure that they are still functional before use with students.

Stopping further Japanese invasion

Australian troops were sent to Papua New Guinea to prevent Japanese forces advancing towards Australia. Japan began occupying areas of Papua New Guinea from January 1942. In late July 1942, they landed forces in the north at Gona and Buna. They were preparing for an overland attack on the south coast city of Port Moresby. If Japan got control of Port Moresby and used it as a military base, attacking Australia would be easier. The Japanese would become more powerful in the Pacific.

The Kokoda Trail (or Kokoda Track) was the main route connecting Gona and Buna on the north coast with Port Moresby on the south coast. It went through steep mountains called the Owen Stanley Range. This mountain range made it difficult for Japanese forces to reach Port Moresby.

The Kokoda Trail

Conditions on the Kokoda Trail

The trail was often very narrow and soldiers had to battle their way through thick jungles and dangerous mountains. A number of Australian soldiers sent there were only 19 years old and had little military training. These soldiers navigated rivers and coped with swamps, mud and diseases.

What did Australian forces do?

Australian forces fought to protect Kokoda, a village on the Kokoda Trail. The Japanese wanted this village because it had an airfield. The Australians fought to prevent Japanese forces from getting any further along the trail but they nearly reached Port Moresby. Australian soldiers struggled until more soldiers were sent to help them. By early 1943, after close battles, the Japanese were defeated in New Guinea and were forced to withdraw.

Thinking about the Kokoda Trail

Read the Resource sheet, 'Stopping further Japanese invasion'.

1 Fill in the missing letters for these words from the Resource sheet:

- | | | |
|-------------|------------|--------------|
| a) Ko_o_a | d) i_va_ed | g) mo_nta_n_ |
| b) Ja_an_s_ | e) t_o_ps | h) j_ng_e |
| c) n_rt_ | f) at_a_k | i) d_se_s_s |

2 Use the word bank to help you complete the information below.

- a) Australian soldiers were _____ to Papua New _____
to _____ the Japanese military from _____
to Australia.
- b) Japanese forces began to _____ Papua New Guinea in
_____ 1942.
- c) The Japanese wanted to get _____ of Port Moresby and
use it as a _____ base.
- d) The Kokoda _____ was the main _____ that
connected Gona and Buna with Port Moresby.
- e) Conditions on the _____ Trail were very _____.

3 Think about the Kokoda Trail, its location and the conditions there.
Write two sentences about the Kokoda Trail.

- _____

- _____

A letter from a soldier

Use these words to complete the letter: **the, and, it's.**

1942, Papua New Guinea

Dear Mum,

I miss you so much. Things are really hard here. We're working our way along _____ Kokoda Trail. Some people call it _____ 'devil's design' because _____ a kind of hell on earth. It's very dense _____ steep. There's so much mud _____ I pull off at least five leeches a day. The wretched things somehow manage to crawl inside my boots. It's really hard to keep things dry here but I remember what you told me about trying to keep my socks dry. I try to wash them every night _____ hang them on a branch. A lot of _____ guys have come down with diarrhoea. Some have caught typhoid. A few soldiers in my division have caught malaria. Mum, I don't want you to worry _____ I want you to know I'm okay. You know me, a real survivor. I think being only nineteen helps because I'm fitter than some of _____ older soldiers. So far, I haven't caught any diseases. There are these natives here who help us make our way along _____ track. They're called Fuzzy Wuzzy Angels. They even help carry injured soldiers. Better finish this now because _____ getting dark. Sometimes there's hardly any light here because _____ jungle is so thick. That's what I hate most Mum – the darkness. I hear all these really weird noises _____ worry that _____ Japs are about to attack us. I don't tell anyone else how scared I am but I remember that you're proud of me _____ that really helps.

Love always,

Tim xxx

Fuzzy Wuzzy Angels

Fuzzy Wuzzy Angels is the name given to indigenous Papua and New Guineans who greatly assisted Australian forces on the Kokoda Trail. They were called Fuzzy Wuzzy Angels because of their frizzy hair and because they helped Australian soldiers.

What did Fuzzy Wuzzy Angels do?

- Fuzzy Wuzzy Angels carried ammunition and supplies to Australian military forces. Their loads were about 40 kilograms. Fuzzy Wuzzy Angels also often helped Australian soldiers carry their heavy packs.
- Fuzzy Wuzzy Angels carried wounded Australian soldiers on stretchers along the Kokoda Trail over very rough ground to try to get medical help.
- Fuzzy Wuzzy Angels knew a lot about the local landscape and gave Australians valuable information. They also worked as scouts because they knew the Papua New Guinea landscape so well.

Treatment of Fuzzy Wuzzy Angels

Many more Australians would have died without the help of Fuzzy Wuzzy Angels but they were not always treated well. At first they had volunteered but authorities made it very difficult for them to leave the Australian army. They were not paid equal rates and there were times when they were not given enough food.

1 Who are the Fuzzy Wuzzy Angels?

2 What were three things the Fuzzy Wuzzy Angels did?

3 What does the word **volunteered** mean?

4 Was the treatment of Fuzzy Wuzzy Angels always fair? Explain your answer.

Studying a photo from the Kokoda Trail

This photo was taken on the 23rd November 1942. It shows Fuzzy Wuzzy Angels carrying a wounded Australian soldier on a stretcher across a river on the Kokoda Trail.

We call this a **primary source document** because it was taken at the time the wounded soldier was carried.

Kokoda Trail, 23-11-1942,

Objectives

- To inform students of some of the conditions on the battlefields
- To inform students of some of the ways soldiers survived on the battlefields
- To examine a primary source photo

Prior knowledge

Students need no prior knowledge for this unit.

Background

Surviving on the battlefields of WWII was extremely difficult. Soldiers had to cope with harsh weather conditions, new weaponry and isolation. They also had to cope with the constant threat of disease. Survival methods varied. Some soldiers were well equipped, others froze and starved to death. A number of Australian soldiers survived because of help received from medical units. They were also helped by a strong sense of mateship. Intelligence gathering was responsible for saving a number of soldiers' lives. Note that for this unit the word 'soldiers' has been used in its wider sense and includes navy and air force personnel as well as army soldiers.

Starter activity

Tell students that they are about to go on a long trip. On this trip they will need to think about food, accommodation, transport and communication. They will not have access to fast food chains, supermarkets or their family's cooking. They will not have access to hotel accommodation or to Facebook, mobile phones or the internet. Ask students to draw up a table with the following headings: Food, Accommodation, Transport and Communication. Ask students to list items under each category.

Resource sheets and Activity sheets

The Resource sheet, 'Food', provides an Australian soldier's account of the kinds of foods soldiers survived on when serving in El Alamein.

To complete the Activity sheet, 'Thinking about soldiers', students will need to refer to the Resource sheet, 'Food'. Students will complete a true or false exercise and consider what they would place in a comfort parcel to send to soldiers in WWII.

On the Activity sheet, 'Some of the things soldiers had to cope with', students will complete a cloze exercise that outlines the difficulties soldiers experienced.

The Activity sheet, 'Mateship', explores the concept of mateship. Students will examine a source photo that presents a scene where soldiers display qualities of mateship.

The Activity sheet, 'Intelligence', presents methods of gathering information in WWII. Students will consider differences in technology in WWII compared to today, and explain how intelligence helped soldiers to survive.

Extension ideas

- Have students use the Internet to find out three things about the Enigma machine – an electro-mechanical device that Germany used to collect data. Useful websites:
russells.freeshell.org/enigma/
www.bbc.co.uk/history/topics/enigma

Suggested web addresses were functional at the time of publication but teachers should check them for inappropriate content and to ensure that they are still functional before use with students.

Food

The food Australian soldiers ate during WWII depended on where they were located and the climate they were in. However, there were some basic foods that were issued to all soldiers. These foods needed to last a long time and be easy to transport.

Hi, I'm Tony. It's 1942. I'm an Australian soldier based in El Alamein, Egypt. It's really hard to get fresh food here and the food we do get is rationed. I'm eating my dinner – bully beef, again. It's canned corn beef and I'm sick of it. Then I'll have a biscuit and cup of billy tea with some sweetened condensed milk. Luckily, I still have my enamel mug.

Sometimes we get to eat stew. It's made in an army cookhouse and put in this metal pot called a Dixie, and brought to us in a jeep. Problem is we only get food from the cookhouse when things are quiet. My mate Max tried turning some bully beef into rissoles. They tasted disgusting.

I really miss my wife's cooking. She makes the best Sunday roast. Can't wait to get back to Australia. Too many flies here. This morning I swallowed a fly and I hate it when they get up my nostrils. The sand – so much sand. It gets into everything. Sometimes I get Weet-Bix for breakfast but sand gets into that too. Sometimes we get canned cheese and the sand even gets into that.

The other day a group of us found a fig tree. I didn't like figs back in Australia but now I love them. It's so hard to get fresh fruit here. We have to be really careful with water. It's rationed to two pints a day. Can't use it to wash clothes, only to drink and believe me – you get really thirsty here.

Thinking about soldiers

Read the Resource sheet, 'Food'.

1 Write **true** or **false** for each statement in the table below.

Statement	True or false?
The food soldiers were given was rationed.	
Bully beef is canned corn beef.	
Soldiers had fresh milk.	
Soldiers had to cope with sand and flies at El Alamein.	
It was easy to find fresh water at El Alamein.	

2 If you were a soldier in WWII, what food would you miss the most? Give a reason for your answer.

Comfort parcels

The Red Cross and Australian Comforts Fund sent parcels to many soldiers. These parcels contained things like chocolate, jam, raisins, tobacco and biscuits. Soldiers sometimes saved items so they could have a special Christmas meal. These parcels also contained soap, books, warm socks and other clothing.

3 Imagine that you are living in Australia during WWII. You decide to send a comfort parcel to a soldier. List six things you would put into the parcel.

Some of the things soldiers coped with

To **cope** means to *deal with*. In WWII, soldiers had to cope with many things.

 Use the word bank to complete the information below.

Missing _____ and friends

Soldiers had to cope with being away from their families for long _____ of time. Mobile phones didn't exist in WWII and soldiers often didn't hear from their families for _____. Women who worked as nurses, translators and telecommunication operators also had to cope with this _____.

Extreme climates

Soldiers in Europe had to cope with _____ weather. Soldiers in the Pacific had to cope with extremely _____ weather and humidity, and monsoonal rains. Soldiers in Northern Africa had to cope _____ dry heat.

Health

Very cold and very hot _____ resulted in soldiers becoming ill and catching diseases. In cold weather, soldiers caught pneumonia. In hot, humid weather, soldiers had to cope with fungal infections and _____ diseases. Doctors and nurses did their best to _____ soldiers recover from diseases.

Soldiers were also injured in battle. Many suffered from _____ wounds.

New weaponry

Weapons had dramatically _____ since WWI. Soldiers still had to look after their rifles but they could no longer hide for long periods of _____ in dugout trenches. Intelligence officers tried to _____ the next moves of enemy forces. Soldiers had to learn to use _____ technology, such as radar. They also had to be aware that enemy forces _____ use radar and chemical warfare.

Mateship

Mateship means helping and caring for your friends (mates). It also means thinking of your friends as equals. Mateship has a long tradition in Australia, and developed in the Gold Rush and at Gallipoli.

Mateship was very important for soldiers in WWII. Australian soldiers showed loyalty and great friendship towards others in extremely challenging conditions.

This photo was taken by Reg Edwards in New Guinea on 24th March, 1944. It shows a soldier stuck in mud on a track. The soldier's mates are helping him. This photo is a primary source.

New Guinea, 24-3-1944. Courtesy, Australian War Memorial 016736

 **1** What is the first thing you notice about this photo?

2 Why are the men carrying long sticks?

3 What do you think might be in the men's backpacks?

4 What do you think could have happened to this soldier if his mates didn't help him?

5 What does this photo tell you about mateship?

Intelligence

Intelligence and **secret communication** helped soldiers survive in the war.

In WWII, technology wasn't as advanced as it is today. Methods of intelligence included aerial reconnaissance (using aircraft to collect information about enemy forces), espionage (using spies), the use of radar, and the use of radio operators and decoding machines.

Intelligence officers collected information about enemy forces. There were two main ways this was done.

- **Radio (wireless) operators** would record what they heard on paper. Each country used their own codes and intelligence officers would try to crack these codes. US intelligence broke Japanese naval codes and found out a lot of information about Japanese movements in the Coral Sea. This information helped the Allies win the Battle of the Coral Sea in May 1942. If the Japanese had won this battle, they could have captured New Guinea. Australia would have been open to a Japanese attack.
- In WWII there were many **spies**. A spy secretly collects information about an enemy. Donald and Peter Field were two Australian spies sent to New Guinea to gather information about Japanese forces. They worked as signalman and intercepted enemy messages from Japan. They were sworn to secrecy about their work for 60 years.

 **1** List three methods of communication used in WWII, and three used today.

Used in WWII	
Used today	

2 Describe one modern way a country could find out about an enemy's next move.

3 How did intelligence help soldiers survive in WWII?

Objectives

- To define the term *prisoner of war*.
- To learn about the experiences of Australian prisoners of war during World War II

Prior knowledge

Students need to be aware of Australia's allies and enemies during World War II. They should be familiar with the terms *Allied* and *Axis powers*.

Background

During the course of World War II, thousands of Allied soldiers were captured and imprisoned as prisoners of war (POWs). Women, especially nurses, were also imprisoned. There were over 35 000 Australian POWs. Many were captured by the Japanese after the defeat of Allied forces in Singapore on 15th February, 1942. Others were imprisoned by German, Italian and Vichy French forces.

Many prisoners were forced by their captors to work in horrendous conditions. The construction of the Thai–Burma railway, between 1942 and 1945, involved POWs working under inhumane conditions. Australian POWs worked at both ends of this railway.

Conditions varied in prison camps but all POWs endured brutal conditions. Living conditions were cramped and unhygienic. Food was scarce and clothing was inadequate. Diseases, including pneumonia, beriberi and malaria, were rampant.

Starter activity

Write 'prisoners of war – POWs' on the board. Explain that all nations involved in warfare take prisoners of war. Point out that POWs is the abbreviation for prisoners of war.

Brainstorm what students think a prisoner of war is, and how a prisoner of war would be different from a prisoner serving a jail term because of a crime he or she committed.

Resource sheets and Activity sheets

The Resource sheet, 'What are prisoners of war?', explains this term and provides background information about POW camps in WWII.

To complete the Activity sheet, 'About prisoners of war', students will need to refer to the Resource sheet, 'What are prisoners of war?'. Students will complete a word definition exercise and answer comprehension questions.

On the Activity sheet, 'Death marches', students will complete a cloze exercise that outlines what a death march is, and learn about death marches in Borneo.

The Activity sheet, 'POW profile', provides a brief profile of a real soldier. Students will compose questions they would like to ask him, and work with a partner to suggest the answer to one question.

The Activity sheet, 'Experiences of prisoners of war (POWs)', provides an illustration of POWs in Changi. Students are asked to imagine that they are POWs and write a paragraph about a day in their lives.

Extension ideas

- Have students research Changi prisoner of war camp. Ask them to write down two things they find out about this POW camp. Students could work in small groups to create an oral or multimedia report to show the class. These websites will be helpful:
http://www.historylearningsite.co.uk/prisoners_of_war_WW2.htm
<http://www.awm.gov.au/encyclopedia/pow/changi.asp>

Suggested web addresses were functional at the time of publication but teachers should check them for inappropriate content and to ensure that they are still functional before use with students.

What are prisoners of war?

In all wars, people fighting on enemy sides are captured and held as prisoners. They are called prisoners of war or POWs. In World War II, over 35 000 Australians became POWs.

Many Australian POWs were captured by the Japanese after the fall of Singapore on 15th February, 1942. These POWs were imprisoned in camps in South East Asia. Other soldiers were imprisoned in camps in Austria, Germany and Poland.

Life in prisoner of war camps

Surviving in these camps was extremely difficult. Conditions varied between camps but all POWs endured harsh conditions. Space was cramped, there was little food and clothing was inadequate.

Many POWs were forced to work as slave labour for their captors. Some prisoners were treated brutally and had to work 12 to 16 hours each day. Many prisoners were forced to work in freezing conditions. Others had to work in dense, humid jungles.

Disease was common in all POW camps. These diseases included beriberi, malaria, cholera and dysentery.

What POWs were fed depended on which prison they were in. POWs in Changi had a better diet than POWs working on the Thai–Burma Railway.

POWs in Poland and USSR often starved, but POWs in Germany were treated better than those in Asian prisons.

The **Thai–Burma railway** was one example of slave labour. Many POWs captured in Singapore by the Japanese were sent to work on a railway to connect Thailand with Burma. It became known as ‘The Railway of Death’.

POWs there were rarely given anything to eat other than rice and gruel. The Red Cross sent these POWs food parcels but these were usually stolen.

Changi was the largest Japanese prisoner of war camp. It was located in Singapore and held approximately 15 000 prisoners.

Changi POWs were given small amounts of rice, meat and flour, and smaller amounts of vegetables, milk, sugar, salt, tea and cooking oil. This changed in 1942, when prisoners were told they had to get their own food, except for rice. Changi POWs were allowed to have vegetable gardens.

About prisoners of war

Read the Resource sheet, 'What are prisoners of war?'.

1 Draw lines to match the words in the first column with the correct meaning in the second column.

- | | |
|-----------------|--------------------|
| • scarce | • cruelly |
| • dense | • very little |
| • endured | • not enough |
| • approximately | • managing to live |
| • captured | • very thick |
| • brutally | • put up with |
| • rarely | • caught |
| • inadequate | • about |
| • surviving | • not often |

2 What is a prisoner of war? _____

3 What is the abbreviation for prisoner of war? _____

4 When were many Australians captured?

5 Where was Changi prisoner of war camp located? _____

6 How many Australian prisoners of war were there in World War II? _____

7 What were conditions like for POWs working on the Thai–Burma Railway?

8 Write down three diseases that prisoners of war suffered from.

Death marches

 Use the word bank to complete the information below.

What is a death march?

A death march is when _____ of war and other prisoners are forced to walk very long distances with little hope of _____. Death marches are designed to kill weakened prisoners. Prisoners are given very little food. They become dehydrated because they are not given enough _____. The guards do not help _____ prisoners.

Death marches in WWII

During WWII, Allied prisoners were sent on death marches in Europe and in the _____. Some death marches had no _____ and people were forced to walk for hundreds of miles until they died. Other marches finished at prisoner of war _____.

The Sandakan Death Marches were three _____ marches in Borneo, from Sandakan to Ranau. They were run by the _____ Imperial Army and took place in 1945. Over 2 400 Allied Australian and British prisoners of war died there. Thousands of Indonesian _____ slave labourers also died. Only _____ Australians survived these marches.

Courage of prisoners on death marches

Prisoners who were forced on death marches showed a lot of _____. They were already close to _____ and often their bodies were covered in sores. Many prisoners also had ulcers and some were suffering from beriberi. Yet these prisoners kept trying to _____. They knew if they stopped they would probably be beaten and _____.

POW profile

Read the profile of an Australian prisoner of war.

Sergeant Rupert Ingram Petchell

Sergeant Rupert Ingram Petchell was a soldier in the 2/15 Field Regiment of the Australian Imperial Force. He was sent to Singapore in 1941 and captured by the Japanese. Sergeant Petchell was then sent to Changi prison camp. A year later he was sent to Thailand and forced to work on the Thai–Burma railway. Here he witnessed the deaths of many of his fellow soldiers.

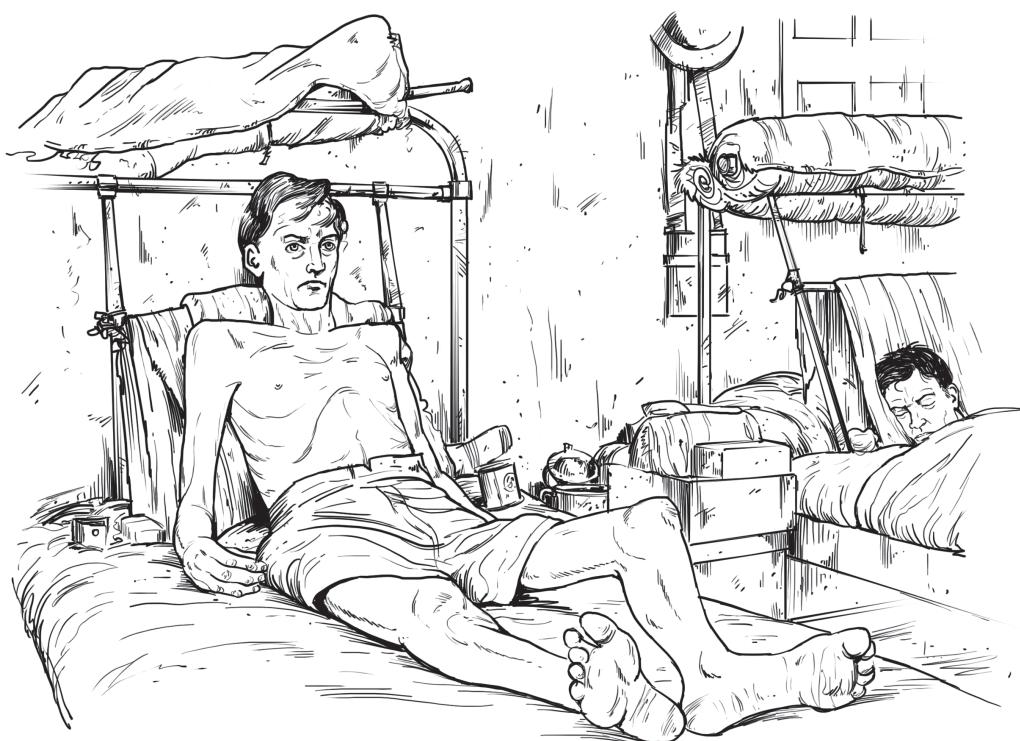

Sergeant Petchell suffered from beriberi, dysentery and cholera during his imprisonment but somehow he managed to survive the horrendous conditions. At times he ate grass so that he did not starve. When Sergeant Petchell returned to Australia, he weighed just 47 kilograms. He died in 1968. He was 62.

1 Imagine Sergeant Petchell is still alive. Write four questions you would like to ask him.

2 Read one of your questions to a partner. How does your partner think Sergeant Petchell would have answered your question?

Experiences of prisoners of war (POWs)

The illustration shows prisoners of war in Changi POW camp. Conditions in Changi were better than in many other POW camps. Prisoners were allowed to grow their own vegetables. However, like other POWs, Changi POWs were forced to do hard labour.

Imagine you are an Australian prisoner of war. Remember, there were male and female POWs. Write a paragraph about a day in your life. You can be in Changi or in another POW camp. You can use the word bank to help you.

Word bank

harsh

survive

Objectives

- To learn about the construction of the Thai–Burma railway
- To learn about the treatment of workers on the Thai–Burma railway
- To study a primary source document

Prior knowledge

Students need no prior knowledge for this unit.

Background

The Thai–Burma railway was built because the Japanese wanted to move their troops and supplies to Burma (now Myanmar) without the threat of Allied submarine attacks. Asian workers and POWs were forced to work on this railway. The conditions they worked under were shocking. International conventions governing the treatment of prisoners were ignored. Starvation, beatings and diseases led to the deaths of thousands of people. The railway became known as 'the railway of death.'

Starter activity

Brainstorm why transport is important, especially during wartime. Ask students why, during war years, railways could be considered a safer method of transport than shipping. Record students' ideas.

Resource sheets and Activity sheets

The Resource sheet, 'Railway of death', explains why the Japanese wanted the railway built. It also describes who worked on it and the brutal conditions workers endured. Note that students will use the terms in bold to complete a definition exercise on the following Activity sheet. You could also discuss the meanings of these terms as you read the information with the students. Afterwards, you could revisit the discussion from the Starter activity and talk about how the information on this Resource sheet affects the students' ideas.

To complete the Activity sheet, 'Learning about words', students will need to refer to the Resource sheet, 'Railway of death'. Students will locate the words in bold on the Resource sheet and match them to their definitions. Students will also read about adjectives and complete a simple adjective exercise.

The Activity sheet, 'A primary source – Australian POWs', asks students to respond to a photo of prisoners laying track on the Thai–Burma railway.

The Activity sheet, 'Time capsule', explains what a time capsule is and provides examples of items that could be placed in a time capsule. Students are asked to imagine being a POW working on the railway, and choose items that could be put inside a time capsule.

The Activity sheet, 'A letter from a prisoner', asks students to complete a letter from a POW who was working on the Thai–Burma railway, to his wife at home.

Extension ideas

- Many Australian POWs working on the Thai–Burma railway were captured after the fall of Singapore. Challenge students to use the Internet to find out:
 - the date of the fall of Singapore
 - what damage this event caused to Allied forces
 - two other interesting facts about this event.These websites will be useful:
www.ww2australia.gov.au/japadvance/singapore.html
www.historylearningsite.co.uk/fall_of_singapore.htm

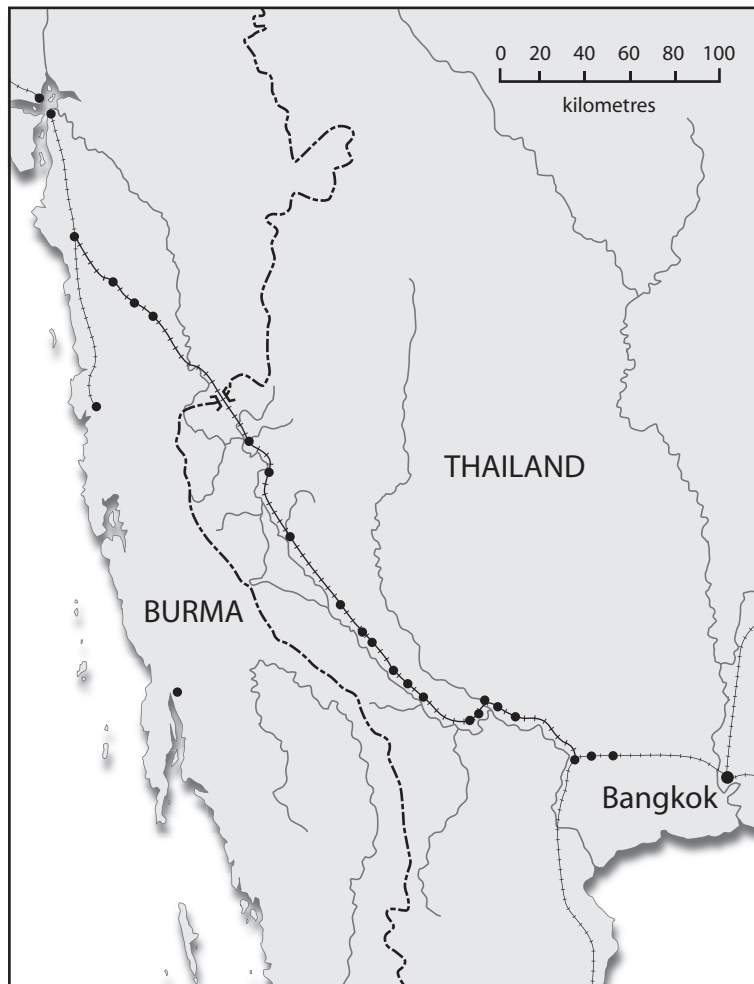

Suggested web addresses were functional at the time of publication but teachers should check them for inappropriate content and to ensure that they are still functional before use with students.

Railway of death

The Japanese invaded Burma (now Myanmar) in 1942. They decided to build a railway between Thailand and Burma to make it easier to move troops and supplies. Using a railway was safer than shipping by sea, due to the possibility of attack from Allied submarines.

The Thai–Burma railway was built between 1942 and 1945. It was **approximately** 415 kilometres long.

The people who **constructed** the railway worked under terrible conditions. It became known as ‘the railway of death’.

Who worked on it?

Thousands of Asian labourers and Allied prisoners of war (POWs) were forced to work on this railway. Many of the POWs had been **captured** in Singapore. Over 2 600 Australian POWs died there.

Diseases

Workers suffered from many severe diseases, including beriberi, dysentery, cholera and malaria. They also suffered from ulcers and dehydration.

Working conditions

Workers were treated as slaves. POWs were **forced** to walk over 300 kilometres just to reach the railway site. POWs who couldn't walk that distance were shot or left to die in the jungle. Food was **inadequate** and often **rotten**. Clothing was **scarce**. Men usually had no shoes and worked with no shirts. The weather was **humid** and workers had to **cope** with **monsoonal** rains.

Workers had to carry heavy loads and were given little time to rest. They were often beaten. Even sick people were forced to work.

Learning about words

 Read the Resource sheet, 'Railway of death'.

1 The words in the left column are shown in bold on the Resource sheet.

Find each one on the Resource sheet.

Then draw lines to match each word to its meaning in the right column.

- | | |
|-----------------|------------------------|
| • approximately | • built |
| • constructed | • rare, hardly any |
| • captured | • a weather pattern |
| • forced | • moist, damp |
| • inadequate | • about |
| • rotten | • put up with |
| • scarce | • made to do something |
| • humid | • not enough |
| • cope | • bad |
| • monsoonal | • caught |

Hint: When we read, we come across new words. Sometimes you can work out the meaning from reading the whole sentence. Other times you might need to use a dictionary.

An **adjective** is a **describing word**. Adjectives describe nouns.

Here are some examples: *blue, big, horrible, lovely, kind*.

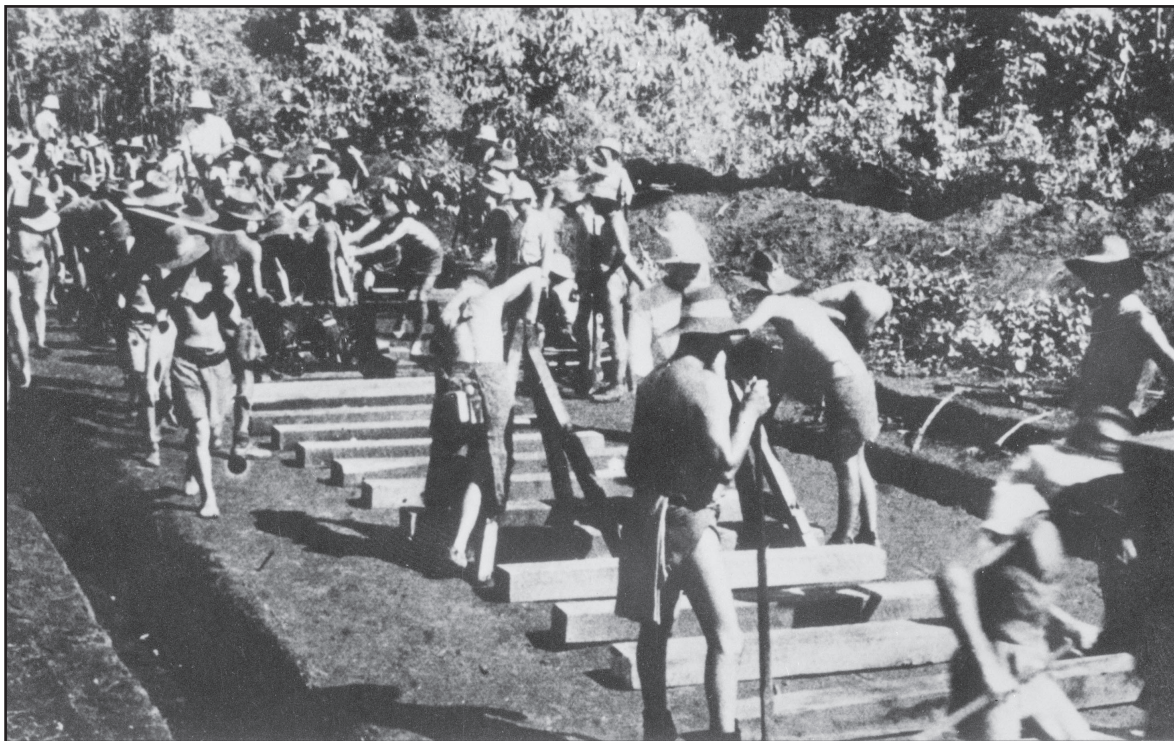

2 In each sentence below there are two adjectives (in *italics*) that describe a noun (underlined). Remember, a noun is a naming word.

Circle the correct adjective in each sentence.

- a) Even *sick / happy* people were forced to work on the Thai–Burma railway.
- b) Workers were made to carry *light / heavy* loads.
- c) *Sunny / humid* weather didn't help the POWs.
- d) Workers had *enough / inadequate* food.
- e) Beriberi, cholera and malaria are *mild / severe* diseases.
- f) The Thai–Burma railway was *tall / long*.

A primary source – Australian POWs

The photo shows Australian prisoners of war (POWs) laying track on the Thai–Burma railway. It was taken c.1943. The c. stands for **circa**, which means *at about that time*. This means no one knows exactly when the photo was taken, but it was about 1943. This photo is a primary source because it was taken at the time the POWs were laying the track.

Thai–Burma railway, c. 1943. Australian prisoners of war (POWs) laying railway track. Courtesy, Australian War Memorial P00406.028

1 What is the first thing you think of when you look at this photo?

2 Can you see any machinery the POWs could use to help them? _____

3 Describe the POWs clothes?

4 The POWs are laying sleepers. Write down two things you notice about the sleepers

5 Are there any women in this photo? _____

Time capsule

A time capsule is a collection of things that is stored away or hidden for people to find in the future. Time capsules help people remember a special time in history.

 Imagine you are an Australian POW, working on the Thai–Burma Railway. You are worried that you and your mates might be forgotten. You want future generations to remember you, so you decide to make a time capsule.

Things you could put in a time capsule

- a diary
- a flower
- a small carving
- a letter
- a medal
- a lock of hair
- something precious
- a photo
- a newspaper

Write a list of things to put in the time capsule. Next to each thing, write a brief reason for including it. An example has been done for you.

Things	Reasons
A note saying who I am	So people will know my name and where I come from

A letter from a prisoner

 Imagine you are a prisoner of war, working on the Thai–Burma railway. Complete this letter to your wife. You could tell her about conditions there, and about the things in Australia you really miss.

Definition: Censorship is the official control of information. For example, with letters, information thought to be dangerous was crossed out.

Dear Emily,

I hope this letter gets to you safely. I know that our letters are censored and that a lot of them aren't even sent. Still, I think it's worth a try. Darling, I miss you so much and want you to know that I'm still alive. I was so happy to receive your letter. Some of the guys here are angry that the Japanese won't let their families write more than 25 words but I don't care. Just hearing from you was great.

Conditions here _____

Love always,

_____ XXX

Objectives

- To learn about Charles Mene
- To learn about Sir Edward Weary Dunlop
- To learn about Nancy Wake
- To study a primary source document

Prior knowledge

Some background knowledge of conditions on the construction of the Thai–Burma railway would be useful.

Background

Nancy Wake, Charles Mene and Sir Edward 'Weary' Dunlop were three Australians who made significant contributions to the war effort.

The rebellious Nancy Wake was a key operator in the French Resistance movement. Wake inspired thousands and often risked her own life to help POWs and wounded Allied air personnel escape from the Nazis.

Mene, an Indigenous soldier from the Torres Strait, served all the way through WWII, and on into the Korean War.

Dunlop, an officer and a surgeon, protected and provided medical assistance to Australian POWs on a daily basis. This assistance was given despite the extremely harsh conditions he, and others, endured.

Starter activity

Brainstorm what it would be like being a doctor in a POW camp. Write students' ideas on the board and ask them to identify the most significant difficulties they think a doctor would encounter. For example, a doctor might have had to amputate a leg and do his or her best to clean wounds with very limited medical supplies.

Resource sheets and Activity sheets

The Resource sheet, 'Nancy Wake', provides information on Wake's life and her role in the French Resistance. It also defines the French Resistance. A primary source in the form of a photo is also provided.

To complete the Activity sheet, 'Recalling information', students will need to refer to the Resource sheet, 'Nancy Wake'. Students will answer questions about Wake and construct a sentence about to explain what *courageous* means.

The Resource sheet, 'Charles Mene', provides background information on Mene's role in WWII and raises the issue of differences in pay for Indigenous and non-Indigenous soldiers. You could work with students to locate the places mentioned on a world map.

The Resource sheet, 'Sir Edward 'Weary' Dunlop', provides background information on Dunlop's role as a POW surgeon, first in Changi and then on the Thai–Burma railway. You could show the students the photo of Australian POWs working on the Thai–Burma railway on the Activity sheet on page 32, and have them discuss what it tells them about the health of the POWs and their work conditions.

To complete the Activity sheet, 'Thinking about Charles Mene and Sir Edward 'Weary' Dunlop', students will need to refer to the two previous Resource sheets. Students will complete a definition exercise and comprehension questions.

Extension ideas

- Students could imagine they are interviewing Nancy Wake, Charles Mene or Sir Edward 'Weary' Dunlop. Have them write five interview questions. Students could then use the Internet to try to find the answers to their questions.
- Students could write a short report about Australia's role in the Middle East Campaign in WWII. The following website would be useful.
www.anzacday.org.au/history/ww2/overview/ww2-03.html

Suggested web addresses were functional at the time of publication but teachers should check them for inappropriate content and to ensure that they are still functional before use with students.

Nancy Wake

Nancy Wake moved from New Zealand to Australia when she was a toddler. She grew up in Sydney and left home at 16. When she was in her early twenties, Nancy left Australia for Paris where she worked as a journalist.

In 1933, Nancy visited Vienna and saw how the Nazi Party treated Jews. Disgusted by this treatment, she decided to do anything she could to help those **persecuted** by Nazis. In 1939, Nancy married Henri Fiocca, a wealthy French man. In that same year, Germany invaded Poland. Nancy joined the **French Resistance**.

1945 studio portrait of Nancy Wake.
Courtesy, Australian War Memorial
P00885.001

What was the French Resistance?

The French Resistance was an **underground** organisation that worked against the Germans after they occupied parts of France. The main aim of the Resistance was to weaken the German army so that Allied forces could win. The Resistance provided intelligence reports to Allied forces and killed German soldiers. They also helped many wounded soldiers and prisoners of war escape.

The Germans tried to catch Nancy. Once she was caught but released before the **Gestapo** discovered her true identity. Nancy fled to England and convinced the British government to train her as a spy. She was dropped back into France and worked with the Resistance in the French mountains. The Gestapo called Nancy 'the white mouse' because they couldn't catch her.

Why is Nancy Wake remembered?

Nancy Wake was a **courageous** woman who helped save over a thousand lives. She delivered weapons and supplies to resistance workers. Once she rode a bicycle hundreds of kilometres in three days to find a radio operator. In 2004, Nancy received Australia's highest civilian honour – the Companion of the Order of Australia. She died in 2011.

Recalling information

 Read the Resource sheet, 'Nancy Wake', and answer the following.

1 What did Nancy Wake think about the Nazi treatment of Jews?

2 In what year did Germany invade Poland? _____

3 Why did the Gestapo call Nancy Wake 'the white mouse'?

4 What was the French Resistance? _____

5 Write down two things the French Resistance did.

--	--

6 What is the highest Australian honour?

7 In what year did Nancy Wake receive this honour? _____

8 In what year did Nancy Wake die? _____

9 Write down two interesting things about the photo on the Resource sheet.
For example, you could write about Nancy Wake's uniform.

10 Write a sentence to explain what **courageous** means.

Remember, a **sentence** starts with a **capital letter** and ends with a **full stop**. It must contain a **subject** (who or what the sentence is about) and a **verb** (a doing word).

Charles Mene

Many Aboriginal and Torres Strait Islanders participated in WWII. Charles Mene was from a pearling family on Mabuiag Island.

Although there was **opposition** to Indigenous Australians joining the Australian militia (Australian Army Forces), Mene managed to **enlist** on 4th September 1939, just one day after Prime Minister Menzies announced that Australia was at war with Germany.

Mene originally served with the Wireless Guard on Thursday Island. Thursday Island became a military headquarters in WWII and served as a base for Australian and American military forces. Mene completed further military training in Ingleburn, near Sydney.

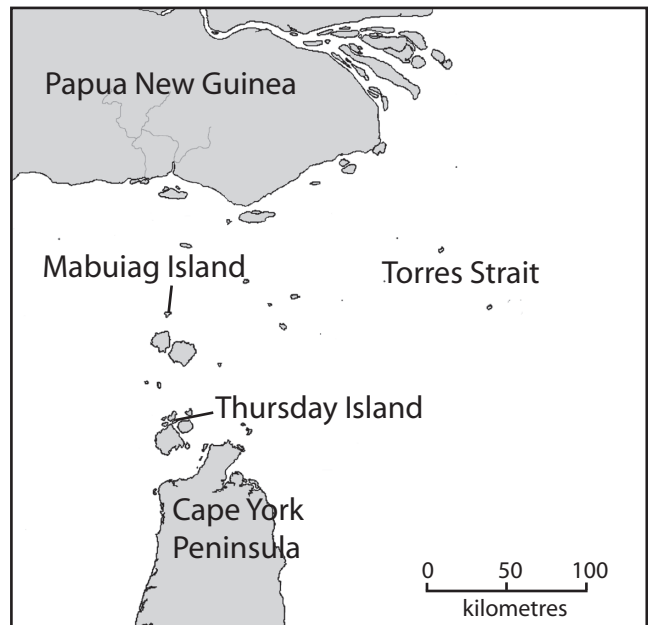

In 1940 Mene was sent to the Middle East and joined the Syrian campaign.

Mene survived fierce fighting as the Allies tried to prevent German forces from gaining control of eastern Mediterranean areas. Mene also fought with Allied forces in Tripoli, where they tried to prevent an Axis invasion of Egypt.

Mene then served in Papua New Guinea. He fought Japanese forces on the Kokoda Trail and survived horrific conditions – 111 men from Mene's unit lost their lives.

After Japan surrendered, Mene joined the Australian contingent of the British Occupation Force of Japan. He later served in the Korean War.

Mene was awarded a military medal for the bravery and leadership he displayed.

Paying Indigenous soldiers

When Charles Mene joined the militia, Indigenous soldiers were not paid the same amount of money as non-Indigenous soldiers. Mene and other Indigenous soldiers still chose to fight for their country. They showed other Australians that their contribution to defending Australia was just as valuable as the contribution of other soldiers.

Sir Edward 'Weary' Dunlop

Sir Edward 'Weary' Dunlop was an Australian surgeon. In 1939 he joined the Australian Army Medical Corps. Dunlop was sent to Israel, Egypt and Greece. He also worked at Tobruk and was then sent to Java, in Indonesia.

In March 1942, the hospital in Indonesia where Dunlop worked was captured by the Japanese. Dunlop was made a prisoner of war (POW). At first he was sent to Changi. Later he was sent to a prison camp in Thailand.

Conditions in the Thai camp were very harsh. The Japanese forced the POWs to work on the Thai–Burma railway. The prisoners were weak and didn't have the right tools to build a railway.

What did Sir Edward 'Weary' Dunlop do?

- Dunlop constantly protected other prisoners.
- Prisoners often suffered from diseases such as malaria and beriberi. Dunlop did his best to keep sick prisoners alive, but he had limited medical supplies.
- Dunlop operated on wounded prisoners. Often, the only light he had was from kerosene lamps.
- As an army medical officer, Dunlop decided which prisoners were fit enough to work.

Why is Sir Edward 'Weary' Dunlop remembered?

Dunlop is remembered because he was a respected officer, and a talented surgeon who showed great courage. An example of Dunlop's courage was his saving of the life of another POW called Bill Griffiths. The Japanese were going to kill Griffiths but Dunlop stood in front of the Japanese bayonets and refused to move until the Japanese promised not to kill him.

Dunlop was knighted in 1969. Over ten thousand people attended his state funeral in 1993.

Weary?

Sir Edward always worked extremely hard. The nickname 'Weary' comes from a play on words. 'Dunlop', Sir Edward's surname, is also a brand of car tyres.

'Tyre' sounds like 'tire', meaning 'needing to rest'. Weary also means tired, or needing to rest.

This is an example of traditional Australian humour.

Thinking about Charles Mene and Sir Edward ‘Weary’ Dunlop

 Read the Resource sheets, ‘Charles Mene’ and ‘Sir Edward ‘Weary’ Dunlop’:

- 1 Find each word in the left column on the Resource sheets and highlight it. Then draw lines to match each word to its meaning in the right column.

- | | |
|----------------|---|
| • participated | • skilful |
| • opposition | • brutal, violent |
| • bayonets | • being against something, opposed to something |
| • fierce | • joined in |
| • horrific | • restricted |
| • contingent | • thought highly of |
| • limited | • group |
| • respected | • a stabbing blade |
| • talented | • terrible |

- 2 Which Torres Strait island was Charles Mene from? _____
- 3 When did Charles Mene enlist in the Australian militia for WWII? _____
- 4 Write down two places that Charles Mene was sent during WWII.

- 5 Write down two reasons why Sir Edward ‘Weary’ Dunlop is remembered.

- 6 Write a sentence about Charles Mene.

- 7 Write a sentence about Sir Edward ‘Weary’ Dunlop.

Objectives

- To learn about the bombings of Hiroshima and Nagasaki
- To become familiar with the story of Sadako Sasaki
- To develop letter-writing skills

Prior knowledge

Some background knowledge of the war in the Pacific would be helpful but is not essential.

Background

On 6th August, 1945, the United States dropped a nuclear bomb on Hiroshima in order to end WWII in the East. However, Japan did not surrender. The US dropped a second bomb on the city of Nagasaki on 9th August. This resulted in Emperor Hirohito announcing Japan's surrender.

Starter activity

Ask students what they think *nuclear warfare* is. Write their ideas on the board. Then provide students with the following definition:

Nuclear warfare is when nuclear weapons are used in a war to inflict devastating damage on enemy nations.

Point out to students that nuclear warfare has devastating consequences compared to traditional warfare. Use this idea to explore the meaning of the word 'devastate'.

Resource sheets and Activity sheets

The Resource sheet, 'Bombing of Hiroshima and Nagasaki', provides students with information about the reasons for and the effects of the two atomic bombs. A primary source photo of a Japanese boy is also provided. You could discuss with the students whether or not they think the US should have used nuclear bombs on Japan.

To complete the Activity sheet, 'Remembering information', students will need to refer to the Resource sheet, 'Bombing of Hiroshima and Nagasaki'. Students will complete comprehension questions and a definitions exercise and identify statements as true or false. To extend the activity, you could have students think about the young boy in the photo, and write a piece from the boy's point of view, describing the

bombing of Nagasaki and what it was like to grow up in Nagasaki in the years after the bombing.

The Resource sheet, 'A special story – Sadako Sasaki', presents a case study of a young Japanese girl who survived the initial bombing of Hiroshima, but developed and died from leukaemia due to radiation poisoning from the bomb.

To complete the Activity sheet, 'Writing a letter', students will need to refer to the Resource sheet, 'A special story – Sadako Sasaki'. Students will write a letter to Sadako Sasaki, using the supplied word bank to help.

The Activity sheet, 'Apostrophes', provides some basic apostrophe rules for ownership and contractions, and related apostrophe exercises.

Extension ideas

- Explain to students that civilians are killed in wars, as well as soldiers. Divide students into pairs and ask them to think of arguments as to why or why not this is fair.
- Have students use the Internet to find a pattern for an origami crane. An Internet search will provide a variety of options, or go to:
www.monkey.org/~aidan/origami/crane/
Encourage students to make the crane and experiment with other origami patterns.
- Students could explore the website of the Hiroshima Peace Memorial Museum, which provides further information about Sadako Sasaki, the effects of radiation and the peace declaration. Use the website below, or type 'Hiroshima Peace Memorial' into an Internet search.
www.pcf.city.hiroshima.jp/index_e2.html
You could have students work in small groups to prepare a report about the museum and why it is important.

Suggested web addresses were functional at the time of publication but teachers should check them for inappropriate content and to ensure that they are still functional before use with students.

Bombing of Hiroshima and Nagasaki

Hiroshima

On 6th August 1945, the United States dropped a nuclear bomb on the Japanese city of Hiroshima. This bomb, called 'little boy', was made from uranium. The US thought it would make Japan surrender and end the war in the East.

What did the 'little boy' bomb do?

- Caused many fires – from the intense heat and winds from the blast
- Destroyed two thirds of Hiroshima – nearly every building within thirteen square kilometres
- Killed approximately 70 000 people, and thousands more people died later from the effects of radiation

Japan refused to surrender so the US decided to bomb another Japanese city.

Nagasaki

The US wanted to bomb Kokura, but bad weather led to a change of plans. The 'fat man', a plutonium bomb, was dropped on Nagasaki on 9th August 1945. Nagasaki was a Japanese shipbuilding city and an important military port. It had already been bombed five times.

What did the 'fat man' bomb do?

This bomb also caused much destruction, although the waterways and hills protected some of the city. Many people died and others suffered horrific burns. Many also died later from the effects of radiation, which cause cancer, blood disorders, infertility and genetic disorders.

Emperor Hirohito announced Japan's surrender on 15th August, 1945.

c. 1945. A boy in Nagasaki. The effects of the atomic bomb blast show on his face. Courtesy, Australian War Memorial 045224

Remembering information

 Read the Resource sheet, 'Bombing of Hiroshima and Nagasaki'.

1 Name the two Japanese cities that were bombed.

2 On which city did the US want to drop 'fat man'? _____

3 Write each term beside the correct definition:
complete, destruction, extensive, occurs, terrible.

a) widespread _____

b) really bad _____

c) takes place _____

d) entire or finished _____

e) something that is destroyed or ruined _____

4 Write **true** or **false** for each statement in the table below.

Statement	True or false?
The US dropped a bomb on Hiroshima on 6 th August 1945.	
The bomb dropped on Hiroshima was called 'little boy'.	
Japan surrendered when 'little boy' was dropped on Hiroshima.	
Nagasaki was a shipbuilding city and an important military port.	
The US dropped a bomb on Nagasaki on 14 th August 1945.	
Many Japanese people died from the effects of radiation from 'little boy' and 'fat man'.	
Emperor Hirohito announced Japan's surrender on the 15 th August, 1945.	

5 Look at the photo on the Resource sheet. What do you think caused the injuries to the boy's face?

A special story – Sadako Sasaki

This is a special story about a young Japanese girl, Sadako Sasaki, and an origami crane.

- A **crane** is a bird.
- **Origami** is the Japanese art of folding paper into shapes.

Sadako Sasaki was two years old when the nuclear bomb was dropped on Hiroshima in 1945. Sadako survived the bombing but in 1954, she developed lumps on her neck and behind her ears. Doctors discovered Sadako had leukaemia, a kind of cancer. This cancer was a result of radiation poisoning from the bomb.

When she was in hospital, Sadako heard a Japanese legend which claimed that anyone who made a thousand paper cranes would be granted a wish.

In one version of the story, Sadako made 644 cranes before she died. Her friends and family made another 356 cranes so that Sadako's wish for peace all over the world might come true one day.

In another version of the story, Sadako finished her 1 000 cranes before she died.

Sadako died in 1955. She was only 12 years old. Sadako's wish inspired people to raise money to build a peace memorial, called the Hiroshima Peace Memorial. The memorial was completed in 1958. It has a statue of Sadako holding a golden crane. These words are written on the statue:

*This is our cry
This is our prayer
Peace in the world*

Now, in memory of Sadako, people all over the world make paper cranes to try to bring peace to the world.

Writing a letter

Read the Resource sheet, 'A special story – Sadako Sasaki'.

Imagine it is 1955. You know Sadako Sasaki is in hospital and is trying to make her thousand cranes. Think about what you would like to say to Sadako.

Now write a letter to her. You can use the word bank to help.

Dear Sadako,

Word bank

think

brave

remember

sad

family

hope

feel

help

cranes

Apostrophes

An **apostrophe** looks like this: '

An apostrophe is a **punctuation mark** that can be used to show **ownership** – that is, that something belongs to a person or thing. For example:

- the bomb's blast – the blast belongs to the bomb
- America's bomb – the bomb belongs to America
- Sadako's wish – the wish belongs to Sadako

 **1** Put in the missing apostrophe in each sentence.

- In WWII, soldiers letters were very important for their families.
- Sadako Sakasis wish was for worldwide peace.
- Many of Hiroshimas buildings were destroyed by 'little boy'.
- Nuclear warfares destruction is severe.

Apostrophes are also used in **contractions** to show that words have been joined. For example:

- don't (do not)
- I'd (I had)
- won't (will not)
- you're (you are)

2 Circle the contractions. Then complete the words that make up each contraction.

- Japan didn't surrender after Hiroshima was bombed. (did ____)
- Sadako decided she'd make 1000 cranes. (____ would)
- I'll visit the peace memorial. (____ will)

There is an exception to the apostrophe rule – it's and its.

- **It's** stands for 'it is'. For example: It's a tragedy *or* it's raining *or* it's Tuesday.
- **Its** shows ownership. For example: The cat drank its milk *or* Its destruction was terrible.

3 Write two sentences about WWII that contain apostrophes.

Try to include contractions and apostrophes showing ownership.

Objectives

- To learn about D Day
- To develop report writing skills
- To develop creative writing skills
- To learn about the surrender of Japan
- To learn about VP Day
- To study a primary source document

Prior knowledge

Students require some background knowledge of the progress of WWII for this unit.

Background

D Day stands for Deliverance Day. D Day occurred on 6th June, 1944. This day was a turning point for Allied forces who, after four years of planning, successfully invaded the shores of Normandy. This invasion enabled Allied forces to later attack Germany from the east.

On 15th August, 1945, Emperor Hirohito accepted defeat and announced that Japan would surrender. This day became known as VP (Victory in the Pacific) Day.

Starter activity

Tell students that there are some days that change the course of history. Have the students write about a day that they think has changed their lives, and consider how their lives might have been different if this day had been different. Ask them to share this information with the class, if it's not too personal.

Resource sheets and Activity sheets

The Resource sheet, 'D Day', outlines the planning needed for this day to occur, and what happened on the day. It also points out the historical significance of D Day.

To complete the Activity sheet, 'Writing a report', students will need to refer to the Resource sheet, 'D Day'. Students will write a simple report about D Day, covering a list of key points that are provided. Before students begin, discuss the difference between fact and opinion, and make sure students have a clear understanding of this difference. Students may also like to use the Internet or library to conduct further research for their reports.

The Resource sheet, 'Japan surrenders', outlines factors that contributed to Japan's weakening position in the war, and eventual surrender.

To complete the Activity sheet, 'Definitions and comprehension', students will need to refer to the Resource sheet, 'Japan surrenders'. Students will unjumble words, match terms to definitions and answer comprehension questions. Answers to question 1: a) announced, b) limited, c) nuclear, d) surrender, e) forced, f) civilians.

The Activity sheet, 'VP Day', asks students to respond to a photo of VP Day celebrations in Bourke Street, Melbourne.

Extension ideas

- Have students write a creative response to one of the following situations:
 - Imagining they are a young soldier landing at Normandy on 6th June, 1944. Useful words: excited, scared, thousands, aircraft, battle, fast, comrade, beach, Allies, Germans.
 - Imagining they are in Melbourne on 15th August, 1945, and have just heard the news about Japan's surrender. Useful words: excited, joy, thousands, celebrate, dance, hope, future.

D Day

D Day took place on 6th June, 1944, in Normandy, France.

What does D Day stand for?

D Day stands for **Deliverance Day**, and is also known as the invasion of Normandy. The campaign behind D Day was called 'Operation Overlord'. It took over four years of careful planning. US General Dwight Eisenhower was the supreme Allied commander of this operation.

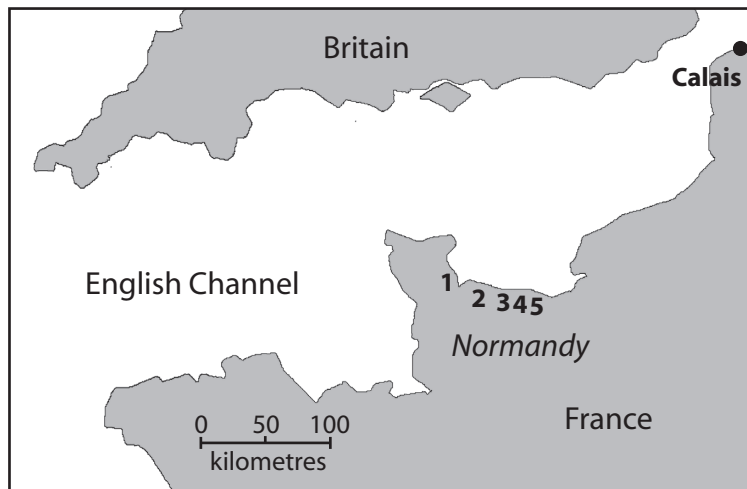

What happened on D Day?

- On D Day, over 160 000 Allied troops stormed the beaches of Normandy.
- Thousands of ships and aircraft were used.
- US forces landed first, and were soon followed by other Allied troops.
- There was intense fighting between the Allies and Germans.
- The Allies defeated German forces.

False radio messages

The Allies had tricked the Germans into thinking they were going to land at Calais, which was 400 km away from their actual landing area. The British created false radio messages and even built fake army camps to make this trick work. The British called this false information Operation Fortitude. Operation Fortitude worked so well that Rommel, the commander of German forces in France, had returned to Germany to celebrate his wife's birthday.

Beaches of Normandy – landing places on D Day

1. Utah Beach, 2. Omaha Beach, 3. Gold Beach, 4. Juno Beach, 5. Sword Beach

What is the significance of D Day?

D day was one of the most important days of WWII because it marks the beginning of the end of Nazi control of Europe. Once Allied forces were in Normandy, they installed a pipeline that carried 172 million gallons of fuel across the English Channel, from the UK to France. This was called Operation Pluto. Pluto stands for 'pipe line under the ocean'. This pipeline provided the fuel for Allied forces to free France and invade Germany from the west.

Writing a report – D Day

A **report** is an account of something that has happened. A report should be **objective**. This means presenting **facts** and not giving your opinion.

Read the Resource sheet, 'D Day'.

In your own words, write a report about what happened on D Day.

Include:

- what D Day stands for
- the date and location of D Day
- who stormed the beaches at Normandy
- why D day is significant (important).

If you want to write a fantastic report, do some extra research about D Day on the Internet or in the library. You could develop your report into a PowerPoint presentation or web page.

My D Day report

[illegible]

Japan surrenders

Japanese soldiers believed they should fight for their Emperor and country until they died, rather than surrender. Japanese pilots would commit suicide by flying aircraft carrying explosive missiles and crashing them into Allied ships. This was called *kamikaze*.

What changed?

Japanese resources were running dangerously low. Japan no longer had oil supplies and only had limited supplies of steel and rubber. Many Japanese people were also suffering from starvation.

Japan was losing battles in the Pacific. The island of Iwo Jima, approximately 1200 kilometres south of Tokyo, was captured by the Allies in February 1945. The island of Okinawa was captured in June 1945.

The bombing of Hiroshima and Nagasaki

The US dropped two nuclear bombs on Japan. The first one was dropped at Hiroshima on 6th August, 1945. Japan would not surrender until after the second bomb was dropped on the city of Nagasaki. Thousands of civilians died from these bombings.

Soviet–Japanese conflict of 1945

On 9th August, 1945, Soviet forces invaded Manchuria and defeated Japan's Kwantung Army. Some historians argue that this is what forced the Japanese to surrender.

Surrender

Emperor Hirohito announced Japan's surrender on 15th August, 1945. On 2nd September, 1945, Japan signed formal surrender documents. This signing took place aboard the *Missouri*, a US battleship. The Japanese surrender officially ended WWII.

Definitions and comprehension

 Read the Resource sheet, 'Japan surrenders'.

1 Unjumble these words from the Resource sheet. The first letter is underlined.

a) edannncou _____ b) miledit _____

c) aenlurc _____ d) dersrenur _____

e) fedorc _____ f) nailscivi _____

2 Find the words in the left column on the Resource sheet and highlight them. Then draw lines to match the words to their meanings in the right column. You can use a dictionary to help you.

- | | |
|---------------|----------------------------|
| • rather than | • tell something |
| • limited | • instead of |
| • surrender | • stop fighting, give into |
| • announced | • not much |

3 Who and what did Japanese soldiers believe they should fight for until they died?

4 What does **kamikaze** refer to? _____

5 What happened on 9th August 1945?

6 How many nuclear bombs were dropped on Japan? _____

7 What two Japanese cities were these bombs dropped on?

8 On what date did Emperor Hirohito announce Japan's surrender? _____

VP Day

VP Day was on 15th August, 1945. VP Day stands for **Victory in the Pacific Day**. It is also called VJ Day, or Victory over Japan Day. VP Day **commemorates** Japan's surrender to Allied nations. Commemorates means celebrating and remembering something.

This photo was taken on 15th August, 1945, in Bourke Street, Melbourne, shortly after news of the Japanese surrender.

VP Day, 15-08-1945,
Melbourne, Victoria.

War Memorial 112839

1 What is the first thing you think when you look at this photo?

2 Why are some people dancing?

3 How is the clothing different to the clothes people wear today?

4 Write three sentences describing the photo.

Teacher's notes

– Some consequences of World War II

Achieve!

Objectives

- To learn about some of the consequences of WWII for Australia
- To learn about the development of weaponry post WWII
- To research, prepare and present a speech

Prior knowledge

Students need to have some understanding of the course of WWII and the devastation it caused.

Background

WWII caused global political, social and economic upheaval. Industrial and agricultural production had been damaged by bombing, resulting in high unemployment levels. However, some new industries were established. In Europe there was widespread homelessness and thousands of people were displaced. Many emigrated to places like Canada and Australia.

During the war, the need for resources and production resulted in the growth of Australia's steel and iron industries. The influx of migrants provided a workforce for this production to continue.

Seeking protection from further conflict, Australia forged a strong allegiance with the United States.

Starter activity

Brainstorm the meaning of the word *consequence* with the students. Then provide them with the following definition:

A consequence is the result of, or the effect of something.

Ask students to suggest everyday things that have consequences; for example, not doing homework, forgetting lunch money.

Explain that WWII had many consequences. Encourage students to suggest what these consequences could be.

Activity sheets

The Activity sheet, 'Consequences for Australia', outlines the major industrial, political and social consequences Australia experienced as a result of WWII. Students will consider statements about the information provided, and identify them as true or false.

The Activity sheet, 'ANZUS Treaty', explores the changing relationship between the United States and Australia. Read the sheet with the students, and make sure they understand the meaning of each term shown in bold. Students will complete comprehension questions about the information.

The Activity sheet, 'Social changes', provides information about the changes experienced by women post WWII and the influence of migrants on Australian society. Students will fill in the missing vowels to complete this information.

The Activity sheet, 'A migrant's experience', asks students to respond to a teenage migrant's first person account of life in Australia after the war.

The Activity sheet, 'Development of weapons', provides a definitions exercise and a related cloze exercise. The subject of nuclear weapons and their role in the Cold War is introduced.

Extension ideas

- Ask students to prepare a short speech on one of these topics:
 - how Australian industry grew after WWII
 - how migrants helped develop Australia
 - the ANZUS treaty
 - how Australian society changed as a result of WWII.

Have students consider the following when preparing their speeches:

- the topic
- who is the audience?
- the time limit of the speech.
- what information the speech will have (the content).
- making eye contact with the audience
- voice projection (speaking clearly and loud enough to be heard)
- varying the tone of voice
- an interesting start
- a strong conclusion

As part of their preparation, students could use the following website to listen to famous speeches: primeministers.naa.gov.au/galleries/audio

Suggested web addresses were functional at the time of publication but teachers should check them for inappropriate content and to ensure that they are still functional before use with students.

Consequences for Australia

In Australia during the war, many goods were in short supply. These included petroleum, metals and rubber. Due to these shortages, Australia began to produce its own goods. Iron, steel and ship-building industries grew rapidly because machinery, aeroplanes and ammunition were needed for the war.

After WWII, Australia still had a labour shortage and immigration was encouraged to provide enough workers. In 1945, the population of Australia was close to 7.5 million. It grew to over 8.3 million by 1950, boosted by over 160,000 displaced persons making Australia their home. Many were Europeans who had lost their families and homes during the war. The increased population led to an increased demand for goods and services. Many new jobs were created.

The Snowy Mountains Scheme

The Snowy Mountains Scheme began in 1949 and is an example of a post WWII industry with a large migrant workforce. Over 100 000 people worked on this scheme and two thirds of these workers were migrants. This scheme was a hydroelectricity and irrigation complex. Its purpose was to move water from the Snowy River to the Murrumbidgee and Murray Rivers, and to produce electricity for the south-eastern areas of Australia. It had sixteen dams, seven power stations, a pumping station, and approximately 225 kilometres of tunnels and pipelines.

 Write **true** or **false** for each statement in the table below.

Statement	True or false?
During WWII there was a shortage of goods in Australia.	
Australia did not produce its own goods during WWII.	
Australian industry grew as a consequence of WWII.	
Australia did not have a labour shortage after WWII.	
Australia's population decreased after WWII.	
After WWII, many Europeans emigrated to Australia.	
The Snowy Mountains Scheme was commenced in 1949.	
One third of the Snowy Mountains Scheme's workers were migrants.	

ANZUS Treaty

A major **political** consequence of WWII was Australia's closer relationship with the United States. Australia and New Zealand realised how close Japan had come to invading Australia and wanted protection from the US in case another war broke out. The Australian government also feared the rise of **communism** in some South East Asian countries. WWII made Australia realise how **isolated** it was in the Pacific region.

Australia signed the ANZUS (Australia – New Zealand – United States) Treaty with New Zealand and the United States in 1951. This treaty meant that if any of these three countries were attacked in the Pacific, they would meet to work out a defence plan. It does not force any of the countries to defend the others. In 1985, New Zealand questioned some of the nuclear activities of the United States, but has not formally pulled out of the treaty.

The ANZUS Treaty is **significant** because it shows that Australia looks to the US for protection now, not to Britain as it did in the past.

Complete the following sentences.

- 1 An important political result of WWII was that Australia _____

- 2 Australia and New Zealand knew how close Japan had come _____

- 3 The Australian government also _____

- 4 ANZUS stands for _____

- 5 The ANZUS Treaty was signed _____
- 6 A main term of the ANZUS Treaty was that _____

- 7 The ANZUS Treaty is important because it _____

Social changes

 1 Fill in the missing vowels (a, e, i, o, u) to complete the information below.

Women

The r__les of Australian w__men changed a great deal during WWII. To h__lp with labo__r shortages, many women left their traditional role of f__ll-time ho__sekeep__r to work outside the home. Immediately after the w__r, women were not expected to keep their j__bs – they were replaced by m__n returning fr__m the war. However, women had shown they could w__rk outside the household in jobs that traditionally, only men d__d. It was just a matter of time bef__re women returned to the pa__d workforce. Even when they did the same job, women w__re not paid as much as men d__ring WWII, or __n the 1950s and 1960s. However, this started to ch__ng__ in the 1970s. In the late 1960s and 1970s, m__re women w__nt to univers__ty. Some women f__ught to get the s__me pay as men.

Migrants

The Australian g__vernment developed an immigrati__n program to h__lp families who had l__st their homes during WWII to come t__ Australia. Th__s immigration created cultur__l changes. For example:

- N__w foods were introduced, like the Italians' p__stas and pizz__s. Eventually these foods became alternatives to the traditional Australian meal of me__t with three veget__bles.
- Diff__rent sports, like s__cc__r, became p__pular.
- Differ__nt types of m__sic were introduced, including r__ck'n'roll in th__ 1950s.

Many m__grants worked in fact__ries and helped boost Australia's economy. Migrants also helped to broaden the average Australian's outlook on life.

2 Why did the roles of women change during WWII?

3 When did more Australian women start going to universities? _____

4 What were two cultural changes that resulted from immigration to Australia?

A migrant's experience

During the post WWII period, 1949–60, about 1.5 million migrants came to Australia. This increased population led to an increased demand for goods and services and many new jobs were created. Migrants helped fill the workforce and Australian industry grew.

 Answer these questions about Jacob's story.

1 Why couldn't Jacob and his family stay in Germany?

2 Write one thing Jacob finds different about Australia.

3 Why doesn't Jacob like school?

4 Where does Jacob want to get a job?

5 What does Jacob think is important now?

I came to Australia with my mum and sister, Anna, in 1946. I'm Jewish. Before the war we lived in Germany. Just before the war started, Dad managed to get Mum, Anna and me to Switzerland. Dad said he'd join us but he never made it. When the war was over, Mum said she couldn't live in Germany anymore. Our home was destroyed and many of our relatives were missing. So here we are in our new home – Australia.

I like Australia. It's a good country but it's very different. I'm glad mum still cooks Jewish food, especially her Challah bread for the Sabbath. Her dinners are much better than what Australians have for dinner – a couple of chops or sausages, a few vegetables and something called mashed potato. We haven't much money because we use nearly all of it to pay rent. Mum wants me to finish school but I think I should get a job. I don't like school much. Some of the kids call me weird names. I want to work at the steel works in Wollongong. But I guess what's important for now is that we're safe.

Development of weapons

1 Draw lines to match each word in the left column to its meaning in the right column.

- | | |
|---------------|---|
| • developed | • very powerful nations |
| • suspicious | • explosive devices |
| • continued | • formed, made |
| • constant | • not trusting someone or something |
| • superpowers | • suggestion that you will hurt or harm someone |
| • bombs | • kept on happening |
| • occurred | • always there |
| • threat | • took place |

2 Use the words in the left column in question 1 to complete the information below.

Development of weapons

New weapons were _____ during WWII. Rifles, machine guns and pistols were all improved. The most significant weapon developed was the nuclear bomb.

Nuclear weapons _____ to be made after WWII. The Soviet Union obtained uranium and made its own nuclear weapons. Both the Soviet Union and the United States made hydrogen bombs. In the 1950s, both _____ developed nuclear _____.

Cold War

After WWII ended, a Cold War situation developed between the Soviet Union and the United States. At first, the Soviet Union, France, Great Britain and the United States were each going to control a section of Germany but this plan didn't work. The communist Soviet Union and the non- communist United States became _____ of each other. Both continued making nuclear weapons to warn each other of what would happen if an attack _____. This situation is called a Cold War because neither the Soviet Union nor the United States actually attacked each other. Instead, their build up of nuclear weapons was a _____.

Objectives

- To learn what Anzac stands for
- To understand the concept of commemoration
- To discover how the Anzac spirit lives on

Prior knowledge

Students need no prior knowledge for this unit.

Background

Anzac Day originally commemorated the Australian and New Zealand army corps' battle at Gallipoli in WWI. Now Anzac Day is a time to pay respect to all Australian servicemen and servicewomen involved in wars. The spirit of Anzac Day is a concept that encompasses courage, determination and mateship.

Starter activity

Ask students if they know what a *commemoration* is. It may be helpful to point out the similarity to the word *memory*. Provide students with the following definition:

A commemoration is a public ceremony which remembers and celebrates what people have done.

Resource sheets and Activity sheets

The Resource sheet, 'About Anzac Day', provides background information on what Anzac stands for, why we remember Anzac Day and the spirit of Anzac Day.

To complete the Activity sheet, 'Remembering the history of ANZACs', students will need to refer to the Resource sheet, 'About Anzac Day'. Students will complete a definition exercise, answer comprehension questions and construct a sentence about Anzac Day. Answers to question 2: a) remember, b) bravery, c) spirit, d) marches, e) people, f) served.

The Resource sheet, 'Glorification or commemoration?', provides two different teenagers' perspectives on Anzac Day. Note that definitions of commemoration and glorification are provided on the following Activity sheet. You could share these definitions with the students before they read the Resource sheet.

To complete the Activity sheet, 'Different opinions', students will need to refer to the Resource sheet, 'Glorification or commemoration?'. Students will answer questions about the teenagers' perspectives, and then give their own opinion.

The Activity sheet, 'Anzac Day symbols', defines the word symbol. Students will complete a cloze exercise about symbols relevant to Anzac Day.

Extension ideas

- Ask students to write five questions they can use to interview people about what they do on Anzac Day. Students could conduct the interviews with people of varying ages, and prepare a report outlining what they found out.

About Anzac Day

What does Anzac stand for?

ANZAC stands for the Australian and New Zealand Army Corps. During WWI, on 25th April, 1915, Australian and New Zealand troops landed at Gallipoli, in Turkey. The Anzacs dug trenches and fought Turkish troops for months. Many of the Anzacs were very young. Even though the Anzacs were defeated by Turkish forces, they will always be remembered.

Who do we remember on Anzac Day?

Even though the original Anzacs fought in WWI, on Anzac Day we remember all the brave men and women who have served in wars and peacekeeping operations for Australia. We remember people who fought in WWI, WWII, The Korean War, the Vietnam War, the War in Iraq and the war in Afghanistan.

Anzac Day is held each year on the 25th April.

How do we remember Anzac Day?

The main way people remember Anzac Day is by going to, or watching an Anzac Day march. Major Australian cities and many towns hold these marches. Anzac Day is a public holiday. This reminds people that it is a very special day.

People lay flowers and wreaths at the base of war memorials to show that they respect and remember the men and women who served in the armed forces.

What is the Anzac spirit?

The Anzac spirit is the idea that the bravery and determination of the Australian and New Zealand soldiers lives on. The courage of the Anzacs will not be forgotten and people can try to be like them. The Anzac spirit is remembered in the Anzac Day motto: *Lest we forget*. The word **lest** in this motto means **so we won't**.

Remembering the history of Anzacs

 Read the Resource sheet, 'About Anzac Day'.

1 Write each term beside the correct definition;
base, bravery, defeated, determination, original.

- a) courage _____
- b) beaten _____
- c) not giving up _____
- d) bottom _____
- e) first _____

2 Write the missing letters in these words from the Resource sheet.

- a) rem_mb_r c) sp_r_t e) pe_p_e
- b) b__ve_y d) m_r__es f) s_rv_d

3 What does ANZAC stand for? _____

4 When did the Anzacs land at Gallipoli? _____

5 Who do we remember on Anzac Day? _____

6 Write a sentence about what people do to remember Anzac Day.

You can use the word bank to help.

Word bank

base	memorials
flowers	remember
wreaths	marches

Glorification or commemoration?

Hi, I'm Mitch. I don't get this whole Anzac Day thing. Sure I like the public holiday but why are we glorifying war? We watch all these soldiers and their relatives march. If you ask me, we shouldn't be remembering any wars. Think of all the innocent people who lost their lives. Think of all those young guys who were wounded for life. Think of all the places that were bombed. I reckon people are way too happy on Anzac Day. Heaps of them get drunk and some of them play that stupid two-up game. On the one hand, kids are told gambling is wrong, but it seems no one cares about it on Anzac Day. I think the whole Anzac Day thing is a myth.

Hi, I'm Libby. I attended the Dawn Service with my family this morning. Usually I hate getting up really early but for one special day of the year – Anzac Day – I don't mind. After all, it's a national day of commemoration when all Australians can remember the people who've fought for our country. Some of my friends think Anzac Day is a waste of time but they've forgotten that the courage of the Anzacs lives on today. It's true that some veterans get drunk on Anzac Day but that's probably because they're trying to forget some of the horrors of war. I know some of the veterans play that game, two-up, where they toss coins into the air. I don't like gambling but I think that since soldiers played two-up in WWII, it's ok for them to play it on Anzac Day. Even though I hate wars, Anzac Day is very special for me. I think everyone should respect those who've sacrificed so much for their country. The Anzac spirit should never be forgotten.

Different opinions

Read the Resource sheet, 'Glorification or Commemoration':

Commemoration is the remembrance of an event, person or people through a special ceremony.

Glorification is when an event, thing, person or people are made to look wonderful.

1 What is the one thing that Mitch likes about Anzac Day?

2 Write down three reasons why Mitch thinks we shouldn't remember wars.

3 What does Mitch think 'the whole Anzac Day thing' is?

4 Why does Libby think Anzac Day is important?

5 What is the name of the game that is played on Anzac Day? _____

6 Who does Libby think everyone should respect?

7 Mitch and Libby have very different views about Anzac Day.

Whose view do you agree with? Give at least two reasons for your answer.

Anzac Day symbols

A **symbol** is a representation (sign) of something. If you love someone, you might give them a red rose as a sign of your love. There are many symbols that help us remember the men and women who fought for Australia. These symbols are used in Anzac day Marches.

 **1** Write each word beside the correct definition:

bloodshed, bugle, rosemary, sacrifice, sprig, stirrups.

	The giving up of something valuable or special to help a cause
	Refers to people being killed in war
	The metal or leather footrests that horse riders put their feet through
	A brass musical instrument that looks like a small horn
	A herb
	A small branch of a plant

2 Use these words to complete the information below: **are, in, for, of, is.**

- Many symbols _____ used in Anzac Day Marches. These symbols remind us _____ those who made great sacrifices in times _____ war _____ Australia and New Zealand.
- The Anzac March _____ a symbol of a military funeral. On Anzac Day, a lot of people wear a sprig _____ rosemary because rosemary _____ a symbol of remembrance. Rosemary also grows on the Gallipoli peninsula.
- Some people wear a red poppy because it _____ a symbol of sacrifice and bloodshed.
- Two other symbols you can see on Anzac Day _____ the Rising Sun badge and the lone charger. The Rising Sun badge represents the Australian Army. The lone charger _____ a horse without a rider. The horse has a pair of reversed boots _____ its stirrups to remind people _____ soldiers who have lost their lives.
- The Last Post _____ another symbol used on Anzac Day. It is a bugle call that _____ used to remember those who have lost their lives _____ war. Originally, the Last Post was used to signal the end of the day but now it _____ used to show that dead servicemen and servicewomen can rest _____ peace.

Achieve! Instant Lessons

Quality ready-to-use resources

Each book in the *Achieve!* series has been designed and written for **secondary students who have low-level literacy skills** and require **modified** classroom activities to fully participate in the curriculum. Students will **experience success** as they work alongside their classmates on the same subjects with material that is tailored for their literacy needs.

Key features

- ✓ Mature-look page layout and illustrations
- ✓ Topics that will interest teenagers
- ✓ An emphasis on literacy skills
- ✓ Clear learning objectives
- ✓ Starter activities, background topic information and ideas for summarising a lesson

The work sheets in this series are ideal for group or individual study and are easy for classroom helpers to implement in one-on-one lessons. You can also use the photocopiable pages for revision, assessment and home study.

Achieve! History World War II – Book 2

While very suitable for the regular classroom, each of the *Achieve!* History titles has been written at a literacy level that makes the pages appropriate for secondary school students who, because of poor reading skills, may struggle to comprehend regular classroom materials.

This title looks at the experiences of Australians in the war, explores main events and studies some of the post-war impact. Concepts include mateship, wartime intelligence and the ANZUS treaty. Historical and literacy skills are developed through interpreting photographs and secondary sources, locating and categorising information and studying the impacts of the wartime experience.

The CD-ROM contains all the pages that are featured in the book, as well as a file of illustrations that can be used for other work sheets. These documents can be easily edited to suit the needs of your students.

Topics include

Attack on Pearl Harbour
The Kokoda Trail
Survival on the battlefields
Australian prisoners of war
The Thai–Burma railway

Three significant Australians
Nuclear bombs
Allied victory
Some consequences of World War II
The Anzac spirit

Associated titles in the *Achieve!* Instant Lessons series

- *Achieve!* History series
 - World War II – Book 1
 - The ancient to the modern world
 - The Vikings 1
 - The ancient to the modern world
 - Medieval Europe 1
 - The ancient world – Egypt 1
 - The ancient world – Greece 1
 - The ancient world – Rome 1
