

Frequency Table

Fun Activity

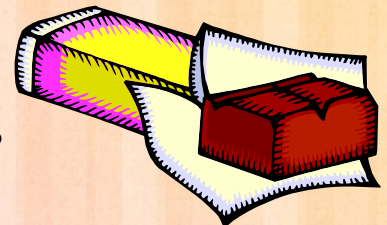

*Poll your class, create
a frequency table,
and interpret it!*

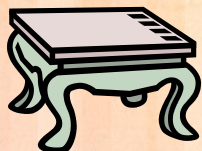

Are you FREQUENTLY correct?

Answer these questions to see if you are FREQUENTLY correct. We'll use the data to create a frequency table.

1. In what year did Spongebob Squarepants make his television debut?
2. Which letter represents five in roman numerals?
3. What does PC stand for?
4. What was Cinderella's coach made from?
5. What is chocolate made from?
6. Which country gave The Statue of Liberty to the USA?
7. What year was Miley Cyrus born?
8. What was Justin Beiber's first debut single?
9. What is the name of Phineas and Ferbs' sister?
10. Who said, "Hey, that's my princess! Go find your own" in a successful 2001 movie?

Frequency Tables

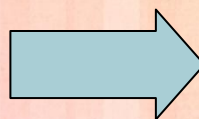

Name _____

Date _____ Period _____

Let's construct a frequency table of our scores!

Score	Tally	Frequency
1		
2		
3		
4		
5		
6		
7		
8		
9		
10		

Score	Frequency
1	
2	
3	
4	
5	
6	
7	
8	
9	
10	

Now, what can we do with this information?

1. We can determine the number of people in the class. How many are there?
2. We can determine the range of the scores in the class. What is the range?
3. We can answer questions about the scores, such as:
 - a. A score of 6 is considered passing. How many people scored 6 or better?
 - b. How many people earned 7 out of 10?

c. How many people earned 4 or 5?

4. We can find the mode of the scores. To do that, _____

The mode is: _____

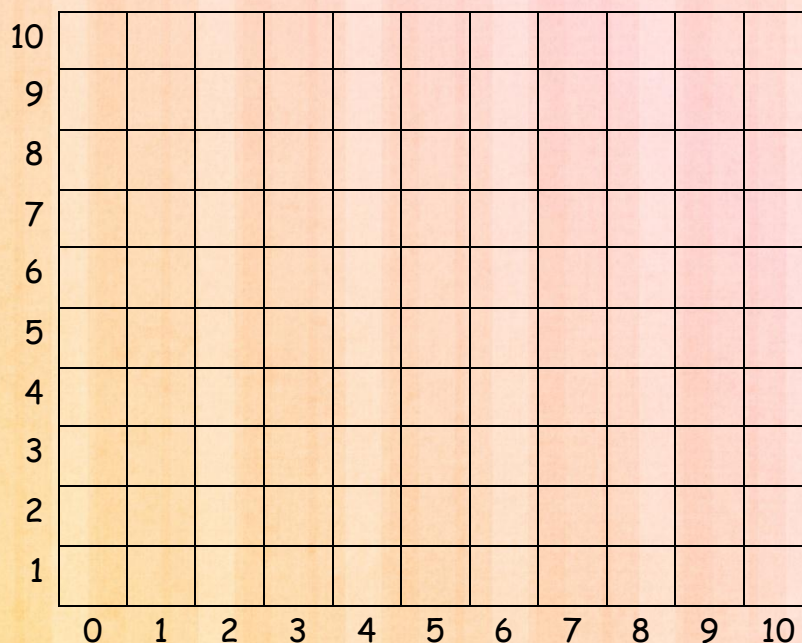

5. We can calculate the median of the scores. To do that, _____

The median is: _____

6. We can calculate the mean of the scores. To do that, _____

The mean is: _____

7. We can construct a HISTOGRAM of our data:

My Quiz Answers

Name: _____

Score: _____

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

9. _____

10. _____

My Quiz Answers

Name: _____

Score: _____

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

9. _____

10. _____

My Quiz Answers

Name: _____

Score: _____

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____

My Quiz Answers

Name: _____

Score: _____

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____

Score the “quizzes” and give each student a score. We will be using the data.

Answers:

1999

v

Personal computer

Pumpkin

Cocoa beans

France

1992

One Time

Candance

Shrek

***Answers for the frequency tables and histogram will vary depending on the student responses!
