Investigation

Wages for the workers

- Make a list of 10 jobs that you would like to do as a student or to do when you have left school.
- Use advertisements for jobs in the newspaper or on the internet to determine likely annual salaries for the 10 positions you have chosen.
- List your results in a table.
- How much weekly work (e.g. number of hours) is involved in each of the positions? Add a column with this information to your table.
