

Area of Triangles

© FREEFALL MATHEMATICS - LICENSED FOR NON-COMMERCIAL USE

Select the 2 measurements to use, circle them, then find the triangle's area.

1

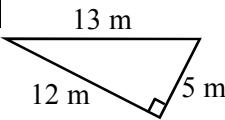

$$A = \frac{1}{2}bh$$

$$= \frac{1}{2} \times \quad \times$$

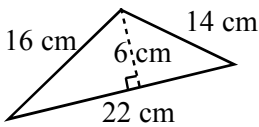

$$A = \quad \text{mm}^2$$

Now find the area in the following problems

11

A triangular sun shade has perpendicular sides of 3.8 m and 6.2 m. Calculate the area

×

12

A triangular section of glass has a base of 4.8 m and a perpendicular height of 7.6 m. Calculate the area.

×

13

A triangular sail has vertical height of 5.2 m and a horizontal base length of 3 m. Calculate its area.

×

14

A triangular garden bed has perpendicular sides of 86 cm and 94 cm. Calculate the bed's area.
