Change the units from mL to cm ³ or the reverse	Now reverse, change these from L to cm ³	Change these volumes from m ³ to litres.
Example 73 mL = 73 cm³	4.3 L = 4 300 cm³ • → • → • → • 3 places right	2.53 m³ = 2 530 L • → • → • → • 3 places right
1 350 mL =	24 2 L =	47 7.2 m ³ =
2 105 mL =	25 0.5 L =	48 0.5 m ³ =
3 56.3 cm ³ =	26 3.1 L =	49 3.7 m ³ =
4 850 mL =	27 0.2 L =	50 0.25 m ³ =
5 2.43 cm ³ =	28 3.5 L =	51 16.403 m ³ =
6 600 cm ³ =	29 1.75 L =	52 0.02 m ³ =
Convert these volumes in cm³ (c.c.) to litres 850 cm³ = 0.85 L • ← • ← • ← • 3 places left	30 0.04 L =	53 5.62 m ³ =
7 1 000 cm ³ =	31 4.03 L =	54 1.01 m ³ =
8 800 cm ³ =	32 0.05 L =	55 7.9035 m ³ =
9 450 cm ³ =	33 0.01 L =	56 18.006 m ³ =
10 2 100 cm ³ =	34 0.2063 L =	57 105.12 m ³ =
11 1 700 cm ³ =	35 2.02 L =	Now change these from litres to cubic metres 2 650 L = 2.65 m³ • ← • ← • ← • 3 places left
12 750 cm ³ =	36 0.25 L =	58 2 000 L =
13 1 250 cm ³ =	37 4.06 L =	59 1 700 L =
14 5 000 cm ³ =	38 0.96 L =	60 800 L =
15 85 cm ³ =	39 3.007 L =	61 3 075 L =
16 4 302 cm ³ =	40 4.55 L =	62 175 L =
17 120.4 cm ³ =	Change the units from kL to m³ or the reverse Example 2.9 m³ = 2.9 kL	63 422 L =
18 333 cm ³ =	41 7 m ³ =	64 9.06 L =
19 2 006 cm ³ =	42 3.84 kL =	65 45.6 L =
20 500 cm ³ =	43 43 kL =	66 115 L =
21 25.1 cm ³ =	44 0.3 m ³ =	67 2 L =
22 1 007 cm ³ =	45 204 m ³ =	68 500.5 L =
23 10 cm ³ =	46 7.06 kL =	69 3 000.6 L =
