- (e) What is the average speed for the 7.54 train between G and H?

3. Ian's local bus leaves every 15 minutes from 9 am to 1 pm. It travels to the train station. The trip takes, on average, 20 minutes. The train leaves that station every 20 minutes from 9.09 am to 1.09 pm. It takes 30 minutes to travel to Perth. Ian has an appointment in Perth at 12.45pm. What is the latest bus he can catch to get to Perth on time?

### Timetable Puzzle

Three trains travel from Central Station to Bridge Station on the same morning. The Fast-track leaves

Central Station 10 minutes after the All Stops train, but arrives at Bridge Station 10 minutes before it.

The All Stops takes 50 minutes to reach Bridge Station and arrives at 10:30.

The Steam train leaves 20 minutes before the All Stops and arrives at Bridge Station 20 minutes after the Express.

Work out the timetable. That is; what time does each train leave Central Station and what time does each train arrive at Bridge Station?
