

YEAR 11 PHYSICS ATAR
Investigation 15.3 - Measuring "g"
Marking Rubric

NAME: _____

		Marks Allocated	Mark
Aim	Clear aim given.	1	
Background	Galileo and his work.	3	
	Relationship found.		
	Other interesting point.		
Method	Experimental set-up.	4	
	Relationship investigated.		
	Logical method given.		
	Repeated trials.		
Results	Headings and units.	3	
	Appropriate columns (T, T ²)		
	Correct significant figures.		
Graph	Correct labels and units - both axes.	4	
	Plotting.		
	Line of best fit		
Gradient	Uses 2 points of line of best fit.	4	
	Correct calculation.		
	Correct significant figures.		
	Correct units.		
Calculation	Calculation using gradient.	2	
Discussion	At least one source of error.	2	
	Suggestion for improvement or how errors were controlled.		
Conclusion	Statement addresses the aim.	1	
		TOTAL	<u>24</u>
