Read **Top ten rules** on page 2 of the magazine and answer questions 1 to 6.

1 What is the purpose of the symbol at the top of the poster?

- ☐ to show there is danger in reading the poster
- ☐ to show that the poster is an exclamation
- ☒ to show the information is important
- ☐ to make the poster more interesting

2 Which person is working safely in the science lab?

- ☒ a person wearing a lab coat during the experiment
- ☐ a person handling a hot glass beaker with bare hands
- ☐ a person leaving to get a drink during the experiment
- ☐ a person running around the lab to catch up on time

3 **Make sure you use soap and let the water run over your hands for at least twenty seconds.**

This statement could add extra information to one of the rules.

Which rule would this statement follow?

- ☐ rule 1
- ☐ rule 2
- ☐ rule 9
- ☒ rule 10

4 According to the poster, what is the first thing to do if something is spilled on the floor?

- ☐ Wash your hands.
- ☐ Move bags out of the way.
- ☐ Tie your hair back.
- ☒ Report the spill.

5 The poster tells us to be careful when handling glassware because

- ☐ it can easily break if not protected.
- ☐ it is needed in experiments.
- ☐ it could contain chemicals.
- ☒ it is hard to tell if it is hot.

6 Which of the same rules would most likely appear on a poster in a school canteen kitchen?

- ☐ rules 1 and 4
- ☒ rules 2 and 9
- ☐ rules 6 and 8
- ☐ rules 3 and 7

Read **Are echidnas the same as hedgehogs?** on page 3 of the magazine and answer questions 7 to 12.

7 According to the text, what makes echidnas and hedgehogs seem closely related?

- ☐ the places they are found
- ☐ the things they eat
- ☒ the way they look
- ☐ the sounds they make

8 What is a baby echidna called?

- ☐ a monotreme
- ☒ a puggle
- ☐ a hoglet
- ☐ a platypus

YEAR 9 READING

9 When echidnas or hedgehogs are in danger they

- ☐ play dead.
- ☐ run away.
- ☐ fight.
- ☒ curl up.

10 When hedgehogs *snuffle* (paragraph 3), what are they doing?

- ☐ scaring away predators
- ☒ searching the area for food
- ☐ breaking open insect nests
- ☐ calling to other hedgehogs
- ☐ eating their food

1 ... a hibernation-like state ... (paragraph 3)

According to the text, how does being in this state help echidnas and hedgehogs?

- ☒ It reduces their need for food.
- ☐ It helps them through a cold winter.
- ☐ It means they can sleep better.
- ☐ It protects them from predators.

2 What information about echidnas and hedgehogs is **not** included in this text?

- ☐ what part of their bodies needs to be protected
- ☐ which of them is a monotreme
- ☒ what their predators are
- ☐ how their young are born

YEAR 9 READING

Read *Time to eat some grub* on page 4 of the magazine and answer questions 13 to 18.

13 What is the main purpose of this text?

- ☐ to give a summary of the history of eating insects
- ☐ to warn readers that not all insects are safe to eat
- ☒ to convince readers of the benefits of eating insects
- ☐ to give facts about eating insects

14 Which word in this sentence shows that insect meals are often eaten by people?

Are you aware that today an estimated 2 billion people around the world
regularly eat insects?

15 Look at paragraph 2.

Why does the writer include the information in brackets?

- ☒ to explain the meaning of a word
- ☐ to point out a common problem
- ☐ to show an example
- ☐ to give an opinion

16 In paragraph 2, the word *delicacies* tells the reader that

- ☐ cooking insects is quite simple.
- ☒ insects can be a very tasty treat.
- ☐ many insects are not dangerous to eat.
- ☐ only a few insect types can be eaten.

YEAR 9 READING

What fact from paragraph 3 does the writer think will be surprising?

- ☐ A diet containing insects can be good for you.
- ☐ Insects have similar nutrition levels to beef and pork.
- ☐ Insects can be high in good fats.
- ☒ There is a high percentage of protein in termites.

The writer's message is meant for a reader who

- ☐ has only eaten some of the more popular insects.
- ☐ like a lot of people, already eats insects.
- ☐ eats insects as well as other foods rich in nutrients.
- ☒ has never eaten insects although eating them is common.

Read *The Lost City* on page 5 of the magazine and answer questions 19 to 25.

Which one of the following words best describes this text?

- ☐ factual
- ☐ emotional
- ☒ descriptive
- ☐ dramatic

The monkeys gathered in *scuffling crowds*.

This suggests the monkeys were

- ☒ brawling together.
- ☐ difficult to notice.
- ☐ forever moving.
- ☐ crying alone.

YEAR 9 READING

21 In the second paragraph, the word *crowned* helps to explain

- ☐ why the palace has no roof.
- ☐ where the king once lived.
- ☒ where the palace was located.
- ☐ why the domes had been shattered.

22 ... rows and rows of roofless houses ...

... like empty honeycombs filled with blackness ...

These descriptions suggest that the houses had been

- ☒ carefully arranged in a regular layout but had since been abandoned.
- ☐ a hive of lively activity despite their lack of water and poor design.
- ☐ deserted by the builders before construction was completed.
- ☐ occupied and damaged by the animals of the surrounding area.

23 The main point of the last paragraph is to

- ☒ highlight the repetitive behaviour of the monkeys.
- ☐ focus on the vastness of the city and the king's garden.
- ☐ contrast the former beauty of the city with its current desolation.
- ☐ compare the actions of the monkeys with the actions of the crowds.

24 The monkeys went to the city to

- ☐ collect building materials for their homes.
- ☒ enjoy themselves and roam freely.
- ☐ shelter when they grew bored of the tree-tops.
- ☐ learn how men lived and ruled each other.

25 The city is best described as

- ☐ a place that could easily be restored to its past glory.
- ☐ a dangerous place that only wild animals would want to visit.
- ☐ a fantastically preserved royal city that is hidden in a remote location.
- ☒ a once prosperous and magnificent place that has fallen into ruin.

YEAR 9 READING

Read *The quest for the golden fleece* on page 6 of the magazine and answer questions 26 to 31.

Why is Pelias disturbed by Jason's arrival?

- ☐ Jason is too much like Pelias's brother, Aeson.
- ☐ Jason has challenged Pelias to a fight for the throne.
- ☒ Pelias knows Jason has a genuine claim to the crown.
- ☐ Pelias thinks that Jason has the people's support.

Where Aeson had been a fair and noble ruler, Pelias was cunning and ruled without mercy. (paragraph 1)

What is the purpose of this sentence?

- ☐ to explain that being fair is better than being merciless
- ☐ to show that Jason was like Aeson
- ☒ to contrast Jason's father with Jason's uncle
- ☐ to draw a comparison between Jason and Pelias

Why does the writer use a question at the end of the second paragraph?

- ☒ to show what Pelias is thinking
- ☐ to interpret the ancient prophecy
- ☐ to suggest that Jason's request is unreasonable
- ☐ to reveal what Pelias is asking the gods

Why does Jason accept the quest for the golden fleece?

- ☒ Jason believes it is the only way to force Pelias to give up the throne.
- ☐ As the rightful king, Pelias can order Jason to perform any task he sets.
- ☐ Jason is fulfilling a prophecy that he would make his fortune on a quest.
- ☐ Jason knows the golden fleece will give him special powers to use against his uncle.

YEAR 9 READING

30 In the second paragraph, Pelias considers his nephew *shrewdly*. This means that Pelias

- ☐ is unsure what Jason wanted.
- ☒ thinks cleverly and carefully about Jason.
- ☐ contemplates agreeing to Jason's claim.
- ☐ is distressed that Jason has returned.

31 Which of the following quotations implies that Pelias is untrustworthy?

- ☐ ... to take his place as the rightful king.
- ☐ ... Pelias was not the sort of man to give up ... without a fight.
- ☒ Pelias made a great show ...
- ☐ He would set Jason a heroic task ...

Read *A new view of alchemy* on page 7 of the magazine and answer questions 32 to 37.

32 According to the text, in which of the following principles did alchemists believe?

- ☐ Salt and sulfur must be removed to create gold from metals.
- ☐ Mercury is the most precious metal.
- ☒ The components of metals can be adjusted to create gold.
- ☐ Gold and mercury are the same material, but in different forms.

33 Why does the writer call the scientists *intellectual giants* in paragraph 2?

- ☐ The writer thinks the scientists were arrogant.
- ☒ The writer respects the work and ideas of the scientists.
- ☐ The writer wishes the work of the scientists was based in reality.
- ☐ The writer believes that the scientists were given too much praise.

YEAR 9 READING

They expended intellectual and physical resources in pursuit of the Philosopher's Stone, the secret material that was the key to making gold. (paragraph 3)

In this sentence, the writer

- ☐ presents the search for the Philosopher's Stone as a poor use of time.
- ☐ implies a belief that the Philosopher's Stone might really exist.
- ☒ presents the idea of the Philosopher's Stone without criticising it.
- ☐ expresses regret that the Philosopher's Stone turned out not to exist.

The writer suggests that alchemists' ideas about mercury and sulfur

- ☐ were logical given their assumptions.
- ☒ contained a small element of truth.
- ☐ were based on insufficient thought.
- ☐ remained popular despite contrary evidence.

Which **two** ideas are best expressed in this text?

Choose **two**.

- ☐ Alchemy can never be a successful scientific field.
- ☒ Scientific study changes as information becomes available.
- ☐ Famous scientists often do work that is misguided.
- ☐ Today's scientists are superior to those of the past.
- ☒ There have been positive results from the study of alchemy.

Which words best describe how the study of alchemy is generally considered nowadays?

Choose **three**.

- ☐ risky
- ☐ pioneering
- ☒ disreputable
- ☒ laughable
- ☐ immoral
- ☒ futile
- ☐ tragic

YEAR 9 READING

Read *The ball houses of the Netherlands* on page 8 of the magazine and answer questions 38 to 43.

38 The words in italics at the end of the first paragraph are

- ☒ Anna's thoughts about a comment she has often heard before.
- ☐ Anna's outburst in response to the narrator's comment.
- ☐ the narrator's interpretation of Anna's reaction.
- ☐ the narrator imagining her own reaction.

39 Why does the narrator say the word '*Paddestoel*' excitedly?

Choose **two**.

- ☐ She knows the answer to a question the guide has asked the tour group.
- ☐ She has been regularly studying Dutch for this trip.
- ☐ She has caught her first glimpse of the famed ball houses.
- ☐ She sees the perfect opportunity to use one of her few Dutch words.
- ☒ She is claiming to be the first person on the bus to see the ball houses.

40 Which word in this sentence from paragraph 2 foreshadows the sentence immediately following it?

I found it challenging to overcome the novelty value, in spite of Anna's detailed,
monotone explanation.

41 What is the narrator trying to achieve by engaging Anna in conversation in paragraph 3?

- ☐ The narrator is hoping that Anna will recognise that she is well informed about the community.
- ☐ The narrator is giving Anna a cue about something she should have explained.
- ☐ The narrator is trying to find out more about the community from Anna.
- ☒ The narrator is looking for a topic that will decrease Anna's hostility.

YEAR 9 READING

Which statement best captures the narrator's main struggle?

- ☐ The results of the narrator's actions are contrary to her intentions.
- ☐ The narrator is learning that conversation signals aren't the same in every culture.
- ☒ The narrator is analysing whether she made the right decision in coming on this tour.
- ☐ The first impression created by the narrator failed to impress Anna.

Which of these statements does the narrator **believe** and which does the narrator **not believe** about Anna?

Shade **one** bubble in each row.

	Does believe	Does not believe
Anna finds it tedious to discuss the community's history on tours.	☒	☐
Anna has overreacted to an attempt at humour.	☐	☒
Anna is ignoring the narrator's comments on purpose.	☒	☐

Read *A mind without a brain* on page 9 of the magazine and answer questions 44 to 49.

4 What does the writer assume about the beliefs the reader brings to the text?

- ☐ that actions of plants are too minute to monitor
- ☒ that plants are not capable of intelligent behaviour
- ☐ that current research into plant behaviour is mis-targeted
- ☐ that all living things have their own timescales

YEAR 9 READING

45 ... *inanimate and inactive*. (paragraph 2)

Which statements best describe the implications being made about plants in this quotation?

Choose **two**.

- ☐ Plants are capable of sensing movements around them.
- ☐ Plants are defenceless against the forces of nature.
- ☒ Plants are unresponsive to external stimuli.
- ☒ Plants remain motionless despite changes occurring around them.
- ☐ Plants take a long time to adapt to alterations in their environment.

46 Which sentence in paragraph 2 is the **topic sentence** and which sentence gives **supporting evidence** for the topic sentence?

Shade **one** bubble in each column.

	Topic sentence	Supporting evidence
Sentence 1 beginning <i>This is counter ...</i>	☒	☐
Sentence 2 beginning <i>Yet an increasing ...</i>	☐	☒
Sentence 3 beginning <i>This is not ...</i>	☒	☐
Sentence 4 beginning <i>Charles Darwin himself ...</i>	☒	☐

47 In the timescales in which we normally perceive them ... (paragraph 3)

This information is included to show that humans think that plants

- ☐ are only active under optimal conditions.
- ☐ adhere to uniform growth timelines.
- ☐ adapt rapidly to environmental changes.
- ☒ are inactive because activity is difficult to detect.

YEAR 9 READING

Which of the following are **not** included in the last paragraph?

Choose **all** that apply.

- ☒ the introduction of new information to form the basis of further discussion
- ☐ a restatement of the text's main topic
- ☒ a first indication of the writer's opinion on the topic
- ☒ an acknowledgement of assumptions advanced earlier in the text
- ☐ a suggestion of the need for future research on the topic

Which of these statements are **supported** and which are **not supported** by the text?

Shade **one** bubble in each row.

	Supported	Not supported
There is strong support for the conclusion that plants demonstrate self-conscious behaviour.	☐	☒
Hormone activity mainly forms the basis for the manner in which plants can be said to sense stimuli.	☒	☐
Without the network of fungi living among the roots of forest trees, the forest would die out.	☒	☐

STOP – END OF TEST

YEAR 9 READING
