### Measurement & Area

(4 Marks)

1 Name these shapes.

a

b

c

d

(6 Marks)

2 Write the missing number.

a  $1 \text{ km} = \boxed{\phantom{000}} \text{ m}$

b  $1 \text{ m} = \boxed{\phantom{000}} \text{ cm}$

c  $1 \text{ cm} = \boxed{\phantom{000}} \text{ mm}$

d  $1 \text{ L} = \boxed{\phantom{000}} \text{ mL}$

e  $0.5 \text{ km} = \boxed{\phantom{000}} \text{ m}$

f  $2.5 \text{ cm} = \boxed{\phantom{000}} \text{ mm}$

(3 Marks)

3 Find the perimeter of these shapes.

a

b

c

(4 Marks)

4 Use these rules to find the circumference ( $C$ ) and area ( $A$ ) of the circles correct to one decimal place:  $C = 2\pi r$  and  $A = \pi r^2$  where  $r$  is the radius.

a

b

(6 Marks)

- 5 Find the area of these triangles using  $A = \frac{1}{2}bh$ .

## Surface Area

(9 Marks)

- 6 Find the total surface area of these solids.

(8 Marks)

- 7 Use Pythagoras' theorem to determine any unknown side lengths and find the total surface area of these solids, correct to one decimal place.

(8 Marks)

8 Find the total surface area of these solids.

a

b

## Volume

9. Find the volume of a cube of side 15 m.

(2 Marks)

(8 Marks)

10. Calculate the volume of these 3D figures

a)

b)

(6 Marks)

c)

## Extension:

(4 Marks)

Calculate the surface area and Volume of the following

**a**

**b**

16  
10

(6 Marks)

**c**
