

Rearranging Simple Formulae

'Make p the subject of the formula' means rearrange the formula so it looks like ' $p =$ '.

- 1). $C = \pi d$ Make d the subject of the formula.
- 2). $V = IR$ Make the subject of the formula
a). I
b). R .
- 3). $s = vt$ Make the subject of the formula
a). v
b). t .
- 4). $A = \pi ab$ Make the subject of the formula
a). a
b). b .
- 5). $V = lbh$ Make the subject of the formula
a). l
b). b
c). h .
- 6). $A = \pi r^2$ Make r^2 the subject of the formula.
- 7). $E = Ri^2$ Make the subject of the formula
a). R
b). i^2 .
- 8). $V = \pi r^2 h$ Make the subject of the formula
a). h
b). r^2 .
- 9). $P = Ri^2 t$ Make the subject of the formula
a). R
b). t
c). i^2 .
- 10). $r^2 = \frac{A}{4\pi}$ Make A the subject of the formula.
- 11). $A = \frac{bh}{2}$ Make the subject of the formula
a). b
b). h .
- 12). $V = \frac{D}{T}$ Make the subject of the formula
a). D
b). T .
- 13). $P = \frac{F}{A}$ Make the subject of the formula
a). F
b). A .
- 14). $D = \frac{M}{V}$ Make the subject of the formula
a). M
b). V .
- 15). $I = \frac{PRT}{100}$ Make the subject of the formula
a). P
b). R
c). T .
