

Algebra I - Introduction to Quadratic Functions Worksheet

Graph the following quadratic functions. Find the vertex and two other points by using an x/y chart.

1. $y = x^2 + 4x + 3$

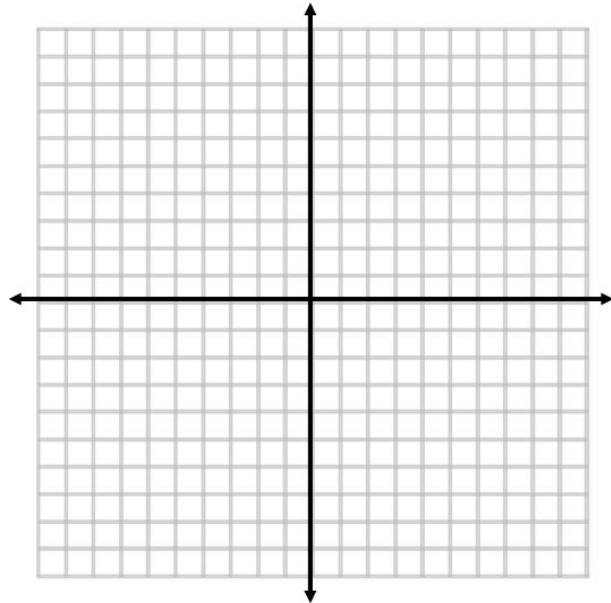

2. $y = x^2$

Graph the following quadratic functions. Find the vertex and two other points by using an x|y chart.

3. $y = 3x^2 - 6x + 1$

4. $y = -2x^2 + 8x$
