

Topic 2 - Linear Equations
Lesson 2.
Continue

from maths/resources/sadler

Sadler Resource 2.

pg 118, 119 & 120.

- Selection of questions

move onto Dwyer Page 18.

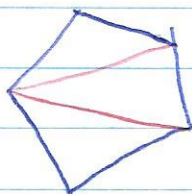

1. Write the formula
2. Substitute
3. Solve for the unknown.

Ex 2.1

use example in blue box
then work through Q1 with students
those happy to continue on own can
do so for those still needing guidance
work through Q2.

Ex 2.2

* for those that have ~~not~~ forgotten.

sum of interior angles of
polygon.

5 side = 3 triangles

$$\therefore 3 \times 180 =$$
