

Inter-Quartile Range Worksheet

The new common core has added many new standards to grade 6. In one of these new standards, students must learn to find inter-quartile range. This is a double-sided worksheet that can be given to students on inter-quartile range. It is a worksheet that DOES NOT include the use of box-and-whisker plots. This worksheet and others can be found in my Statistics Unit.

6.SP.1 Recognize a statistical question as one that anticipates variability in the data related to the question and accounts for it in the answers.

6.SP.2 Understand that a set of data collected to answer a statistical question has a distribution which can be described by its center, spread, and overall shape.

6.SP.3 Recognize that a measure of center for a numerical data set summarizes all of its values with a single number, while a measure of variation describes how its values vary with a single number.

Interquartile Range

Name: _____

Date: _____

Math Class: _____

Sam went golfing. Below you will find his scores on the first 9 holes.

Hole 1	Hole 2	Hole 3	Hole 4	Hole 5	Hole 6	Hole 7	Hole 8	Hole 9
3	1	5	4	1	3	3	4	3

Order the numbers from least to greatest

Find the median.

Median = _____

Find the Q_1 (lower quartile). It is the middle number of the lower half of the set of numbers.

_____ Median _____

Find the middle

Find the Q_3 (upper quartile). It is the middle number of the upper half of the set of numbers.

_____ Median _____

Find the middle

Find the interquartile range by $Q_3 - Q_1$

Use the data set below to answer the questions.

8 2 4 5 6 2 4 2 6 3 1

Median? _____

Q_1 ? _____

Q_3 ? _____

Interquartile Range? _____

Use the data set below to answer the questions.

12 15 12 11 14 13 12 11 15

Median? _____

Q_1 ? _____

Q_3 ? _____

Interquartile Range? _____

Use the data set below to answer the questions.

24 48 28 30 32 24 30

Median? _____

Q_1 ? _____

Q_3 ? _____

Interquartile Range? _____

Use the data set below to answer the questions.

3 9 4 2 9 6 7 4 6 8 6 5

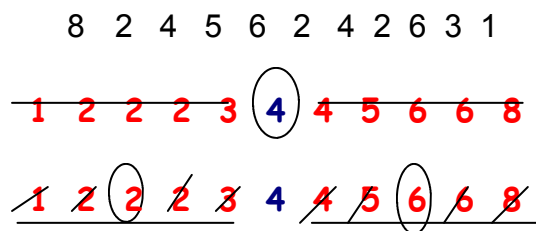

Median? _____

Q_1 ? _____

Q_3 ? _____

Interquartile Range? _____

Use the data set below to answer the questions.

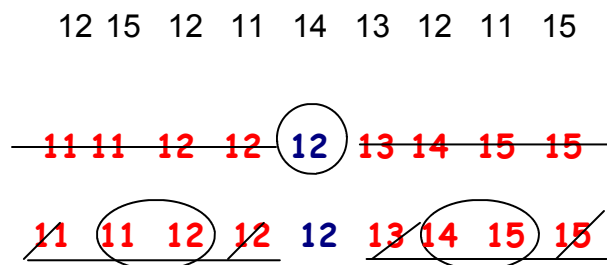

Median? **4**

Q_1 ? **2**

Q_3 ? **6**

Interquartile Range? **$6 - 2 = 4$**

Use the data set below to answer the questions.

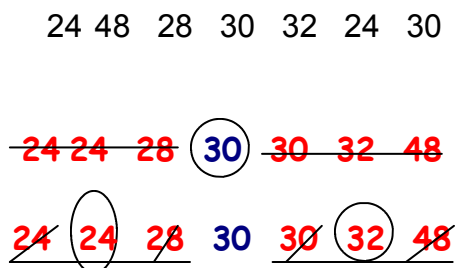

Median? **12**

Q_1 ? **11.5**

Q_3 ? **14.5**

Interquartile Range? **$14.5 - 11.5 = 3$**

Use the data set below to answer the questions.

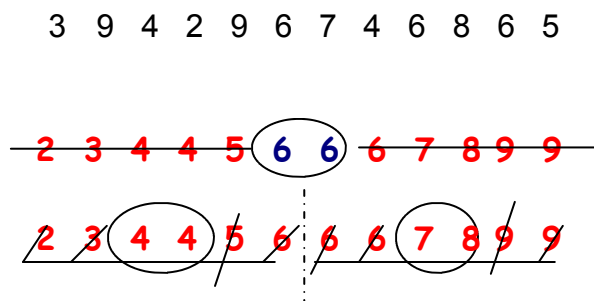

Median? **30**

Q_1 ? **24**

Q_3 ? **32**

Interquartile Range? **$32 - 24 = 8$**

Use the data set below to answer the questions.

Median? **6**

Q_1 ? **4**

Q_3 ? **7.5**

Interquartile Range? **$7.5 - 4 = 3.5$**
