

Find your way through the maze to give the biggest value at the end.

Find your way through the maze to give the biggest value at the end.

Find your way through the maze to give the biggest value at the end.

Teacher notes

Page 1 is designed to be projected onto an IWB.

Page 2 is for printing.

Students should first start with 5, writing the answers in the boxes. They then try to find a route through the maze that gives the largest total. (Each box can't be visited more than once.)

This activity can be repeated with other values for a such as:

- a two digit number,
- a negative number,
- a fraction,
- a decimal.
