

Topic: Number

EQ: How do I use a range of multiplication skills to multiply 2 digit numbers?

- ① Mental arithmetic → blank times table chart
→ stop watch
→ "Can you beat your time from last lesson".
- ② Show "Fastest way to Learn Multiplication Facts (myMathT.A) Youtube clip.
→ also add a discussion on (4x tables is double 2x, 6x is double 3x)

③ 46×9

$$\begin{array}{r} 5 \swarrow \\ 46 \\ \times 9 \\ \hline 414 \end{array}$$

	5	+	4
46	40	200	160
6	30	24	

$$\begin{array}{r} 200 \\ 160 \\ + 30 \\ \hline 24 \\ \hline 414 \end{array}$$

32×7

	5	+	2
32	30	150	60
2	10	4	

$$\begin{array}{r} 150 \\ + 60 \\ + 10 \\ \hline 4 \\ \hline 224 \end{array}$$

Your turn: → 57×8
→ 82×6

- ④ Project 2 - multiplication: Double digit x double digit worksheet

- Students to write 5 steps into notes
- Work through first 2 examples on sheet
- Students to work through the rest independantly
- Early finishers challenge Q: $(2x+3)(3x-5)$
