

Name _____

Date _____

1 Write or draw your answer.

a		-		=	_____
b		-		=	_____
c		+		-	
d		+		+	
e		+		-	

Find change by counting on, eg \$5 - \$2.50 = (50 cents more to \$3), then (\$2 more to make \$5), total = \$2.50 change.

2 Show your working. What change will you receive when you:

a use \$5 to pay for a card that

costs \$3.50?

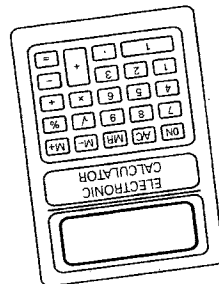

b give \$10 to pay for

glue costing \$6.50?

c use \$5 to buy a drink

for \$2.80?

d hand over \$10 to pay for a magazine costing \$7.80?

3

Use a calculator to solve these. *Eshmate*

a $\$26.30 - \$15.90 - \$3.55 =$ _____

b $\$15.00 + \$3.50 + \$0.90 + \$1.25 =$ _____

c $\$100 + \$20 + \$50 + \$5 =$ _____

d $\$359 - \$127 =$ _____
