Carl

Jackson

Amelia

1. Carl, Jackson, and Amelia are racing at the fair. How fast is each of them driving?

Carl

Jackson

Amelia

2. The three have another race. Carl is driving the fastest. Amelia is driving the slowest. Write the names of the drivers under the correct speedometer.

3. Carl, Jackson, and Amelia stop for a drink. This is how much they each have in their bottles. Put $<$, $>$, or $=$ between the bottles. Under each bottle, write how much it contains.

Carl

Jackson

Amelia

4. Carl, Jackson, and Amelia are making a fruit drink. Their bottle will fit 50 mL of drink.

How many different drink combinations can you find that will fill the bottle?

Example: They could make apple and cherry (30 mL + 20 mL = 50 mL)

5. There is a minimum height of 48 in. for the “Cheetah Chase” ride. Who is tall enough to go on the ride?

How much taller does Amelia need to be to go on the ride?

6. The children place a thermometer in three different rooms in the house. Write the temperature of the room in the box below the picture.

7. They decide to do some baking. Whose ingredients weigh the least? How much does the least amount weigh?

Reading Scales Answer Sheet

Question	Answer
1	Carl: 20 Jackson: 30 Amelia: 40
2	left: Jackson middle: Amelia right: Carl
3	Carl < Jackson > Amelia Carl: 50 Jackson: 75 Amelia: 60
4	Apple, cherry Banana x2 Lemon, blueberry Strawberry Orange x5 Apple, orange x 2 Cherry, orange x3 Cherry x 2 , orange Blueberry x2, cherry
5	Jackson and Carl Amelia needs to be 3 in taller.
6	living room: 60°F dining room: 75°F kitchen: 65°F
7	Jackson, 70 g
