

Choosing any starting card, decide if the statement is true or false to create a path through the cards, noting down the letters as you go. Identify the starting letter to spell out your final task.

1 E $12.7 \times 100 = 12.700$	True? Go to 9. False? Go to 8.	2 U $3600 \div 10 = 36$	True? Go to 7. False? Go to 16.
3 E $3600 \div 1000 = 36$	True? Go to 15. False? Go to 6.	4 S $28.2 \times 100 = 28200$	True? Go to 9. False? Go to 15.
5 N $13.2 \div 100 = 0.132$	True? Go to 12. False? Go to 11.	6 T $0.27 \times 1000 = 270$	True? Go to 1. False? Go to 10.
7 D $0.36 \div 10 = 3.6$	True? Go to 2. False? Go to 4.	8 N $451 \div 100 = 4.51$	True? Go to 13. False? Go to 16.
9 I $2730 \times 10 = 27300$	True? Go to 14. False? Go to 16.	10 O $2.73 \times 10 = 273$	True? Go to 15. False? Go to 2.
11 I $7.62 \div 100 = 0.0762$	True? Go to 5. False? Go to 7.	12 P $4.02 \times 10 = 42$	True? Go to 13. False? Go to 10.
13 P $413 \div 1000 = 0.413$	True? Go to 11. False? Go to 6.	14 V $98 \div 1000 = 0.98$	True? Go to 5. False? Go to 3.
15 G $6.72 \times 1000 = 6720$	True? Go to 9. False? Go to 11.	16 N $476 \div 100 = 4.76$	True? Go to 7. False? Go to 12.

Teaching notes

This resource contains 16 calculations, multiplying or dividing decimals by powers of ten. Students must decide if the statements are true or false to find the correct order of cards. This resource makes an excellent homework sheet, or a great starter before introducing standard form.

You can decide whether to cut out the cards or not – the activity works well either way. You could even decide to use this activity as a treasure hunt, by photocopying the cards onto A3, cutting out and hanging around the room.

The cards form a loop, so students will have to work out the starting card to decipher the final fraction.

You could extend the activity by asking students to correct the cards which are false.

Answers

The starting card is **15**. The final task is '**Give ten p in pounds**'.

15 G	9 I	14 V	3 E		6 T	1 E	8 N		13 P
11 I	5 N		12 P	10 O	2 U	16 N	7 D	4 S
