A money  
B responsibility  
C verbal abuse  
D praise
- 11 Assertive communication is usually aggressive.  
☐ True  
☐ False
- 12 A common barrier to effective listening is \_\_\_\_\_ the speaker.  
A hugging  
B disliking  
C topping  
D deactivating
- 13 Research on the nature of friendships is a source of information about the role of communication in relationships.  
☐ True  
☐ False
- 14 An example of an 'I' statement is:  
A 'You are annoying me. Get lost!'  
B 'I'd like to be able to tell you my side of the story without interruption.'  
C 'For goodness sake, stop interrupting me!'  
D 'You don't really intend to go out looking like THAT!'
- 15 Assertive communication involves saying something that shows you are trying to \_\_\_\_\_ the other person's position or point of view.  
A understand  
B change  
C solve  
D ignore

16 \_\_\_\_\_ listening occurs when the listener attends to the speaker fully, tries to understand what is important for the speaker and asks questions when they do not understand.

- A Assertive
- B Aggressive
- C Attentive
- D Active

17 Match each term with its correct definition.

|                                     |                                                                                                   |
|-------------------------------------|---------------------------------------------------------------------------------------------------|
| <b>a</b> Conductive hearing loss    | <b>i</b> Bionic ear                                                                               |
| <b>b</b> Sensorineural hearing loss | <b>ii</b> Australian Sign Language                                                                |
| <b>c</b> Lip read                   | <b>iii</b> A type of hearing impairment due to a problem in the cochlea or the hearing nerve      |
| <b>d</b> Auslan                     | <b>iv</b> A treatable form of hearing impairment often resulting from infection in the middle ear |
| <b>e</b> Cochlear implant           | <b>v</b> Understand speech by interpreting the movements of the face, lips and tongue             |

18 Most research shows that the educational progress of children with cochlear implants \_\_\_\_\_ that of children with hearing aids.

- A exceeds
- B is the same as
- C is slower than
- D cannot be compared with

19 Although children enjoy it when their mothers read to them, it has no benefit for their language development.

- ☐ True
- ☐ False

20 There are five main conventions in hand shaking.

- ☐ True
- ☐ False

21 A limp hand shake may be interpreted as \_\_\_\_\_.

- A excitement
- B respectfulness
- C welcoming
- D rudeness

## Review questions answers

- 1 non-verbal
- 2 a iii; b v; c iv; d ii; e i
- 3 False. Research has shown that girls tend to be better than boys at sending non-verbal messages and interpreting each others' signals.
- 4 B
- 5 B
- 6 True
- 7 listener
- 8 False
- 9 C
- 10 B
- 11 False
- 12 C
- 13 True
- 14 B
- 15 A
- 16 D
- 17 a iv; b iii; c v; d ii; e i
- 18 A
- 19 False
- 20 False
- 21 D
